## Iowa Waste Reduction Center

### It's Pollution Prevention Week!

Every September one week is dedicated to more than waste reduction. It's a week focused on pollution prevention - reducing or eliminating sources of pollution at the source.

P2 Week goes until the 24th so follow along on social media with #P2Week to see what other states, organizations, and industries are doing to eliminate waste at the source and learn more at <https://www.epa.gov/p2week>.

### Presentations from the Midwest Food Recovery Summit Available to View and Download

Earlier this month, over 50 speakers shared their successes, knowledge, and innovations at the Midwest Food Recovery Summit in Des Moines and now you can view and download the presentations you may have missed by checking out the agenda. [Visit the Agenda](#)

If you attended the summit and have not completed the survey, please click [here](#).

### Environmental Compliance Lunch & Learn Scheduled in Garner

On September 26, join us for an environmental compliance lunch & learn hosted by the Hancock County Economic Development Corporation. Learn from IWRC and Iowa DNR about environmental compliance regulations that affect your business and free resources available to businesses to use. [Learn More](#)

### GrainPTE - Free Online Calculation Tool

Developed by the Iowa Air Emissions Assistance Program, the GrainPTE program is a free resource to help grain elevators determine their group classification and provides the associated reporting and/or permitting requirements for your facility. Sign up for your free account at [grain.iwrc.uni.edu/](http://grain.iwrc.uni.edu/).
