All graduate degree candidates are listed under the college of their academic major.
The Academic Procession

The procession begins with the entrance of the candidates for degrees. Led by faculty marshals, the candidates for the degree of Bachelor of Arts, both the Teaching Program and the Liberal Arts Program, Bachelor of Fine Arts, Bachelor of Liberal Studies, Bachelor of Music, Bachelor of Science and Bachelor of Technology enter in groups, representing each of the undergraduate colleges. They are followed by the candidates for the highest degrees.

The banners which are carried with the candidates’ procession were first used in 1977. They were designed by Bekka Lindstrom, at that time a sophomore majoring in Art. The banners were fashioned by Phillip Elliott.

Students wearing a bronze medallion are those graduating summa cum laude (with highest honors), which represent the top three percent of each college by grade point average; or those graduating students receiving a Purple and Old Gold Award, given to those students who have excelled in scholarship or who have shown conspicuous achievement in particular areas.

The procession continues with representatives of the faculty.

The President’s Party forms the final section of the academic procession. Headed by the commencement marshal, it includes the president; members of the Board of Regents, state of Iowa; administrative officers; the academic deans; and honored guests.

The commencement marshal carries the University Mace, designed and fashioned for the Centennial Commencement in 1976 by Randalls Swanson, at that time a freshman majoring in Industrial Arts. A traditional symbol of authority, the mace is a carved wood rod capped with ends of cast bronze, with the top carrying the seal of the university. The sterling silver chain worn by the president was also created for the Centennial Commencement. It was designed and constructed by Martin Peterson, then a junior majoring in Art, and it memorializes the historical evolution of the university by carrying the seals of the Iowa State Normal School, the Iowa State Teachers College, the State College of Iowa, and the University of Northern Iowa.

The academic costumes worn trace their origin to the Middle Ages when long-sleeved hooded gowns were necessary for warmth in the unheated stone colleges. Over the centuries, much diversity occurred, and to bring some order, in the United States in 1894 an intercollegiate system of academic costume was agreed on, now adhered to by American institutions. According to this code, both the styling and colors of the regalia have significance.

The design of the gown indicates the degree. The bachelor’s is a simple gown with a full sleeve. The master’s gown is much like it except for the long sleeve which hangs loose. The doctoral gown is fuller and more elaborate. It has velvet edging and three velvet stripes on the full sleeve. The color of this velvet may be black or in the color appropriate to the degree.

Hoods, which are worn over the gowns, are similar for all degrees, although differing slightly in length. The candidates for the bachelor’s degrees usually do not wear the hood. The hood has a velvet edging which indicates the area of the degree, and the inside or lining of the hood is satin in the colors of the college or university granting the degree.

A partial list of the degree colors to be found on the edge of the hood or the trimming on the doctoral gown is as follows:

Service Organizations

Omicron Delta Kappa
Graduates wearing a white stole are members of Omicron Delta Kappa which is a junior-senior honorary organization which recognizes students who have demonstrated high levels of academic achievements, leadership in campus affairs, and community service.

Student Admissions Ambassadors
Graduates wearing a gold commemorative lapel pin are members of the Student Admissions Ambassadors (SAA). Since 1989, SAA has served the University in a variety of ways. From giving campus tours to prospective students, alumni and University guests, to serving as representatives of the student body at special events, SAA is recognized as one of the premier service organizations on campus.

National Residence Hall Honorary
Graduates wearing royal blue and white cords are members of the National Residence Hall Honorary, an honorary organization recognizing the top one percent of leaders who live on campus. Members are inducted for showing continual service to the community, leadership within the residence halls, recognition of others in their endeavors, and outstanding scholarship during their tenure living on campus.

Phi Eta Sigma
Graduates wearing black and gold cords are members of Phi Eta Sigma which recognizes first-year students who have a cumulative grade point average of at least 3.5 on a 4.0 scale at the close of any full-time curricular period during their first year.

Northern Iowa Student Government
Graduates wearing purple and gold cords are members of the Northern Iowa Student Government (NISG). Since 1916, various governing bodies comprised of students have represented the student body as a whole. NISG, as the student governing body has been called since 1989, is committed to improving the administration of student affairs, encouraging the greatest level of communication and cooperation, ensuring the protection of student rights, and providing excellence in education.

Connecting Alumni To Students (CATS)
Graduates wearing purple and black cords are members of Connecting Alumni To Students (CATS), the official student chapter of the UNI Alumni Association. These dedicated students represent the UNI student body to alumni and friends. CATS create and promote the lasting connections between past, present and future Panthers.
Academic Honorary Organizations

Students who are members of academic honorary organizations will be identified by the color of cord they are wearing as follows:

Honorary Degree: Robert Yager

Robert Yager, Ph.D. has had an illustrious career of outstanding achievement and attainment. His accomplishments span decades, more than half a century, in promoting scientific literacy across all grade levels of American education through the education of teachers as well as teachers of teachers who provide science education. His involvement and influence extends into the international science education community. Dr. Yager has been a truly great leader in science education. He has contributed to the preparation of more than 1,000 K-12 science teachers throughout his years on faculty at the University of Iowa. He has led a paradigm-shaking reformulation of how we think about teaching and learning in science. In 1950, Yager landed his first job, teaching science, after earning a biology teaching degree at Iowa State Teachers College. Shortly thereafter he was named chair of the science department at the Laboratory School of the University of Iowa, where he continued his education to earn master’s and doctoral degrees in plant physiology.

For Robert Yager, science was less a collection of things known than a way of knowing. He pioneered an approach to teaching and learning that placed the joy and burden for understanding science squarely on the shoulders of the student, guided by a skilled facilitator. Though he has had a 50 plus-years career in the science education department of the University of Iowa, he continues to teach, write and research as an emeritus professor.

Recognizing the increasing necessity for a scientific and technologically literate citizenry in managing an advanced democracy, Yager co-founded the Science-Technology-Society (STS) approach to teaching science. It became synonymous with, and an early version of, inquiry teaching that pervades nearly every level of science education today. Considered a radical movement in the 1960s, STS is today an embraced philosophy credited with promoting the importance of critical thinking skills for shaping our national science education standards to emphasize community-relevant content such as environmental education and wise consumer science. STS spawned a curricular emphasis on applications of learning, which can be found in virtually every published textbook. A sizable army of his disciples carry on the research, curricular design and teacher preparation that sustains this inquiry revolution. This army includes some 220 doctoral candidates mentored, chairing the committees of 120 of them. It also includes 200 master’s recipients, and more than 1,200 teachers of science.

Robert Yager brought more than $10 million in science education reform funding to our state over the span of 40 years, distinguishing Iowa as a global hub of excellence in science education. His outreach projects have touched nearly every district of the state. Iowa continues to enjoy center-of-the-universe status in science education thanks to his work and his continuing leadership. Over the course of his career, he served as president of seven prestigious national organizations, including the National Association for the Education of Teachers of Science, the National Science Teachers Association and the National Association for Research in Science Teaching. He has directed more than 100 NSF institutes for teachers and workshops for high school students and published more than 600 books, chapters and research reports.
The University of Northern Iowa Lux Service Award is presented annually to three undergraduate students who best represent the ideal of service to the University community. The honor is conferred in the spirit of keeping the light of service to others burning bright at UNI. The name of the award – Lux – is from the University’s official seal that features a burning lamp of knowledge and the Latin word for light.

The University of Northern Iowa Alumni Association sponsors the award.

**Congratulations to the 2008 Lux Service Award Recipients:**

- **Samantha J. Keltner** is a History major with a special education minor who hails from Ankeny, Iowa. Samantha’s activities include serving as a founding member and president of Connecting Alumni to Students (CATS), a member of the Homecoming Committee, president of Gamma Phi Beta, a Northern Iowa Student Government Senator, and as a member of the Summer Orientation staff.

  Jon Buse, UNI Dean of Students, writes of her work in his letter of recommendation, “The common thread of her involvement is that they are all intended to serve others and make the University a better place. As a leader of her peers, Sam brings out the best in those around her. If I were to describe Sam in one word, it would be ‘magnet’ She always seems to attract a crowd. She is a wonderful person and a fine student leader.”

- **Lipin Loo** is a Biotechnology-Honors Research major with a minor in Chemistry from Penang, Malaysia. Lipin has left his mark on UNI through a variety of activities as a student. A top student in his academic department, he is a member of Student Admissions Ambassadors, a premier student volunteer group, promoted cultural understanding through his work with the International Student Association board and has assisted with recruitment activities in his home country.

  “Lipin has made many important contributions to our campus and he will continue to proudly represent the University after he leaves,” writes Kristi Marchesani, assistant director for Admissions – International Relations.

- **Kelly Valentin**, a Biology major who is also completing the certificate program in Global Health, is from Parkersburg, Iowa. This mother of three (ages 10, 7 and 3) has succeeded in the classroom while being an extremely active volunteer. Kelly’s lengthy list of activities includes the UNI Global Health Corps, Health Care Volunteer Services, UNI’s Pre-Medical Club, Family & Children’s Council of Black Hawk County, and the Misfits Playground. She also coordinated a medical mission to Honduras. Additionally, Kelly established the UNI Pre-Medical Enrichment Project to increase the community service engagement of UNI pre-med students.

  “She has inspired and led many UNI students to community service and served as a teacher of human worth and humanitarian commitment,” says Pedro Rodríguez, MSW. “She is sure to continue strong advocacy for health in underserved areas. She is clearly proud of the education that she received from the University of Northern Iowa.”

University Honors Program

Graduates wearing gold University Honors medallions are recipients of designations from the University Honors Program. The designation of University Honors with Distinction indicates the completion of at least thirty credit hours of honors-level coursework throughout a student’s undergraduate study; the designation of University Honors indicates the completion of at least eighteen credit hours of honors-level coursework. Both designations require the completion of an undergraduate honors thesis. Students earning honors designations are noted throughout the commencement program along with their thesis titles.

1. The education symbol used for the Doctor of Education, the Specialist in Education and the Bachelor of Arts in Education degrees, as well as the College of Education, represents the teacher-student communication.

2. The symbol for the Master’s degree represents further study beyond the first four years.

3. The four circles for the Bachelor of Arts degree denote four years of study.

4. The Bachelor of Music and Master of Music degrees are represented on a musical staff.

5. The symbol for the Doctor of Technology incorporates an industrial and mechanical motif.

6. The area of Business is symbolized by circles in a chain of growth and development.

7. The design of circles in a test tube represents the Sciences.

8. The symbol for the Fine Arts evolved from a color wheel and developed into a representation of all the arts and their common unity.

9. A symbol of the human mind represents the field of Social and Behavioral Sciences.

10. The centering represents the campus and the four circles represent all campus study for the Bachelor of Liberal Studies degree.

11. The symbol for the Specialist degree represents further study beyond the Master’s level.

12. The symbol for Continuing Education and Special Programs represents campus outreach and educational growth.
The University of Northern Iowa offers a world-class university education, providing personalized experiences and creating a lifetime of opportunities.
