## Graduate College

All graduate degree candidates are listed under the college of their academic major.
The Academic Procession

The procession begins with the entrance of the candidates for degrees. Led by faculty marshals, the candidates for the degree of Bachelor of Arts, both the Teaching Program and the Liberal Arts Program, Bachelor of Fine Arts, Bachelor of Liberal Studies, Bachelor of Music, Bachelor of Science and Bachelor of Technology enter in groups, representing each of the undergraduate colleges. They are followed by the candidates for the highest degrees.

The banners which are carried with the candidates' procession were first used in 1977. They were designed by Bekka Lindstrom, at that time a sophomore majoring in Art. The banners were fashioned by Phillip Elliott.

Students wearing a bronze medallion are those graduating summa cum laude (with highest honors), a distinction which requires a grade average of 3.75 (4.00 would be all A's); or those graduating students receiving a Purple and Old Gold Award, given to those students who have excelled in scholarship or who have shown conspicuous achievement in particular areas.

The procession continues with representatives of the faculty.

The President's Party forms the final section of the academic procession. Headed by the commencement marshal, it includes the president; members of the Board of Regents, state of Iowa; administrative officers; the academic deans; and honored guests.

The commencement marshal carries the University Mace, designed and fashioned for the Centennial Commencement in 1976 by Randall Swanson, at that time a freshman majoring in Industrial Arts. A traditional symbol of authority, the mace is a carved wood rod capped with ends of cast bronze, with the top carrying the seal of the university. The sterling silver chain worn by the president was also created for the Centennial Commencement. It was designed and constructed by Martin Peterson, then a junior majoring in Art, and it memorializes the historical evolution of the university by carrying the seals of the Iowa State Normal School, the Iowa State Teachers College, the State College of Iowa, and the University of Northern Iowa.

The academic costumes worn trace their origin to the Middle Ages when long-sleeved hooded gowns were necessary for warmth in the unheated stone colleges. Over the centuries, much diversity occurred, and to bring some order, in the United States in 1894 an intercollegiate system of academic costume was agreed on, now adhered to by American institutions. According to this code, both the styling and colors of the regalia have significance.

The design of the gown indicates the degree. The bachelor's is a simple gown with a full sleeve. The master's gown is much like it except for the long sleeve which hangs loose. The doctoral gown is fuller and more elaborate. It has velvet edging and three velvet stripes on the full sleeve. The color of this velvet may be black or in the color appropriate to the degree.

Hoods, which are worn over the gowns, are similar for all degrees, although differing slightly in length. The candidates for the bachelor's degrees usually do not wear the hood. The hood has a velvet edging which indicates the area of the degree, and the inside or lining of the hood is satin in the colors of the college or university granting the degree.

A partial list of the degree colors to be found on the edge of the hood or the trimming on the doctoral gown is as follows:

- Apricot - Nursing
- Blue, dark - Philosophy
- Blue, light - Education
- Brown - Fine Arts
- Citron - Social Science
- Copper - Economics
- Drab - Business
- Green - Medicine
- Green Sage - Physical Education
- Lemon - Library Science
- Maize - Agriculture
- Maroon - Family and Consumer Sciences
- Orange - Engineering
- Pink - Music
- Purple - Law
- Scarlet - Theology
- White - Arts and Letters
- Yellow, Golden - Science
Service Organizations

Omicron Delta Kappa
Graduates wearing a white stole are members of Omicron Delta Kappa which is a junior-senior honorary organization which recognizes students who have demonstrated high levels of academic achievements, leadership in campus affairs, and community service.

Student Alumni Ambassadors
Graduates wearing a gold commemorative lapel pin are members of the Student Alumni Ambassadors (SAA). Since 1989, SAA has served the University in a variety of ways. From giving campus tours to prospective students, alumni and University guests, to serving as representatives of the student body at special events, SAA is recognized as one of the premier service organizations on campus.

National Residence Hall Honorary
Graduates wearing royal blue and white cords are members of the National Residence Hall Honorary, an honorary organization recognizing the top one percent of leaders who live on campus. Members are inducted for showing continual service to the community, leadership within the residence halls, recognition of others in their endeavors, and outstanding scholarship during their tenure living on campus.

Phi Eta Sigma Honorary
Graduates wearing black and gold cords are members of Phi Eta Sigma which recognizes first-year students who have a cumulative grade point average of at least 3.5 on a 4.0 scale at the close of any full-time curricular period during their first year.

Academic Honorary Organizations

Students who are members of academic honorary organizations will be identified by the color of cord they are wearing as follows:

The Heritage Honours Awards

The Heritage Honours Awards are sponsored by the UNI Alumni Association. The program honors the accomplishments of UNI graduates and their service to the University of Northern Iowa. Award categories include the Young Alumni Award, Alumni Achievement Award, and Alumni Service Award. Based on the pool of applicants, the selection committee determines which two of the three awards will be given each year. This year, the Alumni Association is pleased to present an Alumni Achievement Award and Young Alumni Award.

Diane Crane Bridgewater '85
Alumni Achievement Award

Diane Bridgewater earned her Bachelor’s degrees in Accounting and French from the University of Northern Iowa in 1985. She is currently Vice President and Business Director for North America Operations with Pioneer, A DuPont Company, in Des Moines, Iowa. Diane has held several director level positions in the 17 years she has been with Pioneer. In her current position, she leads Pioneer’s largest business unit with nearly $2 billion in annual revenue. Outside of her career, Diane has a strong commitment to family, community, and the University of Northern Iowa. She is a current board member of the United Way of Central Iowa and ChildServe and past board member of the Johnston Community School Foundation, the Make-A-Wish Foundation of Central Iowa and the Hospice of Central Iowa. In 2002, the Des Moines Business Record named Diane to the “Forty Under 40”, a list recognizing up-and coming business leaders in Des Moines. She was also selected as the first ATHENA award honoree in Des Moines. This award recognizes leaders who contribute to improving the quality of life for others in the community and actively assist women in realizing their full leadership potential. Diane remains connected to her alma mater by serving on the College of Business Advisory Committee.

Jason Follett '92
Young Alumni Award

Jason Follett earned his Bachelor’s degree in History and Political Science from the University of Northern Iowa in 1992 and a Masters of Science in Curriculum and Instruction from Buena Vista University in 2000. He is currently an Adjunct Student Teaching Supervisor for Simpson College and resides in Ankeny, Iowa. Since graduating from UNI, Jason’s career has been focused on education and advocacy. He has worked as an instructor in the field of social studies for numerous institutions, including the University of Northern Iowa’s own Price Laboratory School. Considered by many to be an expert in the field of social studies at both the state and national level, he was appointed by Iowa Governor Thomas J. Vilsack to serve on the State Historical Society of Iowa’s Board of Trustees in 2002. Jason has continually served as an advocate for the Latino population of Iowa. In 2001 and 2003, Jason was appointed by Iowa Governor Thomas J. Vilsack to the Iowa Commission of Latino Affairs, where he currently serves as chair. In addition to his service to the State of Iowa, he served as Co-Founder and Advisory Board Chair for the Waterloo-Cedar Falls El Centro LatinoAmericano (Latino Resource Center).
Rex B. Eno — Honorary Degree

Rex B. Eno’s impact on education at the University of Northern Iowa and throughout the state of Iowa is significant. The University wishes to recognize Mr. Eno, who attended the University of Northern Iowa in the early 1960s, for his contributions to education in Iowa, as well as for his outstanding professional and personal accomplishments as a business leader and for his many years of service to the University.

Mr. Eno’s relationship with the University of Northern Iowa, then the State College of Iowa, began as a student from Newell, Iowa, majoring in English-teaching with a minor in German-teaching. He left the University in 1967, serving in the U.S. Army. Following his return from Vietnam in 1969, he accepted a position with Life Investors Company of America in Cedar Rapids. He served in various administrative capacities throughout his career with the company, before being promoted to president of Life Investors of America-Individual Division and senior vice president of AEGON USA. He is now the retired chairman of Life Investors of America. Throughout his career Mr. Eno trained and mentored scores of executives and continues to serve as an advisor to AEGON executive leadership today.

Through the years, Mr. Eno has maintained a strong bond with the University of Northern Iowa. In 1991, he was a leading force behind the successful efforts to have the headquarters of the Iowa Mathematics Coalition housed at UNI. The Iowa Mathematics and Science Coalition, as it was later named, is an organization committed to making the United States a world leader in math and science education. Under his leadership as executive director, the Coalition sponsored a variety of creative projects, including the MATHCOUNTS Coaches Clinic, the Iowa Teacher Recognition Project, Mathematics Awareness Week activities and the Each One Teach One newsletter. The Coalition’s goals were to develop state policies that support national goals for reforming math education; provide a means of information exchange about math education at the state and local levels; and develop long-term responses to the state’s needs in math education. He also played a key role in fundraising for the Coalition.

Mr. Eno’s role as a campus advocate extends to his service on the UNI Foundation Board of Trustees. Former Chair of the board, he is Co-chair of the national Students First campaign, and had a leadership role in the campaign’s predecessor “Leading, Building, Sharing.” He has helped develop the UNI Foundation Board of Trustees by recruiting some of the nation’s finest executives to serve. He helped secure major gift support for both the Freeburg Early Childhood Center and McLeod Center.

Along with his wife, Kathy, Mr. Eno has been a staunch advocate for public higher education in the state. Recognizing the crisis Iowa is facing in losing many of its finest teachers to other states at a critical time for Iowa education, the Enos established the Teaching in Iowa Incentive Award Fund at UNI, to help encourage outstanding teachers to stay in Iowa. Mr. Eno was honored with the UNI’s Heritage Honours Award in 1993 as a Friend of the University.

Rex Eno’s influence has also been a positive force in his community of Cedar Rapids, where he is a member of numerous boards and has worked tirelessly for a
multitude of human service agencies. He is the Leadership Council Chair for the American Diabetes Association of Eastern Iowa and 2005 chair for the United Way of East Central Iowa campaign.

In describing Mr. Eno, one of his nominators wrote: "Rex personifies character. He has instilled all the virtues of his UNI education on hundreds of people. I think about all the young men he positively influenced from coaching little league baseball to the scores of executives he trained during his distinguished career at AEGON USA. To me, this is his greatest accomplishment." Another wrote of his humility, and said, "You won't find him boasting of his accomplishments. Rex embodies that wonderful old-fashioned but never out of style virtue of letting his actions speak louder than his words. Rex is a product of our state and a proud member of the University's family. His life has been one of accomplishment, starting with modest beginnings and bedrock values. He took those with him to the State College of Iowa with his future fully ahead of him and nothing standing in his way but the hard work that his family prepared him well to meet. Rex started at the University making the impact on people and community that has been his trademark his entire life."

Upon the recommendation of the University Honorary Degrees Committee, the Faculty Senate and the President of the University and with the unanimous consent of the Board of Regents, State of Iowa, it is the privilege of the University of Northern Iowa to present Rex B. Eno for the degree of Doctor of Humane Letters, *honoris causa*.

Christine H.B. Grant is a nationally known advocate for gender equity in intercollegiate athletics, whose work debunking the misconceptions surrounding Title IX, and supporting gender equity reform in colleges and universities around the country uniquely supports UNI's goal of creating a culture "that promotes diversity, honesty, integrity, respect, fairness, trust and civility among its members."

Dr. Grant received her B.A. in physical education and her Ph.D. in athletic administration at the University of Iowa. She also holds a diploma in physical education from Dunfermline College of Physical Education in Scotland. In 1973, she became the Women's Athletic Director at the University of Iowa, a position from which she retired in 2002, though she continues to teach graduate level courses there in athletic administration. As a result of her leadership at the University of Iowa, the women's athletic program reached national prominence, winning or participating in 25 Big Ten Championships.

Dr. Grant was a founding member of the Association for Intercollegiate Athletics for Women, and served as its president from 1979-82. She also served on the board of directors of the National Association of Collegiate Women Athletic Administrators, served as its president and is the current chair of its Gender Equity Committee.

Her recognition of disparities in the resources allotted to women's and men's athletics, and her desire to champion all student athletes led her to become a champion of Title IX of the Education Amendment of 1972, which states that "no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving federal financial assistance." As an expert on Title IX and its implications for athletic programs throughout the country, she has served as an expert consultant to the Health, Education and Welfare Office for Civil Rights Title IX Task Force, and has provided expert testimony on Title IX in landmark legal cases. Her advocacy includes testimony before U.S. House of Representative subcommittees and the Office of Civil Rights. She also has published widely on intercollegiate athletics and equity issues.

Dr. Grant was acknowledged in a citation by the National Collegiate Athletics Association in 2001 as "one of the most influential women in collegiate athletics". She is recognized as one of the true and original leaders in the struggle for fairness for all women in all aspects life, not just in athletics. Christine Grant was honored by the Iowa Senate in 2002 on the occasion of her retirement as Women's Athletic Director, with Senate Resolution 8 which acknowledged her role as "a crusader for gender equity in intercollegiate athletics".

Dr. Grant has received numerous academic and professional awards, including the National Administrator of the Year award from both the National Association of Collegiate Women Athletic Administrators and the Women's Basketball Coaches Association; the NCAA Honda Award of Merit for Outstanding Achievement in Women's Collegiate Athletics; a Presidential Award from, and inducted into, the Hall of Fame of the National Girls and Women in Sport; and was a recipient of the
first Lou Henry Hoover Award for outstanding contributions to the development of girls' and women's sports in Iowa.

To celebrate the 30th anniversary of Title IX in 2002, the University of Northern Iowa Women's Studies Program and the Iowa Women's Foundation co-sponsored a visit to UNI by Dr. Grant. Kristen Harvey, a student-athlete who challenged a decision in 2001 (later rescinded) to eliminate Women's Swimming at UNI, talked about how difficult it was for her to fight for her rights as a woman athlete. Dr. Grant praised Harvey for standing up for herself and other women athletes, acknowledging that even 30 years after Title IX was instituted, gender equity in college athletics is still an issue. This connection between a pioneer of Title IX and a contemporary beneficiary of it, underscored the continuing importance of Title IX in the lives of women athletes and the necessity for continued advocacy.

Dr. Grant's support for gender equity in women's athletics has helped to pave the way for millions of young women in the United States to gain access to monetary support for their athletic talents, and thus, for their education. Because of her consistent belief in the importance of gender equity and her unswerving commitment to women and girls, the University of Northern Iowa salutes Dr. Christine Grant.

Upon the recommendation of the University Honorary Degrees Committee, the Faculty Senate and the President of the University and with the unanimous consent of the Board of Regents, State of Iowa, it is the privilege of the University of Northern Iowa to present Christine H.B. Grant for the degree of Doctor of Humane Letters, *honoris causa*.

1. The education symbol used for the Doctor of Education, the Specialist in Education and the Bachelor of Arts in Education degrees, as well as the College of Education, represents the teacher-student communication.

2. The symbol for the Master's degree represents further study beyond the first four years.

3. The four circles for the Bachelor of Arts degree denote four years of study.

4. The Bachelor of Music and Master of Music degrees are represented on a musical staff.

5. The symbol for the Doctor of Technology incorporates an industrial and mechanical motif.

6. The area of Business is symbolized by circles in a chain of growth and development.

7. The design of circles in a test tube represents the Sciences.

8. The symbol for the Fine Arts evolved from a color wheel and developed into a representation of all the arts and their common unity.

9. A symbol of the human mind represents the field of Social and Behavioral Sciences.

10. The centering represents the campus and the four circles represent all campus study for the Bachelor of Liberal Studies degree.

11. The symbol for the Specialist degree represents further study beyond the Master's level.

12. The symbol for Continuing Education and Special Programs represents campus outreach and educational growth.
