This Games is brought to you for free and open access by the Open Education Resources at UNI ScholarWorks. It has been accepted for inclusion in Sharing STEM: Math Games by an authorized administrator of UNI ScholarWorks. For more information, please contact scholarworks@uni.edu.

Offensive Materials Statement: Materials located in UNI ScholarWorks come from a broad range of sources and time periods. Some of these materials may contain offensive stereotypes, ideas, visuals, or language.

One More Notes

Number of players: 3

Materials: A “One More” board (with numbers 1-7); 24 transparent chips in 3 colors (8 each for each player); a regular die

The Value of “One More”

This is an easy game for children who have learned how to play games. Because the chips are transparent, children can supervise each other.

Recommended Grade Levels: PreK-1

One More Rules

Number of players: 3

Materials: A “One More” board (with numbers 1-7); 24 transparent chips in 3 colors (8 each for each player); a regular die

Objective: To be the first one to use up all 8 chips of the same color.

Play:

1. Each player takes 8 chips of the same color.
2. Players decide who will go first.
3. The players take turns rolling the die and announcing the number that is one more than the number rolled. For example, if a player rolls a 4, he or she says “Five (because $4 + 1 = 5$)” and covers up a 5.
4. The game ends when a player wins by using up all 8 of his or her chips.

Recommended Grade Levels: PreK-1
