INTERNATIONAL JOURNAL OF GLOBAL HEALTH

Volume 2, Number 2

2003

The *International Journal of Global Health* is a peer-reviewed international journal dedicated to studying public health in diverse and medically underserved populations around the world.

The journal examines the effects of public health education efforts on individuals and populations, as well as methodology for providing effective public health programming.

GLOBAL HEALTH CORPS

The Global Health Corps was founded in the Division of Health Promotion and Education at the University of Northern Iowa in 1996. The mission of the Global Health Corps is to train university students in conducting culturally-appropriate public health programs with underserved and diverse communities in the United States and abroad, thereby improving the well-being of at-risk populations through disease prevention and health promotion.

DIVISION OF HEALTH PROMOTION AND EDUCATION

Within the School of Health, Physical Education, and Leisure Services at the University of Northern Iowa, the Division of Health Promotion and Education includes a diverse faculty working in various disciplines of public health, epidemiology, and health education. The overriding mission of the division is to educate health educators, health professionals, and scientists to improve the health and well-being of individuals and populations.

UNIVERSITY OF NORTHERN IOWA

The University of Northern Iowa is one of three state-supported universities in the Iowa Regents system. A campus-wide commitment to putting students first lies at the heart of the University of Northern Iowa's reputation for providing exceptional education for its students. Building on its historic excellence in teacher education, the university has developed outstanding programs in business, natural sciences, humanities and fine arts, and social and behavioral sciences. The university places strong emphasis on experiential learning, and has many opportunities for international study. UNI prides itself on providing a student-centered educational experience, and is ranked as one of the best colleges and universities in the Midwestern United States.

PUBLICATION POLICY

The International Journal of Global Health welcomes unsolicited manuscripts. Authors should send their manuscripts to the editorial office at the address below. Guidelines for authors can be found in this issue as well as at www.globalhealthcorps.org, or can be obtained by writing to the editorial office. Issues of international, minority and global significance for public health are of particular interest.

Views expressed in the journal are those of the authors and do not necessarily reflect the views of the International Journal of Global Health Editors, editorial board or other members.
