Open Access Week

October 20-26 is Open Access Week! Open Access seeks to return scholarly publishing to its original purpose: to spread knowledge and allow that knowledge to be built upon in a free and open environment. Open Access is made possible with the consent of the author and the copyright holder. Open Access Week is an effort to promote and to inform authors, students, researchers, administrators, publishers and librarians about the benefits of Open Access. Rod Library also provides information about open access and author rights in a Scholarly Communication LibGuide.

Please visit the Open Access Week display in the library lobby exhibit case (main floor). Learn what faculty can do to promote Open Access and how it benefits students.
