LETTER OF CONGRATULATIONS

Congratulations to the members of the Global Health Corps on the launching of their new publication, *International Journal of Global Health*. The foundation of a good life is good health. The students and faculty belonging to the Corps are dedicated to, have already made great strides toward a goal to help improve the health and the lives of others in America and around the world.

There are many aspects of the University of Northern Iowa that make it a unique and outstanding institution of higher learning. However, there is none so great as the atmosphere that fosters both the development and delivery of a service such as the Global Health Corps. To paraphrase Martin Luther King Jr., “No man is free until all mankind is free.” The Global Health Corps understands and embodies this idea in its quest to free those less fortunate from the oppression of unhealthy lives and environments.

On behalf of the Board of Regents, State of Iowa, I extend my congratulations to the Corps on their past accomplishments and the launching of this new journal which will extend the reach of the Corps even further.

Sincerely,

Deborah Ann Turner, M.D.
Board of Regents, State of Iowa
