This Commentary is brought to you for free and open access by UNI ScholarWorks. It has been accepted for inclusion in The Journal of the Iowa Academy of Science: JIAS by an authorized editor of UNI ScholarWorks. For more information, please contact scholarworks@uni.edu.
NOTE TO MEMBERS AND SUBSCRIBERS:

This combined issue of Volume 101, Number 3 and Number 4 is coming to you after a long delay in completing the necessary procedures to make it suitable for publication. The former Editor-in-Chief, Kenneth Windom, assisted in carrying through the process in conjunction with Carol Jacobs, the Editor-in-Chief appointed by the IAS Board in April of 1994.

We regret the delay and any inconveniences and problems that it may have caused to our authors, editors and readers. We anticipate that the numbered issues for Volume 102 (for the year 1995) will also be delayed, but we intend to expedite the process to have them finished and into your hands as soon as possible. We ask that you please bear with us as we allow sufficient time for the manuscripts on hand to be appropriately reviewed and published with the same rigorous standard that has made the JIAS a quality publication for scientists all over the world.

My personal thanks go to Ken Windom for taking time from his busy schedule to complete this combined issue.

Paul E. Rider
