Congo and the Great Lakes Region of Africa: A Global Appeal for Justice [poster]

University of Northern Iowa. Center for Holocaust and Genocide Education.
The people of the Congo and the Great Lakes region of Africa have been the victims of mass atrocities, crimes against humanity and genocide over the past seventeen (17) years. Yet the global community has been slow to respond to the tremendous suffering and cry for justice, peace and stability from fellow members of the human family. Mr. Musavuli and Mr. Gatebuke, Congolese activists representing the Friends of the Congo Inc., a Washington, DC-based advocacy organization, will discuss strategies to bring about positive and lasting change in the heart of Africa.

Support for this event has been provided by the Campus Activities Board, Diversity Matters, and the College of Humanities and Fine Arts.
