How do we assign labels to our complicated and unique experiences of sexuality? In this interactive program Robyn will explore the landscape of sexuality, conduct a thought-provoking anonymous survey of those present, and look together at the data. Where do we fall on various sexuality continua? How do we label? How old were we when we came to our identities and to our sexualities? How asexual/sexual are we? How well do our friends/family members understand our sexuality? This program will expand your perspective and change the way you think about labels.

The Changing Landscape of Identity: Understanding and Supporting Students of All Gender Identities and Sexual Orientations

Our teens and twenties are times of exploration, discovery and growth. For non-heterosexual students, this is a time when presumptive labels and sexuality are called into question. Robyn will discuss her work with teens and young adults, and share some of her observations and the lessons she has learned.
