December 2012

Dear Panther Grads,

Congratulations! We are excited for you as you begin the next chapter of your life. We are so proud of all of your accomplishments and pleased you chose to pursue your degree at the University of Northern Iowa.

You dedicated many hours at UNI to bettering yourself through research, writing, engaging and learning. With a diploma from UNI, you enter the world armed with a first-rate education.

Our administration is focused on reaching key goals, including the creation of 200,000 new Iowa jobs, a 25 percent increase in family incomes and to again have the best schools in the nation. We hope that you will join us in reaching these goals by remaining in Iowa to establish your career.

There are currently more than 12,000 UNI alumni teaching in classrooms across the state imparting knowledge to the leaders of tomorrow. Additionally, thousands of UNI alumni are succeeding in the business world working for some of the nation’s top companies right here in Iowa.

We are hopeful that you will set and achieve your own ambitious goals, whether it is in the lab researching the next scientific breakthrough, helping others succeed through a non-profit initiative, or giving back to your community in whatever field you choose!

Again, congratulations and best wishes in your future endeavors!

Sincerely,

Terry E. Branstad
Governor of Iowa

Kim Reynolds
Lt. Governor of Iowa

#### Graduate College

All graduate degree candidates are listed under the college of their academic major.
The Academic Procession

The procession begins with the entrance of the candidates for degrees. Led by faculty marshals, the candidates for the degree of Bachelor of Arts, both the Teaching Program and the Liberal Arts Program, Bachelor of Fine Arts, Bachelor of Liberal Studies, Bachelor of Music and Bachelor of Science enter in groups, representing each of the undergraduate colleges. They are followed by the candidates for the highest degrees.

Students wearing a bronze medallion are those graduating summa cum laude (with highest honors), which represent the top three percent of each college by grade point average; or those graduating students receiving a Purple and Old Gold Award, given to those students who have excelled in scholarship or who have shown conspicuous achievement in particular areas.

The procession continues with representatives of the faculty.

The President's Party forms the final section of the academic procession. Headed by the commencement marshal, it includes the president; members of the Board of Regents, state of Iowa; administrative officers; the academic deans; and honored guests.

The commencement marshal carries the University Mace, designed and fashioned for the Centennial Commencement in 1976 by Randall Swanson, at that time a freshman majoring in Industrial Arts. A traditional symbol of authority, the mace is a carved wood rod capped with ends of cast bronze, with the top carrying the seal of the university. The president wears a jeweled "Chain of Office" symbolizing the wearer is the leader of the institution. The silver chain includes links with the names of previous presidents of the institution, as well as previous names of the university.

The academic costumes worn trace their origin to the Middle Ages when long-sleeved hooded gowns were necessary for warmth in the unheated stone colleges. Over the centuries, much diversity occurred, and to bring some order, in the United States in 1894 an intercollegiate system of academic costume was agreed on, now adhered to by American institutions. According to this code, both the styling and colors of the regalia have significance.

The design of the gown indicates the degree. The bachelor's is a simple gown with a full sleeve. The master's gown is much like it except for the long sleeve which hangs loose. The doctoral gown is fuller and more elaborate. It has velvet edging and three velvet stripes on the full sleeve. The color of this velvet may be black or in the color appropriate to the degree.

Hoods, which are worn over the gowns, are similar for all degrees, although differing slightly in length. The candidates for the bachelor's degrees usually do not wear the hood. The hood has a velvet edging which indicates the area of the degree, and the inside or lining of the hood is satin in the colors of the college or university granting the degree.

A partial list of the degree colors to be found on the edge of the hood or the trimming on the doctoral gown is as follows:

- Apricot - Nursing
- Blue, dark - Philosophy
- Blue, light - Education
- Brown - Fine Arts
- Citron - Social Science
- Copper - Economics
- Drab - Business
- Green - Medicine
- Green Sage - Physical Education
- Lemon - Library Science
- Maize - Agriculture
- Maroon - Family and Consumer Sciences
- Orange - Engineering
- Pink - Music
- Purple - Law
- Scarlet - Theology
- White - Arts and Letters
- Yellow, Golden - Science
Service Organizations

Omicron Delta Kappa
Graduates wearing a white stole are members of Omicron Delta Kappa which is a junior-senior honorary organization which recognizes students who have demonstrated high levels of academic achievements, leadership in campus affairs, and community service.

Student Admissions Ambassadors
Graduates wearing purple and gold intertwined cords are members of the Student Admissions Ambassadors (SAA). Since 1989, SAA has served the University in a variety of ways. From giving campus tours to prospective students, alumni and University guests, to serving as representatives of the student body at special events, SAA is recognized as one of the premier service organizations on campus.

National Residence Hall Honorary
Graduates wearing royal blue and white cords are members of the National Residence Hall Honorary, an honorary organization recognizing the top one percent of leaders who live on campus. Members are inducted for showing continual service to the community, leadership within the residence halls, recognition of others in their endeavors, and outstanding scholarship during their tenure living on campus.

Phi Eta Sigma
Graduates wearing black and gold cords are members of Phi Eta Sigma which recognizes first-year students who have a cumulative grade point average of at least 3.5 on a 4.0 scale at the close of any full-time curricular period during their first year.

Northern Iowa Student Government
Graduates wearing gold stoles are members of the Northern Iowa Student Government (NISG). Since 1916, various governing bodies comprised of students have represented the student body as a whole. NISG, as the student governing body has been called since 1989, is committed to improving the administration of student affairs, encouraging the greatest level of communication and cooperation, ensuring the protection of student rights, and providing excellence in education.

CATS
Graduates wearing purple and black cords are members of Connecting Alumni To Students (CATS), the official student chapter of the UNI Alumni Association. These dedicated students represent the UNI student body to alumni and friends. CATS create and promote the lasting connections between past, present and future Panthers.
Academic Honorary Organizations

Students who are members of academic honorary organizations will be identified by the color of cord they are wearing as follows:

University Honors Program

Graduates wearing gold University Honors medallions are recipients of designations from the University Honors Program. The designation of University Honors with Distinction indicates the completion of at least thirty credit hours of honors-level course work throughout a student's undergraduate study. The designation of University Honors indicates the completion of at least eighteen credit hours of honors-level coursework. Both designations require the completion of an undergraduate honors thesis. Students earning honors designations are noted throughout the commencement program along with their thesis titles.

Legacy Graduates

The University of Northern Iowa has a long and proud tradition of multi-generational family graduates. The Legacy designation in the commencement program signifies that a parent and/or grandparent are also UNI graduates. The UNI Alumni Association celebrates this special connection with alma mater and welcomes all alumni to submit their legacy information to info@unialum.org. Legacy information included in this program was submitted by the graduate.

Military Science

The following graduate has earned a commission as a Second Lieutenant in the United States Army.

UNI Faculty Making a Difference

"My advisor and professor, Elaine Eshbaugh, has had a lasting influence on me professionally and personally. She has promoted and supported my extracurricular projects for Alzheimer's disease services and education. She is the best support system I have at UNI. Through her enthusiasm for her profession in gerontology and the study of aging, Professor Eshbaugh has helped me realize I have chosen the right major. Her endless support and guidance has helped me to realize that in the future, no matter what I choose to do, I can achieve whatever I set my mind to."

Michelle Remold
Gerontology: Social Sciences
Faribault, Minnesota

"If I had to point to one specific faculty member that had a lasting impact on me, both personally and professionally, it's Professor Lindsay Cohn. She opened the doors of international and civilian-military relations to me, and she inspired me to want to make a bigger difference in the world. I took her intro class my first semester after transferring to UNI — after that I took every course I could. Her professional dedication to student learning helped inspire me to find new areas of knowledge, and engage the world in the same dynamic way."

Christopher Apling
Political Science
Janesville, Iowa

"Professor Kenneth Hall has had a huge impact on my college career. I was convinced I wanted to focus on photography. I was fortunate enough to have him for my drawing course my freshman year. His positive influences began there. Since then, he has guided me and pushed me when I needed it. I ran into Professor Hall in the hallway at the end of my freshman year, and we talked about what I was planning to study. He told me that I should really consider more drawing classes, as he believed I had a talent in that area. I never really considered myself a good drawer but I decided to take his advice. It turns out that he was right. I am graduating with an emphasis in drawing now as well as photography.

I also participated in the National Student Exchange Program and spent a year at the University of Arizona. Professor Hall encouraged me to try things that I hadn’t done yet. He mentioned a painting class. Again, it was something that I really didn’t think was for me. As with drawing, I found that he was right. I have been fortunate enough to be able to take one last painting class with Dr. Hall this semester before graduating, and I have continued to become more confident as an artist because of his positive influence."
