General Information

Historical Sketch

The Iowa State Normal School was established in 1876 by act of the General Assembly. Its location at Cedar Falls was due in large measure to the availability of a three-story brick building and forty acres of land originally used as a home for soldiers' orphans. Here on September 6, 1876, the normal school was formally opened with an enrollment of twenty-seven students. In 1909 the name of the institution was changed to the Iowa State Teachers College, and the Board of Trustees of the Iowa State Normal School was discontinued. At the same time the government of the Iowa State Teachers College, as well as of the State University of Iowa and of the Iowa State College of Agriculture and Mechanic Arts, was vested in the State Board of Education consisting of nine members appointed by the Governor.

Buildings and Grounds

The campus of the Iowa State Teachers College contains 127 acres of elevated land at the southwestern limits of the city of Cedar Falls. The principal buildings used for administrative, instructional, and other purposes are of brick with trimmings of Bedford stone. They are surrounded by lawns and by ornamental trees and shrubs of many varieties and are arranged in the form of an inner and an outer quadrangle.

The Administration Building, situated on the east side of the inner quadrangle, was erected in 1895. Its dimensions are 75 feet by 105 feet. On the first floor are the offices of the President, the Dean of the Faculty, the Business Manager, and the Registrar, and on the second floor the offices of the Placement Bureau and the Bureau of Research. On the second and third floors are also the offices and recitation rooms of the departments of Commercial Education and Mathematics.

Gilchrist Hall, situated in the inner quadrangle southwest of the Administration Building, was erected in 1882. Its dimensions are 78 feet by 114 feet. On the first floor are the offices of the
Dean of Men and the Dean of Women, and the offices of the Bureau of Extension Service. On the second and third floors are the Faculty Room, the Bureau of Alumni Service and Public School Relations, the Bureau of Publications, the offices of the College Eye and of the Old Gold, Gilchrist Chapel, and practice rooms of the Department of Music.

The Auditorium Building, situated north of the Administration Building, was erected in 1900. Its dimensions are 71 feet by 230 feet with a rear extension of 70 feet by 90 feet. In the center is the College Auditorium with a large pipe organ and with a seating capacity of 1,500. In the basement and the three stories of this building are located the rooms of the Bureau of Religious Activities, and the recitation rooms and the offices of the departments of Education, English, Languages, and Social Science.

Central Hall, adjacent to the Administration Building and to the Auditorium Building, was erected in 1868. Its dimensions are 40 feet by 85 feet with an extension of 34 feet by 40 feet. It contains the offices and instruction rooms of the Department of Music, and a specially equipped practice room for band and orchestra.

For convenience of intercommunication the Administration Building, Gilchrist Hall, the Auditorium Building, and Central Hall are connected by means of corridors.

The Science Building is on the north side of the inner quadrangle and was erected in 1906. Its dimensions are 65 feet by 113 feet. It houses offices, recitation rooms, laboratories, and libraries of the staff members of the Department of Science.

The Vocational Building is at the southwest corner of the inner quadrangle and was erected in 1915. Its dimensions are 62 feet by 144 feet. It contains offices, recitation rooms, and laboratories for the work in art and industrial arts, home economics, and biological science.

The Training School Building is on the south side of the inner quadrangle and was erected in 1912. Its dimensions are 115 feet by 137 feet. It contains the office of the director, an auditorium, a gymnasium, recitation rooms and laboratories for home economics and manual training, a room for illustrative teaching, and rooms for the kindergarten, the primary school, the intermediate grades, and the six-year high school.
The Library, situated at the southeast corner of the inner quadrangle, was erected in 1907. It is connected with the Administration Building by a subway, which is opened for use during inclement weather. The dimensions are 72 feet by 169 feet, with an extension of 103 feet by 27 feet. The general reading room is decorated with mural paintings by William De Leftwich Dodge and has seats for 300 readers.

The Library contains 120,427 volumes, 583 current periodicals, 10,722 pamphlets, 5,550 small prints for general circulation and 450 large wall pictures. Supplementing the general library there are special libraries devoted to art, music, fiction, education, chemistry, physics, juvenile literature, and state and federal documents.

The library force consists of ten staff members, a secretary, and forty-five student assistants. The library is open on week days except Saturday from 7:30 a.m. to 9:30 p.m., on Saturday from 8:00 a.m. to 5:00 p.m., and on Sunday from 2:00 to 5:00 p.m.

On the third floor of the library is the Museum. Included in its varied material are collections of special value for the study of natural science in different fields.

The Women's Gymnasium, situated at the northwest corner of the inner quadrangle, was erected in 1903 and remodeled in 1939. Its dimensions are 68 feet by 230 feet. The main building has a basement and three stories containing offices and recitation rooms, an examining room and a dark room, four fully equipped exercise rooms, three basketball courts, a baseball diamond, an indoor archery range, a dancing studio, lockers, dressing rooms, and store-rooms. The swimming pool addition, completed in 1938, is connected to the Women's Gymnasium on the west. It is a fireproof structure with exterior of red brick and large stone ornamental panels of Indiana limestone. The addition is 145 feet long, and extends 96 feet west from the gymnasium. The main room of the addition is 116 feet long by 65 feet wide, with an average ceiling height of 28 feet and contains a tile lined swimming pool 60 feet by 90 feet and also bleachers to accommodate 500 spectators. The walls are lined with buff-colored Mankato stone and haydite blocks. Between the two passages which connect the pool room with the Women's Gymnasium is a large shower and dressing room for students. The space under the concrete bleachers is occupied by locker and dressing rooms for both men and women of the faculty. There is also office space for the instructors. The second floor contains an office and lounge on both the north and south ends, from which balconies with ornamental rails overlook the pool.
Connected with the Women's Gymnasium are athletic fields for hockey, soccer, baseball, volleyball, and other field sports, an archery range, 10 Laykold tennis courts, and a driving range and a putting green for practice in golf.

The Men's Gymnasium, situated on the west side of the outer quadrangle, was erected in 1925. Its dimensions are 170 feet by 202 feet. It is a two-story building containing a main gymnasium (90 feet by 124 feet) and a smaller gymnasium (40 feet by 88 feet), offices and recitation rooms, basketball courts and handball courts, a wrestling room, a first-aid room, a team room, a club room, a swimming pool, showers, dressing rooms, and storage rooms. (The main gymnasium when converted into an auditorium has a seating capacity of 3,000.)

Connected with the Men's Gymnasium is an athletic field containing four football fields, four baseball fields, eight tennis courts, and a quarter-mile track.

The President's Home, situated in the outer quadrangle east of the Administration Building, was erected in 1908.

The Home of the Dean of the Faculty, which is situated in the outer quadrangle north of the President's home, was erected in 1890.

The Home of the Superintendent of Buildings and Grounds, situated in the outer quadrangle north of the Auditorium Building, was erected in 1906.

Bartlett Hall is in the outer quadrangle north of the Women's Gymnasium. The first unit was erected in 1914, and the last unit in 1924. Its dimensions are 41 feet by 525 feet with four wings each 41 feet by 125 feet. It is a fireproof building equipped with modern conveniences. In its single and double rooms it accommodates 520 women students.

West Hall, erected in 1939, is north and west of The Commons in line with Bartlett Hall and of similar construction. Its dimensions are 41 feet by 253 feet with two wings, each 41 feet by 125 feet. In its single and double rooms it accommodates 294 women students.

The George T. Baker Hall for Men, a dormitory housing 111 students, was completed in 1936. It is situated in the outer quadrangle south of the Campanile. Its dimensions are 40 feet by 190 feet with a solarium 12 feet by 48 feet. It is a three-story building
with a basement and contains 46 double rooms, 19 single rooms, 3
guest rooms, a matron's suite, a housekeeper's suite, an office, a
lobby, lounge, recreation room, pressing room, and kitchenette.

The Homer H. Seerley Hall for Men, a dormitory housing 119
students, was completed in 1938. It is situated in the outer quad-
rangle south and east of the Campanile, directly east of the George
T. Baker Hall. In design it is similar to Baker Hall and its dimen-
sions are the same. It is a three-story, fireproof structure with full
basement and contains 53 double rooms, 18 single rooms, an office,
a lobby, lounge, recreation room, pressing room, director's and
housekeeper's rooms, and kitchenette. The building is so construct-
ed that wings can be added at a later date, thus providing for a
total of 297 men.

The Commons, situated in the outer quadrangle northwest of
the Women's Gymnasium, was erected in 1933. Its dimensions are
124 feet by 178 feet. It is designed to provide social education and
recreational training for the members of the student body. It is a
two-story building with basement. On the second floor are the stu-
dent lounge, the recreation hall, and the lobby lounge which, togeth-
er with the mezzanine lounge, comprise the central portion of the
building. In addition there are the faculty men's lounge, the faculty
women's lounge, the offices of the Director of The Commons, of the
Student Council, and of the Women's League, the fountain room and
two activity rooms. On the first floor are located the dining rooms,
the kitchen, and the office of the Director of Foods. The basement
contains service rooms essential for the operation of the building.

The General Hospital, the Nurses Home with the office of the
Health Director, and the Isolation Hospital are located on the south
side of the campus west of the Vocational Building. The General
Hospital was erected in 1912 and enlarged in 1925. Its dimensions
are 33 feet by 60 feet. It has an operating room, an X-ray room,
and beds for twelve patients.

A Storeroom for the Department of Buildings and Grounds, sit-
uated at the center of the inner quadrangle, was erected in 1904.

The Heating and Power Plant, completed in 1932, supplies the
whole institution with heat, light, and power, and is situated in the
outer quadrangle southwest of the Isolation Hospital. It is equipped
with two 500 horse-power and two 300 horse-power boilers and two
turbines with a generating capacity of 1500 kilowatts of alternating
electric current. It has an electric crane, automatic stokers, and
other mechanical appliances for the efficient operation of the plant.
The circular concrete smokestack rises 195 feet above the floor of the boiler room.

The Shops and Garage Building, east of the Heating and Power Plant and adjacent to it, contains the office of the Superintendent of Buildings and Grounds, shops for electricians, plumbers, steam-fitters, carpenters, and painters, supply rooms and locker rooms, and a garage for the college trucks and busses. It was completed in 1932.

The Greenhouse Units, which are laboratories for studies in animal and plant biology, were completed in 1938 and are located directly south of the Vocational Building. There are three curved-eave units on the east, the center of which is 31 feet by 42 feet with a high roof for tropical plants. The end units are each 25 feet by 33 feet and are used for display purposes as well as for the starting of campus flowers. The west wing consists of a tile service house, the dimensions of which are 36 feet by 38 feet. The first floor contains a work room, a supply room, an office, and a laboratory while the basement contains a bulb room, service rooms, and a room for animals. The northwest and southwest units are of the commercial type, and are each 28 feet by 50 feet.

The Campanile, standing at the center of the campus, was erected in 1926. The main tower is 20 feet square and 100 feet high. It is built of rug-faced brick with trimmings of Bedford stone and rests on a granite foundation. The fifteen bells of the Campanile chimes range in weight from 225 pounds to 5,000 pounds. The chimes are played at stated times throughout the day by the chime master and his assistants. The Fasoldt clock, presented to the institution in 1925, sounds the Westminster chimes at the quarters of the hour. The Campanile was donated to the institution by the alumni, faculty, students, and other friends of the institution as a memorial to the founders and builders of the Iowa State Teachers College.

The Recreation Park, including the college golf course, is located half a mile east of the campus just outside the southern limits of the city in Rownd’s Field, a tract of 40 acres donated to the institution in 1925 by Charles A. Rownd. The golf course has a well-kept nine-hole course of standard length with natural and artificial hazards.

Separate from the campus on the east the college has a tract of seven acres in which it is developing a horticultural garden and a botanical garden. These gardens already contain a large collection of Iowa trees, shrubs, and herbaceous plants.
Enrollment and Registration

Organization by Quarters—The calendar year is divided into four quarters of twelve weeks each. Any three of these quarters constitute an academic year.

College Office Hours—During June, July, and August the college administrative offices are open from 7:30 a.m. to 4:30 p.m. on Mondays, Tuesdays, Wednesdays, Thursdays, and Fridays, and from 7:50 a.m. to 11:50 a.m. on Saturdays. During the other months the offices are open from 7:50 a.m. to 4:50 p.m. on Mondays to Fridays and from 7:50 a.m. to 11:50 a.m. on Saturdays. Students and their parents should not come to the campus on Saturday afternoons or on Sundays expecting to make arrangements for college attendance.

Enrollment Days—Dates of enrollment are given on page 5. A fee of $2 is charged for late enrollment. The opening days of the fall quarter are set aside for the orientation of students enrolling at this college for the first time. All such students, whether freshmen or upper classmen, should be present at 8:00 o’clock on Monday, September 9. Students who have previously been enrolled at this college will enroll and register on Wednesday, September 11. On the first day of the winter quarter, the spring quarter, and the summer quarter all students enroll and register.

Physical Examinations—Each student is required to take a physical examination within thirty days after his first enrollment at a time designated by the Health Director. A physical examination by a college physician is required of each student annually.

Placement Tests—Standard intelligence and achievement tests are required of each student upon entrance. This applies not only to freshmen but to all students who have not taken the tests at this college. These tests are regularly given on the opening days of the fall quarter and on the first Saturday of the winter and spring quarters and early in the second week of the summer quarter. A student’s registration is incomplete and for that reason no grades or credit will be recorded for him until all required tests have been taken and the results recorded. Students who fail to take the tests at the regular time will take them at a later time and will pay a fee of $2 to cover the cost of administration.

Prospective students who have not previously attended this college are requested to report to one of the eleven testing centers
in the state on Friday, June 7, 1940, at 8:30 a.m. to take their placement tests and to fill out the required information blanks. The information thus obtained will be placed at the disposal of the advisers who will thus be able to give more helpful counsel to students when they register. Prospective students who find it impossible to be present at one of these centers on the above date will take these tests and complete the information blanks during the opening days of the fall quarter.

Information concerning the location of the testing centers may be obtained from the Director of the Bureau of Research.

FEES

All fees are payable at the office of the Business Manager. The matriculation fee, the tuition, and college fee are payable at the time of enrollment, laboratory and music fees before entrance upon the work of a quarter, and graduation fees at least three weeks before the date of graduation.

Matriculation fee for first enrollment only...........................................$ 5
Tuition, including the College Fee, for fall, winter, spring or summer quarter—
Freshmen and sophomores ........................................................................ $26
Juniors, seniors, and college graduates (including students who have earned 88 or more quarter hours of credit) ......................$32

Fee for graduation from two-year curricula ...........................................$ 5
Fee for graduation from four-year curricula ............................................$10
Fee for department certificate .................................................................. $ 2

If a student withdraws from the college the tuition fee is refunded as follows: If the student has been in attendance 2 days or less, 100 per cent of the fee is refunded; 3 to 5 days, 90 per cent; 6 to 10 days, 80 per cent; 11 to 15 days, 70 per cent; 16 to 20 days, 60 per cent; 21 to 25 days, 50 per cent; 26 to 30 days, 40 per cent. If a student is in attendance six weeks or more there is no refund.

Physical Education Fees—All men pay a fee of 50 cents a quarter, $1 being deposited and 50 cents refunded at the end of the quarter if towels are returned. Women who take swimming pay a fee of $1.25 a quarter, $2.50 being deposited and $1.25 refunded at the end of the quarter if the locker key, towels, and bathing suits are returned. Other women who take Physical Education 01 pay a fee
of 50 cents a quarter, $1.00 being deposited and 50 cents refunded if locker key and towels are returned.

**Music Fees**—Students enrolled in the college and pupils attending the training school pay a fee of $10 per quarter for one thirty-minute lesson each week. Persons not enrolled in the college or the training school pay a fee of $15 per quarter for one thirty-minute lesson each week. A fee of $1.50 each is charged for any number of thirty-minute lessons less than a full quarter's work of twelve lessons. Rent for auditorium or studio organ is $3 a quarter. Practice pianos are available for music students.

**Laboratory Fees**—Students pay a small fee for materials and for breakage in connection with courses in chemistry, home economics, natural science, and manual training. A fee to cover transportation in connection with field trips is charged in some of the courses in agriculture.

**Commercial Education Fees**—Students in commercial education pay nominal fees for the use of equipment and for materials.

**Locker Fees**—Corridor lockers are rented to students at 25 cents a quarter. Each student furnishes his own padlock.

**Medical Service and Hospital Fees**—Medical advice and treatment are provided students by the Health Director and his assistants without additional cost since a portion of the College Fee is set aside for the purpose of defraying the expenses of this service. The Health Director or his assistant may be consulted in the offices of the Health Director at stated hours. In case of emergencies the services of the Health Director or of an assistant are available at other hours. Every case of illness should be reported promptly to the Dean of Men or the Dean of Women. If no physician is in charge of the case, the head nurse will visit the student and give advice.

The college maintains a hospital for the benefit of its students, faculty, and employees. No specific hospital charge is made to a student for the first five days in the hospital in any quarter. After five days the charge is $2 a day. The fee for a private nurse is paid by the patient. Any regularly authorized physician may be employed at the patient’s expense.
The Residence of Women Students

All women students who do not live in their own homes must live in college residence halls or in rooming houses approved by the Dean of Women. During their first three quarters of attendance, if not living with their parents or legal guardians, all women students are required to live in Bartlett Hall, the residence hall for new students, unless given special permission to live in private homes. All such special permissions must be obtained from the Dean of Women before registration day.

Application for Rooms in Residence Halls. The application for a room reservation in one of the residence halls is made to the Dean of Women and must be accompanied by a deposit fee of $5.00. The deposit fee is retained as a damage fee until the end of the period of residence when any unused portion is returned. If an applicant for whom a room has been reserved finds it necessary to cancel her reservation, the deposit fee is refunded only if the cancellation notice reaches the Dean of Women's office ten days before the opening day of the quarter.

Assignments are made in the order of application except that students in residence during the academic year have the privilege of reserving their rooms for their own use during the summer quarter if the request is filed before March 1. All rooms not thus reserved are assigned in order of application. Definite assignments are made and notices are mailed two weeks before the opening of a quarter.

Occupancy. Residence halls will be open for occupancy for the 1940 summer quarter at 9:00 a.m. on Tuesday, June 4, and for the 1940-41 academic year at 9:00 a.m., Saturday, September 7. They may be occupied by students until noon of the day following the official ending of a quarter. Reservations will not be held after registration day unless the rental for the quarter has been paid in full prior thereto.

Rates and Payment. The rental rates are $30.00 per quarter for each student for a double room with one window, $33.00 per quarter for each student for a double room with two windows, and $36.00 per quarter for a single room. The entire rental fee must be paid within five days after the opening of a quarter. No refunds of room rent are made after the second Friday of a quarter.

Bartlett Hall. This residence hall is reserved for women students during their first three quarters of attendance. The hall, a fireproof building, houses 520 students and contains attractive living rooms, browsing rooms, spread rooms, recreation rooms, and complete office facilities for the administration of the various per-
sonnel functions. Pressing rooms and service rooms for each 30 students add to the convenience of living in the building. Student rooms have hot and cold water, a clothes closet for each occupant, study table, dresser, and single beds equipped with excellent inner spring mattresses and mattress pads. Each student furnishes her own linen, blankets, and bedspread. A more detailed description of the facilities accompanies the acknowledgement of the receipt of an application for reservation. Living conditions are supervised by a trained staff which includes the director, a resident physician, the director of social life, and the housekeeper.

West Hall. This residence unit, to be occupied for the first time during the 1940 spring quarter, is reserved for upperclassmen who have been enrolled in the college more than three quarters. Its facilities and conveniences include the best features of present-day student residence halls. Living conditions are supervised by a trained staff. Each student furnishes her own sheets, pillow cases, hand and bath towels. A pamphlet describing facilities accompanies the acknowledgement of the receipt of an application for reservation.

Accredited Rooming Houses. A list of accredited rooming houses will be furnished upon request to those students eligible to live outside the college residence halls. In all rooming houses students furnish their bedding and linens. The college is not a party to agreements made between students and landlords, although certain housing standards are enforced by the college.

The Residence of Men Students

All men students who do not reside at the home of a parent or guardian must live in one of the residence halls for men or in rooming houses approved by the Dean of Men. Exceptions to this regulation are made only in special instances.

Application for Rooms in Residence Halls. The application for a room reservation is made to the Dean of Men and must be accompanied by a deposit fee of $5.00. The deposit fee is retained as a damage fee until the end of the period of residence when any unused portion is returned. If an applicant for whom a room has been reserved finds it necessary to cancel his reservation, the deposit fee is refunded only if the cancellation notice reaches the Dean of Men’s office ten days before the opening day of the quarter.

Assignments are made in the order of application except that students in residence during the academic year have the privilege of
reserving their rooms for their own use during the summer quarter if the request is filed before March 1. All rooms not thus reserved are assigned in order of application. Definite assignments are made and notices are mailed two weeks before the opening of a quarter.

**Occupancy.** Residence halls will be open for occupancy for the 1940 summer quarter at 9:00 a.m. on Tuesday, June 4, and for the 1940-41 academic year at 9:00 a.m., Saturday, September 7. They may be occupied by students until noon of the day following the official ending of a quarter. Reservations will not be held after registration day unless the rental for the quarter has been paid in full prior thereto.

**Rates and Payment.** The rental rates are $30.00 per quarter for each student for a double room with one window, $33.00 per quarter for each student for a double room with two windows, and $36.00 per quarter for a single room. The entire rental fee must be paid within five days after the opening of a quarter. No refunds of room rent are made after the second Friday of a quarter.

**The George T. Baker Hall for Men and The Homer H. Seerley Hall for Men.** The George T. Baker Hall for Men and The Homer H. Seerley Hall for Men accommodate two hundred and thirty students. The buildings are fireproof and are equipped with every facility for the comfort and convenience of residents. Lobby, student lounge, solarium, recreation rooms, and showers are provided. Student rooms are furnished with single beds, mattresses and mattress pads, pillows, blankets, bedspreads, straight chairs, easy chairs, built-in study tables with shelves, built-in clothes closets, bedside stands, and waste paper baskets. Every room is equipped with hot and cold running water and adequate lighting facilities. Each student living in the men's dormitories is required to furnish four single sheets, size 63 x 99; three pillow cases, size 42 x 36; six hand towels, and four bath towels. Living conditions are supervised by the director and the housekeeper.

**Accredited Rooming Houses.** A list of accredited rooming houses for men students will be furnished upon request. In all rooming houses students furnish their bedding and linens. The managers of rooming houses for men require written contracts. The college is not a party to these agreements.

**The Commons**

The Commons houses the food service units and additional recreational facilities. The food service units are equipped to offer
the maximum in good food at low cost. There are five dining rooms arranged for cafeteria, dining room and party service. A fountain room offers late breakfasts and light lunches as well as regular fountain service. A trained dietitian is in charge.

Included in the recreational facilities are a large recreation hall, student lounges, faculty lounges, and club rooms. All of these rooms are completely equipped to carry on the program of social education which is a distinctive part of campus life at the Iowa State Teachers College.

Resumé of a Student’s Expenses Per Year

Expenditures for such items as board, books, and incidentals vary considerably. The following itemized statement indicates typical expenditures during the freshman year.

Matriculation fee (for first enrollment only) ........................................... $5
Tuition—$26 for each of three quarters ............................................... 78
Room—$30 for each of three quarters .................................................. 90
Board—$54 ($4.50 per week) for each of three quarters .... 162
Books, supplies, and laboratory fees—$15 for each of three quarters .......................................................... 45
Incidentals such as laundry, cleaning, entertainment, etc., $20 for each of three quarters .................................................. 60

$440

This estimate does not include clothing or transportation between the student’s home and the campus. Neither does it include fees for private instruction in music which is required of all students whose major or minor is in the field of music. It does include medical service, five days of hospitalization per quarter if necessary, admission without further charge to all athletic events, and reduced subscription rates to student publications.

Employment

Work opportunities on or near the campus are not numerous and, as a result, the college cannot promise or guarantee work to any prospective student. No student should come to the campus expecting to earn more than one-third of his or her expenses. Past experience indicates that the average student should not be employed more than three hours per day and at the same time carry a normal load of fifteen credit hours. Students new to the campus
are advised to postpone employment until the end of the first quarter, if it is at all possible to do so.

The offices of the Dean of Men and the Dean of Women will give all possible help to students who need to secure part-time employment.

**Partial Tuition Exemptions**

The college has no scholarships to place at the disposal of its students. It does grant partial tuition exemptions each year to approximately seventy-five able young men and women who need aid in financing their college education. These grants have a value of $20 per quarter, or $60 per year, and are made only to first-year students. Each grant is continued for four consecutive years of college work, not including the summer session, providing the recipient maintains a satisfactory scholarship record. In order to receive consideration, applicants for these grants-of-aid must take the placement tests in one of the eleven designated testing centers on June 7, 1940, (see page 35) and applications must be filed in the office of the President not later than June 1. The successful applicants are notified about July 15.

**Student Loan Fund**

The college maintains a loan fund for worthy students who are in need of such assistance. Loans are made only to students who have completed four or more quarters of college work, who have completed at least two full quarters in residence at this college, and who are within approximately one year of graduation. In order to be eligible for a loan, the applicant must have earned at least two times as many grade points as hours of credit. Applications for loans must be on file with the secretary of the loan fund committee at least one month before the loan is to be needed.

**Student Organizations**

At the Iowa State Teachers College, extra-curricular activities are a part of the campus life. A point system regulating participation was initiated with the opening of the fall quarter of the past year. The objectives of this point system are to give a greater number of students training in the benefits to be derived from participation in extra-curricular life, to foster the development of the various activities on the campus, and to safeguard the academic and health interests of students. The point system applies to all students ex-
except first quarter freshmen whose activities program is under the supervision of the Orientation Committee of the Student Council. The plan was initiated and is administered by the Organizations Committee of the Student Council with the approval of the Student Welfare Committee and the Faculty Senate. Its development represents one of the phases of the work being carried on by the Student Council, an administrative group representing the student body. A faculty committee known as the Student Welfare Committee acts in an advisory capacity to the Council.

Other parts of the Student Council program of work are carried out through the social life, orientation, lecture and entertainment, college elections and customs and traditions committees. The Men's Union and Women's League, organizations comprising all men and women students on the campus, likewise are interested in promoting the intellectual and social growth of their members through projects particularly fitted to their respective memberships. The work of these three organizations—Student Council, Men's Union, Women's League—is coordinated to give the maximum benefits of growth which might come from participation in the solution of campus problems.

Aside from the campus leadership organizations noted, there are interest groups which include departmental clubs, religious organizations as well as a variety of other interests which bind a group of students together; honor and recognition organizations; social organizations; and the student publishing association.

Departmental Clubs. Departmental clubs are maintained in order to stimulate interest in various major lines of work and to acquaint students with new ideas in the different fields. The clubs are the Art League, Industrial Arts Guild, The Alembic (Chemistry), First Year Kindergarten-Primary Club, Second Year Kindergarten-Primary Club, Beta Alpha Epsilon (Elementary B. A. Club), Elementary Education Club, Kappa Pi Beta Alpha (Kindergarten-Primary Education), Hamilton Club (Speech), Playcraft Club, Writers' Club, Ellen Richards Club (Home Economics), Commercial Club, Mathematics Club, Classical Club, Romance Language Club, Deutscher Verein (German Club), Chemistry Seminar, Biology Club, Physical Education Club, Women's Athletic Association, Life Saving Corps, International Relations Club.

Religious Organizations. Religious organizations maintained on the campus are the United Student Movement, which sponsors a religious program open to the entire student body, the Catholic Students' Association, and various denominational groups.
Miscellaneous Interest Groups. Alpha Phi Omega (National Boy Scout Fraternity), Campus 4-H Club, Rho Epsilon Rho (Pep Fraternity), Student Camera Club.

Honor Organizations. Superior achievement in various lines of educational work is recognized by membership in the following honor organizations: Kappa Delta Pi (national honor scholastic fraternity), Delta Sigma Rho (Debate), Theta Alpha Phi (Drama), Sigma Tau Delta (English), Kappa Mu Epsilon (Mathematics), Pi Omega Pi (Commercial Education), Gamma Theta Upsilon (Geography), Lambda Delta Lambda (Physical Science), Beta Beta Beta (Biology), Pi Gamma Mu (Social Science), Phi Mu Alpha and Sigma Alpha Iota (music fraternities for men and women respectively), Theta Theta Epsilon (Home Economics), Orchesis (Dance), I Club (for men who have won letters in intercollegiate sports), Blue Key (a national honor fraternity for men), Epsilon Pi Tau (Industrial Arts), Purple Arrow (local scholastic honor society for first and second year women), Golden Ledger (local honor society for first and second year commercial education students), and Social Science Honors Society.

Social Organizations. There are eleven local sororities: Alpha Beta Gamma, Delta Phi Delta, Epsilon Phi Epsilon, Kappa Theta Psi, Pi Phi Omega, Pi Tau Phi, Phi Sigma Phi, Pi Theta Pi, Tau Sigma Delta, Theta Gamma Nu, Nu Omicron Nu Sigma Phi.

There are three local fraternities, Alpha Chi Epsilon, Lambda Gamma Nu, and Xanho; and two fraternities which have other chapters outside the state, Alpha Delta Alpha, and Phi Sigma Epsilon.

Music Organizations. College Chorus, A Cappella Choir, Cecilian Glee Club (women), Minnesinger Glee Club (men), College Symphony Orchestra, College Band, Women's Band, Second Orchestra, Women's Chorus.

Student Publishing Association. The Student Publishing Association is governed by the Board in Control of Student Publications consisting of five students and four members of the faculty. The College Eye, weekly newspaper, and the Old Gold, student annual, are edited by students under the supervision of the Director of the Bureau of Publications and the Board in Control of Student Publications. The Purple Pen, a quarterly magazine sponsored by Sigma Tau Delta, publishes significant literary productions of students.
Placement Bureau

Graduates and former students of the college who have been in residence for three or more quarters are assisted by the Placement Bureau in obtaining teaching positions. Direct services are given upon request to superintendents and other school officials by recommending qualified candidates and furnishing copies of confidential credentials. Recommendations are based upon personality, scholarship, teaching traits, success in student teaching, actual teaching experience, character, and professional growth. The bureau is not in a position to guarantee its registrants teaching positions but it does give them all the support that is justified by the records and recommendations filed with the bureau.

A fee of $3 is charged for registration with the bureau. Each registration continues in force for one year from the date the fee is paid. Prospective graduates from the college are required to register with the bureau but no fee is charged if registration is completed within the first six weeks of the quarter of graduation or prior to this time. Prospective June and August graduates are urged to register not later than within the first six weeks of the winter quarter preceding their graduation. Former graduates who are now teaching and who desire the services of the bureau are requested to complete their registration with the bureau before February 1.
General Regulations

Entrance Requirements

Graduates of four-year public high schools or three-year senior high schools (10th, 11th, and 12th grades) in the state, and graduates of secondary schools which have been accredited by the Iowa Board on Secondary School Relations are admitted to college courses.

Graduates of secondary schools in other states, if such schools are accredited by the state university of the state, are admitted to the Iowa State Teachers College, if their scholarship record averages as high as the average mark of the high school.

Persons twenty-one years of age or over who have not completed 14 units* of secondary school work may be admitted conditionally as adult students to college courses.

Graduates of unaccredited schools in Iowa or in other states, if not admitted as adult students, are admitted only on examination.

Students residing outside the state who have attended another college are not admitted to the Iowa State Teachers College unless their scholarship record averages C for all work undertaken in college.

Students residing in Iowa who have been in attendance at another college and who are under suspension from that college because of their scholarship are not admitted to the Iowa State Teachers College.

Students who have been suspended from another college for reasons other than scholarship are not admitted to the Iowa State Teachers College except as their cases may be reviewed by the President of the college.

*Secondary school work is measured in units. A unit is defined as the equivalent of one high-school study satisfactorily pursued for one school year of at least thirty-six weeks in length, with five periods a week. The length of the recitation periods shall be not less than forty minutes and the laboratory periods not less than sixty minutes. A unit represents one-fourth of the full regular work of a student.
Admission to Curricula

Applicants from four-year secondary schools—

For unconditional admission—15 units; conditional admission—
**14 units as follows:**

**Required**

- **English** (composition and rhetoric, literature, grammar) ................................................................. 3 units
- **Social science** (history, civics, economics, sociology) 1½ units

**Restricted Electives** (from the following) ................................................................. 4½ units

- English
- Social science
- Mathematics (algebra, geometry, trigonometry)
- Foreign language
- Natural science

**Free Electives** ................................................................. 6 units

These 6 units may include additional work in the foregoing subjects or whatever work the secondary school certifies as counting toward graduation.

Applicants from senior high schools (10th, 11th, and 12th grades)—

For unconditional admission—11 units; conditional admission—
**10 units.**

**Required**

- **English** ......................................................................................................................... 2 units
- **Social science** .............................................................................................................. ½ unit

**Restricted Electives** (from the following) ................................................................. 3½ units

- English
- Social science
- Mathematics (algebra, geometry, trigonometry)
- Foreign language
- Natural science

**Free Electives** ................................................................. 5 units

These 5 units may include additional work in the foregoing subjects or whatever work the secondary school certifies as counting toward graduation.

A student admitted to a curriculum with an entrance deficiency must earn nine extra hours of college credit for each unit of defici-
iciency in order to meet the requirements for graduation. If the deficiency is in English or in social science, the extra credit must be in English or in social science.

For a graduate of an approved four-year high school or an approved senior high school, an entrance deficiency is waived in case the student passes the placement tests in a satisfactory manner and makes a scholarship record which averages C on the first forty-five hours of work that are undertaken at the college.

The entrance requirements are waived for a student who is 21 years of age or past 21 when he enters in case the student passes the placement tests in a satisfactory manner and makes a scholarship record which averages C on the first forty-five hours of work that are undertaken at the college.

**GROUPS OF SECONDARY SCHOOL SUBJECTS**

College entrance subjects are classified in the following six groups. The subjects included in these groups, the number of units acceptable in each subject, and other restrictions, are given below.

1. **English**
   
   The 3 required units in English must be selected from composition and rhetoric, literature, and grammar. College entrance credit for English grammar, not exceeding \( \frac{1}{2} \) unit, will be accepted only if taken after the completion of ninth grade work. Additional work in English may include composition and rhetoric, literature, and not to exceed \( \frac{1}{2} \) unit each in business English, journalism, and public speaking.

2. **Social Science (history, civics, economics, sociology)**

6. Miscellaneous
Six units may be accepted from whatever commercial, industrial, or non-academic subjects are counted toward graduation from the high school, except that work in arithmetic will not give college entrance credit unless it is taken after the completion of ninth grade work.

7. Other Restrictions:
a. Not less than ½ unit in any single subject (or 1/3 unit in the case of a secondary school whose year is divided into three terms of twelve weeks in length) will be accepted.
b. In freehand or mechanical drawing, manual training, typewriting, and the laboratory elements of domestic science or bookkeeping, laboratory periods of not less than 60 minutes are required.
c. Any subject such as physical training, music, glee club, band, etc., which is permitted in addition to four regular high-school subjects is considered an extra-curricular subject. In special cases credit of not more than ½ unit per year in such extra-curricular subjects may be used toward admission, if counted toward graduation from the high school.
d. Maximum Credits per Year
Not more than five units of college entrance credit may be allowed for the work of any year. Only four
units will be allowed for ninth grade work in a junior high school.

e. Credits Earned in Summer Schools
Credit earned in high-school summer sessions where the normal student load is two subjects, each with two forty-five minute recitation periods a day, will be accepted as follows:
For an eight-week summer session the total amount of credit to be accepted is 1 unit, or \( \frac{1}{2} \) unit in each subject.
For a six-week summer session the total amount of credit to be accepted is \( \frac{3}{4} \) of a unit, or \( \frac{3}{8} \) unit in each subject.

f. Credits Earned by Tutoring
A student who has not severed his connection with his high school may be permitted to make up work under the supervision of an approved private tutor with the provision that examinations for high-school credit will be given by the high-school authorities. If the credits are earned by tutoring, and not in conformity with the provisions stated, such credits are not to be accepted for college entrance except by examination taken at the institution which he desires to enter.
After a student has severed his connection with the high school he may receive college entrance credit for work which he may accomplish in any other way than as a regular member of the high-school class, only by examination at the institution for higher learning which he desires to enter.

Notice to Prospective Students

Make application for admission as early as possible. An application blank is provided as the last sheet of this bulletin.
Certificates of high-school credit should be sent to the Registrar several weeks before the time for enrollment. A certificate must be furnished from each high school attended.
College credit earned at other approved colleges and at approved junior colleges is accepted and used in meeting the requirements for graduation so far as it can be used on the curriculum selected by the student.
Transcripts of college credit should be sent to the Registrar several weeks before the time for enrollment. An official transcript must be furnished from each college attended before the student is permitted to register.
Advisers and Amount of Work

The registration of every student is subject to the approval of an adviser or an advisory committee.

The regular work of a student consists of three five-hour courses or equivalent, with one extra hour if desired, and in addition until the requirements are satisfied Physical Education 01.

The minimum amount of academic work that a regular student is permitted to take is two five-hour courses or equivalent.

A student may take a drill course in penmanship or music or directed observation in addition to the credit work which he is permitted to carry.

Students in general may not register for more than regular work and a drill course or directed observation during the first two quarters in residence.

After the first two quarters in residence a student who has maintained a high rank in scholarship may be permitted by his adviser to register for more than 16 hours of work a week; but in no case is a student permitted to register for more than 20 hours of credit work, the amount of work being counted as if each course were taken for full credit.

A student who has received a degree from a standard college may be permitted by his adviser to register for a maximum of 20 hours of credit work a week.

Absences and the Making Up of Work

Work lost by late enrollment may not be made up for credit except with the consent of the Dean of the Faculty.

Work lost by change of registration after the first three days of recitation of any quarter may not be made up for credit without the consent of the Dean of the Faculty unless the change was due to a notification of error in registration.

Students must be in attendance for the full quarter to receive any credit for the work. The practice of permitting students to earn credit for the first six weeks of one quarter and the second six weeks of another quarter has been discontinued.

Work left incomplete at the end of a quarter will be reported as a Failure unless permission is obtained from the Dean of the Faculty to have it reported as Unfinished. Work reported as Unfinished may not be completed after the expiration of six months from the time at which the report was made. If the work reported as Unfinished is not made up within six months, it is automatically entered as a Failure on the student’s record.
Students who are registered for courses which bear numbers of 300 or above 300 must attend these classes regularly during the first five days of instruction and the last five days of instruction each quarter, except that students who are registered for courses in the Department of Teaching must be present for this work regularly throughout the quarter.

Students who are registered for courses in the Department of Teaching and those who are registered for courses which bear numbers below 300 may not make up work for credit which is lost by absence unless the absence is excused, except that one or two unexcused absences in Physical Education 01 may be made up under the same conditions as excused absences.

In courses bearing numbers below 300 lost work amounting to more than one-sixth of the course or to more than one-sixth of a quarter's work in Physical Education 01 may not be made up for credit.

When students are absent without excuse from courses bearing numbers below 300 or courses in the Department of Teaching, or when excused absences in such courses are not made up, additional work is required for graduation. One-tenth of a quarter hour is added to the requirements in the case of each course for every period unexcused or not made up. Two periods of laboratory work are counted as one period of class work. This regulation also applies to work for the first five days of instruction and the last five days of instruction each quarter in courses bearing numbers of 300 or above 300.

Marks and Grade Points

The marks A, B, C, D, F (Failed), and U (Unfinished) are used in indicating quality of work.

Grade points are awarded as follows: for each hour of credit work marked A, 4 grade points; B, 3 grade points; C, 2 grade points; D, 1 grade point; F, 0 grade points.

Students may be suspended temporarily or indefinitely if they do not maintain a satisfactory scholarship record.

General Requirements for Graduation

Residence and Residence Credit—To meet the requirements for graduation a student must be in residence at this institution at least thirty-six weeks, earning in such residence at least 45 hours of college credit. The last 15 hours of credit required for graduation must be earned in residence at Cedar Falls.

Three-fourths of the credit required for the completion of any curriculum must be earned by residence work.
Physical Education—A student is required to take work in Physical Education 01 each fall, winter, and spring quarter of attendance at Cedar Falls unless he is released from a part or all of this requirement by the Health Director or is teaching in a rural demonstration school or in an affiliated school, except that no student other than a student whose major is physical education is required to complete more than six quarters of Physical Education 01.

Not less than two quarters of Physical Education 01 are required for the completion of the one-year curriculum for teachers in rural schools and not less than three quarters for graduation from any other curriculum.

Three quarters of the required work in Physical Education 01 must consist of work requiring three periods a week.

Three quarters or less of band practice two or more days a week may be substituted for an equal number of quarters of Physical Education 01, if the student registers for band practice instead of for Physical Education 01.

A temporary excuse from Physical Education 01 for a quarter or a part of a quarter by the Health Director does not release the student from any part of the total requirement in Physical Education 01.

Listing of Candidates for Graduation.—A student may be listed as a candidate for graduation at the end of a quarter if the completion of the work for which he is registered would meet all the requirements for graduation exclusive of grade points, and if the grade points to be earned do not exceed the number which could be earned for the hours for which he is registered.

Scholarship Requirement for Graduation—To be recommended for graduation a student must earn two times as many grade points as hours attempted in residence and by extension work at this institution. If part of the credits were earned at another college with an average scholarship mark which is below C, the scholastic average here must be sufficiently high to insure an average scholarship mark in all college work attempted of not less than C.

If a student has failed to be recommended for graduation because of his scholastic average, the deficiency may be removed only by work taken in residence.

Note—A student who expects to be graduated at the end of a quarter should make written application for graduation at the opening of the quarter. This application is filed in the office of the Registrar.
Teachers Certificates

County Certificates

Normal Training—The college makes provision for the twelve weeks of normal training required by law for a county certificate by examination. To be admitted for normal training a student must be a graduate of a four-year approved high school. To obtain a statement certifying to twelve weeks of normal training a student must earn twelve weeks of credit (5 hours) in Rural School Management (Education 50) and twelve weeks of credit in each of two other five-hour college subjects designated by the State Board of Educational Examiners.

Examinations for County Certificates—The examinations for county certificates are held at the college at stated times in January, June, August, and October. Information concerning these examinations may be obtained at the office of the Registrar.

Substitutions for Examinations—Information concerning the substitution of credit in certain courses for examinations required for county certificates may be obtained at the office of the Registrar.

A student who has completed two years of college work including at least 3 quarter hours of work in American Government (Government 132) and 15 hours of work in elementary education or in elementary education and educational psychology as prescribed by the Board of Educational Examiners may receive a first grade uniform county certificate, if the whole record is approved by the Board of Educational Examiners.

Five-Year Certificates

Graduates of the Iowa State Teachers College when eighteen years of age may receive certificates without examination as indicated below:

For the completion of a two-year curriculum, a standard elementary certificate;
For the completion of a four-year curriculum with a major in nursery school-kindergarten education, kindergarten-primary education, or elementary education, an advanced elementary certificate;

For the completion of a four-year curriculum with a major in art, music, or physical education, a five-year special certificate or a standard secondary certificate;

For the completion of a four-year curriculum with a major in other lines than those mentioned above, a standard secondary certificate.

The requirements for the issuance of the elementary principal's certificate, the secondary principal's certificate, and the supervisor's certificate may also be satisfied by work taken in this institution. Detailed information with regard to these requirements may be obtained at the office of the Registrar.
Curricula

The various curricula of the Iowa State Teachers College provide preparation for the work of different types of teachers and administrators as follows:

Four-Year Curricula: teachers of art, commercial education, English, foreign languages, home economics, industrial arts, mathematics, music, physical education, science, and social science; critic teachers; supervisors of nursery school and kindergarten, and of primary, intermediate, and upper grade work; elementary and secondary school principals.

Two-Year Curricula: teachers in kindergarten-primary grades, teachers in grades above the primary.

One-Year Curriculum: teachers in rural schools.

Four-Year Curricula

Introductory Statement

The four-year curricula are organized to include majors and lead to the degree of Bachelor of Arts. The requirements of majors and minors are indicated in statements preceding the courses of instruction in each major line. The fields from which majors and minors may be chosen are:

**Majors**

- Applied music
- Art
- Commercial education
- Earth science
- Elementary education
- English
- French
- German
- History
- Home economics
- Industrial arts
- Kindergarten-primary education
- Latin
- Mathematics
- Nursery school-kindergarten education
- Physical education (men)

**Minors**

- Agriculture
- Art
- Band and orchestra conducting
- Biological science
- Chemistry
- Commercial education
- Earth science
- Economics and sociology
- English
- French
- German
- Government
- History
- Home economics
- Industrial arts
- Latin
- Mathematics
A student must choose a major and the required number of minors before registering for courses which will include work of the sophomore year. The choice of the major and of the minors is subject to the approval of the head of the department in which the major is chosen.

The head of the department in which the major is chosen is the adviser of the student.

With the consent of the adviser more than two minors may be chosen. Three or more minors are recommended in order that the student may be prepared for teaching in several fields.

The requirements for a degree include in addition to the general requirements for graduation at least 45 hours of credit earned in the junior and senior years in courses of this institution, at least 30 hours of credit earned in the junior and senior years in residence at this institution, at least 90 hours of credit earned in courses not open to freshmen, and at least 60 hours of credit earned in courses open only to juniors and seniors.

Twenty hours of the work of a major must be in courses not open to freshmen, and 10 hours must be in courses open only to juniors and seniors.

A student whose major is in the field of education and who has completed a two-year curriculum and has earned only 10 hours of credit in teaching must earn 5 hours of additional credit in teaching in the senior year unless released from this requirement by the Head of the Department of Teaching. If the major is in a field other than education, the student must earn credit in Teaching 400 and 408.

A student must make application for teaching at least one quarter in advance of the time when the work in teaching is to be taken.

Not more than 15 hours of teaching may be used in meeting the requirements for a degree.

The requirements for a standard secondary certificate include credit for at least 22½ hours of work in one major line and at least
15 hours in each of two other major lines as prescribed by the State Board of Educational Examiners.

To receive a second baccalaureate degree a student must meet all the requirements for that degree including at least 36 weeks of residence after receiving the first baccalaureate degree and not less than 45 hours of credit in addition to the credit required for the first baccalaureate degree.

The work of a student must include a major and two minors.

The work in Physical Education 01 for women students must
include Activities for High School and Adult Recreation except that
a student whose major is art or speech or in the Department of
Music may take Fundamentals of Rhythmic Education instead of
Activities for High School and Adult Recreation.

The electives must be chosen so as to provide for at least 22½ hours in one of the following subject-matter groups and at least 15 hours in each of two others. If music is chosen as one of the subject-matter groups, at least 22½ hours must be taken in this field.

1. Art
2. English
3. Earth science
4. History
5. Mathematics
6. Music
7. Biological and physical science
8. Physical education and health

Note: In meeting the requirements of group 7, students may choose any courses listed in the Department of Science except courses in earth science and in agriculture. In meeting the requirements of group 8, students may choose courses in physical education and from Biological Science 12 or 300.

*The student is required to take either Education 36 or Education 436.
For further details see Four-Year Curricula, Introductory Statement (page 56), and General Requirements for Graduation (page 52).

490. **The Teaching of French**—2 hours. Credit also as a course in education for a student whose major is French. Prerequisite: French 305 and 306 or equivalent preparation and Education 460.

2. German

A major in German must include German 490 and 38 hours of elective work in German.

Students who have had two years of German in high school or equivalent preparation may take courses from the 300 group in the freshman year and courses from the 400 group (except German 490) in the sophomore year.

A minor in German consists of at least 20 hours of work in courses in German which are more advanced than German 101.

101. *German I*—5 hours. A course for beginners.

102. *German II*—5 hours. Prerequisite: German 101 or equivalent preparation.

103. **German Stories and Plays**—5 hours. Prerequisite: one year of high-school German or equivalent preparation.

301. **Recent German Prose**—5 hours. Prerequisite: two years of high-school German or equivalent preparation.

302. **Goethe's Hermann und Dorothea**—2 hours. Prerequisite: German 301 or equivalent preparation.

303. **Schiller's Dramas**—5 hours. Prerequisite: German 301 or equivalent preparation.

304. **German Drama of the 19th Century**—5 hours. Representative works of Heinrich von Kleist, Grillparzer, Hebbel, Ludwig, Anzengruber, and Hauptmann. Prerequisite: German 301 or equivalent preparation.

305. **Contemporary German Literature**—5 hours. Prerequisite: German 301 or equivalent preparation.

306. **German Composition and Advanced Grammar**—3 hours. Prerequisite: German 301 or equivalent preparation.

401. **German Lyrics and Ballads**—5 hours. Prerequisite: German 301 or equivalent preparation.

*German 103 or an approved substitute must be completed before credit for German 101 or 102 may be used in meeting the requirements for graduation.*
402. **Scientific German**—5 hours. Selections from the literature of chemistry, physics, biology, and other sciences. Prerequisite: German 301 and 10 hours of work from German 302, 303, 304, 305, 306, and 401.

403. **Lessing**—5 hours. Prerequisite: German 301 and 10 hours of work from German 302, 303, 304, 305, 306, and 401.

404. **Goethe**—5 hours. Prerequisite: German 301 and 10 hours of work from German 302, 303, 304, 305, 306, and 401.

405. **History of German Literature**—3 hours. Prerequisite: German 301 and 10 hours of work from German 302, 303, 304, 305, 306, and 401.

490. **The Teaching of German**—2 hours. Credit also as a course in education for a student whose major is German. Prerequisite: German 301 and 10 hours of work from German 302, 303, 304, 305, 306, and 401.

### 3. Latin

A major in Latin must include Latin 490 and 38 hours of elective work in Latin except that 10 hours of credit in French 301 to 410, though not included in the Latin major line, may be counted as a part of the 38-hour requirement. The Latin courses of a major in Latin must be selected from courses 109, 110, 111, 301, 401, and 490.

All of the work of a minor in Latin (20 hours) must be selected from courses 107, 108, 109, 110, 111, 301, 401, and 490.

101. **Elementary Latin I**—5 hours. A course for beginners.

102. **Elementary Latin II**—5 hours. Prerequisite: one year of high-school Latin or Latin 101 or equivalent preparation.

103. **Elementary Latin III**—5 hours. Selections from Caesar's Gallic War. Writing of Latin. Prerequisite: Latin 102 or equivalent preparation.

104. **Cicero's Orations I**—5 hours. Selections from the orations against Catiline. Review of Latin grammar. Writing of Latin. Prerequisite: two years of high-school Latin or Latin 103 or equivalent preparation.

*Latin 103 or an approved substitute must be completed before credit for Latin 101 or 102 may be used in meeting the requirements for graduation.*
107. **Vergil I**—5 hours. Selections from the Aeneid. Prerequisite: three years of high-school Latin or Latin 104 or equivalent preparation.

108. **Vergil II**—5 hours. Prerequisite: half-year of Vergil in high school or Latin 107.

109. **Cicero’s Cato Major and Latin Composition**—5 hours. Translation with special study of the process of understanding and translating Latin. Review of Latin grammar. Composition exercises involving systematic drill in syntax. Prerequisite: four years of high-school Latin or equivalent preparation.

110. **Pliny’s Letters**—5 hours. Prerequisite: four years of high-school Latin or equivalent preparation.

111. **Epodes and Odes of Horace**—5 hours. Prerequisite: Latin 109 or equivalent preparation.

301. **Livy**—5 hours. Prerequisite: Latin 109 or equivalent preparation.

490. **The Teaching of Latin**—2 hours. Credit also as a course in education for a student whose major is Latin. Prerequisite: Latin 109 or equivalent preparation and Education 460.

### 4. Spanish

Students who have had two years of Spanish in high school or equivalent preparation may take courses from the 300 group in the freshman year and courses from the 400 group in the sophomore year.

A minor in Spanish consists of at least 20 hours of work in courses in Spanish which are more advanced than Spanish 101.

101. *Spanish I*—5 hours. A course for beginners.

102. *Spanish II*—5 hours. Prerequisite: Spanish 101 or equivalent preparation.

*Spanish 103 or an approved substitute must be completed before credit for Spanish 101 or 102 may be used in meeting the requirements for graduation.*
103. **Spanish III**—5 hours. Reading of easy prose. Emphasis on understanding spoken and written Spanish. Prerequisite: one year of high-school Spanish or equivalent preparation.

301. **Spanish Prose**—3 hours. Selections from fiction and drama of the nineteenth century. Prerequisite: two years of high-school Spanish or equivalent preparation.

302. **Spanish Short Stories**—2 hours. Prerequisite: two years of high-school Spanish or equivalent preparation.

303. **Modern Spanish Novel**—3 hours. Prerequisite: Spanish 301 and 302 or equivalent preparation.

304. **Spanish and Spanish-American Life**—2 hours. Lectures on the life and customs of the Spanish people and their contribution to civilization. Prerequisite: Spanish 301 and 302 or equivalent preparation.

305. **Contemporary Spanish Drama**—3 hours. Plays of Benavente, Martinez-Sierra, and Quintero. Prerequisite: Spanish 301 and 302 or equivalent preparation.

307. **Readings from Contemporary Spanish Authors**—2 hours. Representative novels, dramas, and essays selected. Prerequisite: Spanish 301 and 302 or equivalent preparation.

401. **Don Quixote**—3 hours. The life of Cervantes. Selected chapters of the Don Quixote with reports on additional reading. Prerequisite: Spanish 301 and 302 or equivalent preparation.

402. **History of Spanish Literature**—2 hours. General survey course with emphasis upon important literary movements and writers. Prerequisite: Spanish 301 and 302 or equivalent preparation.

5. **Courses Presented in the English Language**

451. **French Drama in Translation**—3 hours. A survey with lectures in English and collateral reading of English translations.

453. **German Literature**—3 hours. A survey revealing characteristics of German language, literature, and peoples. Readings in English of epics, dramas, and novels.

455. **History of Latin Literature**—3 hours. Survey of Latin literature from its beginnings to the end of the silver age. Contribution of the Romans to world thought. Readings in English of representative authors.
457. **Spanish Civilization**—3 hours. Social and political background of the Spanish peoples and their contributions to world culture.

459. **Spanish Literature**—2 hours. Lectures in English with readings from English translations of Spanish classics.

461. **Norwegian Literature**—3 hours. Literature of the nineteenth and twentieth centuries in English translation. The principal works in fiction and drama of such authors as Ibsen, Björnson, Garborg, Hamsun, and Undset. Lectures on the historical, linguistic, and cultural background.
Mathematics

Henry Van Engen, Ph.D., Assistant Professor of Mathematics and Head of the Department
Ira S. Condit, M.A., Professor of Mathematics, Emeritus, Part-time Service
Emma F. Lambert, M.A., Professor of Mathematics
E. E. Watson, M.S., Professor of Mathematics
Charles W. Wester, M.A., Professor of Mathematics

A major in mathematics consists of at least 42 hours of work in mathematics which must include Mathematics 416, 490, and either 304 or 305.

A minor in mathematics consists of at least 23 hours of work in mathematics which must include Mathematics 101 and at least 2 hours from courses 304, 305, and 306.

10. Principles of Elementary Mathematics I—5 hours. An instructional program in arithmetic; applications of the principles of educational psychology to the work in arithmetic for grades one to eight. Diagnostic and remedial work.

100. Mathematics I, College Algebra—5 hours. No credit for a student who presents two units of entrance credit in algebra. Prerequisite: Mathematics 110.

101. Mathematics II—5 hours. No credit for a student who presents one-half unit of entrance credit in trigonometry. Trigonometry and continuation of college algebra. Prerequisite: Mathematics 100.

102. Mathematics III—5 hours. Analytical geometry and allied topics. Prerequisite: Mathematics 101.

110. Survey of Mathematics—5 hours. Develops the social significance of mathematics and shows the relationship of mathematics to other fields of learning. Required of each student who has either a major or a minor in mathematics but designed also for those who do not plan to take further work in mathematics.

304. Surveying—3 hours. Principles and operations; field practice in measurement; leveling. Prerequisite: Mathematics 101. Four periods a week.

307. **Mathematics of Finance**—3 hours. Sinking funds, depreciation, bonds, building and loan associations, and life insurance.

400. **Theory of Equations**—5 hours. The analytic criterion for constructions with ruler and compasses; the impossible constructions of Euclidian Geometry; the solution of numerical equations by Newton's and Horner's methods; the determinants for systems of linear equations in $n$ unknowns. Prerequisite: Mathematics 415.

401. **Theoretical Mechanics A**—3 hours. Principles of dynamics and their applications in the field of mathematical physics. Prerequisite: Mathematics 415.

402. **Theoretical Mechanics B**—2 hours. The size of stars and their probable distribution, determination of orbits, mass, density, distance; the law of gravitation. Kepler's laws; velocity of escape of gases. Prerequisite: Mathematics 415.

405. **Differential Equations**—3 hours. Differential equations of the first order and linear equations with constant coefficients, with emphasis upon forms occurring in mechanics and physics. Prerequisite: Mathematics 416.

406. **Statistical Measurement**—5 hours. Introduction to the mathematics of statistical methods. Some knowledge of calculus is desirable. Prerequisite: Mathematics 100 and 101 or equivalent preparation.

407. **History of Mathematics**—3 hours. Prerequisite: Mathematics 102.

408. **Principles of Elementary Mathematics II**—3 hours. Organization of subject matter; the relation of arithmetic to the whole curriculum; evaluation of teaching procedures; the testing program.

410. **Materials in Secondary Mathematics**—3 hours. Prerequisite: two courses in college mathematics and Education 460.

415. **Calculus I**—5 hours. Differential calculus with applications. Prerequisite: Mathematics 102.

416. **Calculus II**—5 hours. Integral calculus. Prerequisite: Mathematics 415.

417. **Calculus III**—5 hours. Taylor's theorem, series, theorem of the mean, partial differentiation, practical applications, easy differential equations. Prerequisite: Mathematics 416.

490. **The Teaching of Secondary Mathematics**—2 hours. Credit also as a course in education for a student whose major is mathematics. Prerequisite: two courses in college mathematics and Education 460.
Music

Edward Kurtz, M.A., Professor of Violin and Composition and Head of the Department
Louis Crowder, B.A., Assistant Professor of Piano
William E. Hays, M.Mus., Assistant Professor of Voice
Harald B. Holst, M.Mus., Assistant Professor of Voice
Rose Lena Ruegnitz, M.Mus., Assistant Professor of Piano
Myron Russell, M.Mus., Assistant Professor of Wood-wind Instruments
Roland Searight, M.A., Assistant Professor of Violoncello and Conducting
Olive L. Barker, M.A., Instructor in Voice
Russell N. Baum, M.Mus., Instructor in Piano
Emil W. Bock, M.Mus., Instructor in Violin
Verner D. Delaney, M.A., Instructor in Music Education
Frank W. Hill, M.Mus., Instructor in Violin, Viola, and Theory
George W. Samson, Jr., Instructor in Organ and Piano
Annette Wilkins, M.Mus., Instructor in Voice
Carl A. Wirth, M.Mus., Instructor in Brass Instruments and Theory

A student whose major is in the field of music must earn 20 hours of credit in one foreign language if he presents no entrance credit in foreign language; if he presents 1 unit to 1½ units in one foreign language, he must earn 10 hours of credit in the same foreign language or 15 hours of credit in a new foreign language; if he presents 2 to 2½ units in one foreign language, he must earn 5 hours of credit in the same foreign language or 15 hours of credit in a new foreign language. No additional work in foreign language is required of a student who has earned 3 or more units of one or two foreign languages in high school.

A major in school music must include Music 01, 02, 03, 04, 05, 06, 13, 14, 15, 300, 302, 303, 308, 317, 318, 400, 402, 403, 404, 405, 408, 409, 410, 411, 412, 413, 430, 435, 436, and 437. The student must select a field of applied music (known as the applied major field) for specialization. The student must earn 21 hours in the applied major field or 12 hours in the applied major field and 9 hours in some other field of applied music and must pass an examination including Grade XII in his applied major field. Three hours in piano are also required except that on passing a satisfactory examination (Grade VI) in piano the Head of the Department of Music may per-
mit the substitution of other credit in applied music. If the student takes work in violin, Music 01, 02, and 03 may be omitted; if the student takes work in voice, Music 04, 05, and 06 may be omitted; and 1 hour of work in voice, Music 300 to 303 may be omitted for each quarter of work in an instrument corresponding to the instruments studied in Music 300 to 303. Each student must make a public appearance in the applied major field.

Activities: A student whose applied major field is voice must take 12 quarters of work in chorus. A student whose applied major field is an instrument is required to take 6 quarters in ensemble and, unless the instrument is piano or organ, 12 quarters of work in orchestra or band or both, and 3 quarters in chorus. Attendance at recitals and public music events presented by the Department of Music is required. The Head of the Department of Music may in special cases excuse students from the above activities.

Students may also major in applied music in case the applied major field is voice, piano, organ, violin, viola, or cello. The major must include Music 13, 14, 15, 308, 317, 318, 400, 402, 403, 404, 405, 408, 409, 410, 411, 412, 414, 415, 416, and 2 hours from 300, 302, and 303. The student must earn at least 21 hours in the applied major field and 3 hours in other applied music, or 24 hours in the applied major field; must pass an examination in the applied major field (Grade XVIII); and must give a recital in the senior year.

Activities: A student whose applied major field is voice must take 12 quarters of work in chorus; a student whose applied major field is a stringed instrument must take 12 quarters of work in orchestra and 6 quarters in ensemble; and a student whose applied major field is piano or organ must take 6 quarters of work in ensemble. Attendance at recitals and public music events presented by the Department of Music is required. The Head of the Department of Music may in special cases excuse students from the above requirements.

Students desiring to minor in the field of music must choose one of the following:

A. Vocal music for elementary grades

The requirements are Music 13, 14, 15, 400, 402, and 6 hours in voice. The student must have or attain suitable proficiency in piano and must take six quarters in chorus or glee club.

B. Vocal music for high schools

The requirements are Music 13, 14, 15, 408, 412, 430, and 6 hours in voice. The student must have or attain suitable proficiency in piano and must take six quarters in chorus or glee club.
C. Band and orchestra conducting

The requirements are Music 01, 02, 03, 13, 14, 15, 300, 302, 303, 412, 413, and 6 hours in a field of applied music. The student must have or attain suitable proficiency in piano and must take six quarters of band or orchestra.

A student whose minor is in the field of music must attend all recitals for six quarters unless released by the Head of the Department of Music.

01. Violin in Class A—Drill credit. Two periods a week.

02. Violin in Class B—Drill credit. Prerequisite: Music 01. Two periods a week.

03. Violin in Class C—Drill credit. Prerequisite: Music 02. Two periods a week.

04. Voice in Class A—Drill credit. Two periods a week.

05. Voice in Class B—Drill credit. Prerequisite: Music 04. Two periods a week.

06. Voice in Class C—Drill credit. Prerequisite: Music 05. Two periods a week.

10. Elements of Music—2 hours. No credit for a student whose major is in the field of music. Introductory course in school music consisting of singing, rhythmic development, and elementary theory. Daily.

11. Music for Kindergarten-Primary Grades—2 hours. Credit only on the curriculum for teachers in kindergarten-primary grades and for a student whose major is nursery school-kindergarten education or kindergarten-primary education. No credit for a student who has credit for Music 400. Prerequisite: Music 10 or equivalent preparation. Four periods a week.

12. Music for Intermediate Grades—2 hours. No credit for a student whose major is in the field of music. No credit for a student who has credit for Music 402. Training in singing; essentials of theory; sight singing, ear training, and dictation; elementary conducting. Prerequisite: Music 10 or equivalent preparation. Four periods a week.

Study of instrument in class; selection and care of instrument; methods of instruction. Two periods a week.

308. **Harmony I**—3 hours. A course designed to familiarize the student with the construction and manipulation of all types of seventh chords and ninth chords, and chromatic alterations of fundamental harmonies. Harmonic analysis, keyboard harmonization, and aural perception of chords in harmonic progressions are emphasized. Prerequisite: Music 15.

317. **Harmony II**—3 hours. Devoted to study of methods of modulation and ornamental harmony such as suspensions, anticipations, organ point, and passing notes. This course emphasizes practical application of the work in Harmony I, i.e., piano accompaniments to songs, keyboard harmonization, and original settings for children's rhymes. Prerequisite: Music 308.

*Credit only for a student whose major or minor is in the field of music.
400. School Music Methods I—3 hours. No credit for a student who has credit for Music 11. Materials and methods for kindergarten and primary grades. Prerequisite: Music 15.

403. Counterpoint I—2 hours. The species in two, three, and four parts. Motive development and imitation. Original work with early polyphonic forms. Prerequisite: Music 318.

404. Counterpoint II—2 hours. Inventions and choral forms. Analysis of the Bach two-part inventions and organ choral preludes. Prerequisite: Music 403.

409. *Orchestration I—1 hour. Prerequisite: Music 318.

410. *Orchestration II—1 hour. Prerequisite: Music 409.

411. Orchestration III—1 hour. Prerequisite: Music 410.

Study, arrangement, and preparation of orchestral scores.

412. Conducting—2 hours. Baton techniques, score reading; practice in conducting. Prerequisite: Music 15. Three periods a week.

413. Band Management—2 hours. Development of school bands; marching and drill maneuvers; arrangement and preparation of band scores. Prerequisite: Music 412. Three periods a week.

414. **Composition I—1 hour. The phrase and its development and harmonic equipment. The period form single and double. Prerequisite: Music 437.

415. **Composition II—1 hour. The song forms; the two-part and three-part song forms. Prerequisite: Music 414.

416. Composition III—1 hour. Compound song-forms and various styles of composition in homophonic forms. Prerequisite: Music 415.

*Music 411 must be completed before credit for Music 409 and 410 may be used in meeting the requirements for graduation.

**Music 416 must be completed before credit for Music 414 or 415 may be used in meeting the requirements for graduation.
COURSES OF INSTRUCTION

430. Vocal Materials—1 hour. Materials for vocal ensembles, glee clubs, choruses, and a cappella choirs. Prerequisite: Music 412. Two periods a week.

435. Music History and Form I—2 hours. Survey of the development of music from its primitive origins through classical antiquity up to the end of the 18th century. Music literature from Gregorian chant to the Mozart symphonies and the operas of Gluck studied by means of phonograph records and slides. Early forms, suites, song forms, sonata form. Prerequisite: Music 318. Three periods a week.

490. Supervision of Music—2 hours. Credit also as a course in education for a student whose major is in the field of music. History of public school music in the United States. The present school music curriculum. Criteria for the evaluation of music teaching and problems of supervising the music program. Prerequisite: 20 hours of credit in music and Education 460.

Applied Music

For each hour of credit the work in applied music requires one lesson a week for one quarter. A student whose major is music may earn two hours of credit by taking two or more lessons a week. This work is evaluated by means of grades ranging from I to XVIII which are determined by the difficulty of the selection rendered and by the quality of the performance. The student must show improvement as the work in any line progresses. For information concerning the requirements for each grade consult the Head of the Department of Music.

With the permission of the Head of the Department of Music a student whose major is in music may register in the junior and senior years for courses in applied music which are open to sophomores, juniors and seniors, or to juniors and seniors without having had previous courses in the same field.
100. **Applied Music I**—The 1st, 2nd, and 3rd quarters of work in voice.

320. **Applied Music II**—The 4th, 5th, and 6th quarters of work in voice.

420. **Applied Music III**—The 7th to 12th quarters of work in voice.

101. **Applied Music IV**—The 1st, 2nd, and 3rd quarters of work in piano or organ.

321. **Applied Music V**—The 4th, 5th, and 6th quarters of work in piano or organ.

421. **Applied Music VI**—The 7th to 12th quarters of work in piano or organ.

102. **Applied Music VII**—The 1st, 2nd, and 3rd quarters of work in a stringed instrument.

322. **Applied Music VIII**—The 4th, 5th, and 6th quarters of work in a stringed instrument.

422. **Applied Music IX**—The 7th to 12th quarters of work in a stringed instrument.

103. **Applied Music X**—The 1st, 2nd, and 3rd quarters of work in a wood-wind or brass instrument.

323. **Applied Music XI**—The 4th, 5th, and 6th quarters of work in a wood-wind or brass instrument.

423. **Applied Music XII**—The 7th to 12th quarters of work in a wood-wind or brass instrument.

104. **Applied Music XIII**—The 1st, 2nd, and 3rd quarters of work in a percussion instrument.

324. **Applied Music XIV**—The 4th, 5th, and 6th quarters of work in a percussion instrument.

424. **Applied Music XV**—The 7th to 12th quarters of work in a percussion instrument.

**Note**

String ensemble for the study and performance of sonatas, trios, quartettes, and quintettes is provided for students in violin, viola, cello, bass, harp, and piano. Wood-wind and brass ensemble for work of a similar nature is provided for students in wood-wind and brass instruments.
Physical Education for Men

L. L. Mendenhall, M.A., Professor of Physical Education for Men and Head of the Department
Paul F. Bender, D.Ed., Assistant Professor of Physical Education for Men
Arthur Dickinson, M.A., Assistant Professor of Physical Education for Men
David H. McCuskey, M.A., Instructor in Physical Education for Men
Oliver M. Nordly, B.A., Instructor in Physical Education for Men
Clyde L. Starbeck, B.S., Instructor in Physical Education for Men
Lawrence W. Whitford, M.A., Instructor in Physical Education for Men
Max L. Durfee, M.D., Health Director

A major in physical education (men) must include Physical Education 300, 351, 352, 353, 354, 451, 452, 455, 456, 457, 463, 471, 472, 473, and 490.

The work of a student whose major is physical education (men) must include Biological Science 11 and 300.

A minor in physical education (men) must include Physical Education 455, 456, 457, and 473; courses in Football, Baseball, Basketball, Track and Field, and electives to make a total of at least 20 hours.

During one of the first four quarters in residence men students who have not passed a swimming test given by the department must complete a course in swimming.

Courses Offered to Both Men and Women

300. Anatomy—5 hours. Gross anatomy of the osseous, muscular, and nervous systems and of the vital organs.

301. Kinesiology—3 hours. Body mechanics in relation to physical development and efficiency. Physical Education 300 must precede or accompany this course.

407. School Health Problems—3 hours. No credit for a student who has credit for Biological Science 300. Physical examinations;
the hygiene of environment; health needs of the individual child; evaluation of the literature and devices of health instruction; and similar problems of the school and home. Prerequisite: Physical Education 300 and Biological Science 11.

408. Therapeutic Exercise—2 hours. Theory and practice of remedial posture measures and massage in the school program. Prerequisite: Physical Education 300, 301, and Biological Science 11.

410. Physiology of Exercise—3 hours. Effects of exercise upon the various organic functions of the body. Comparison of strength, speed, and endurance exercises. Prerequisite: Biological Science 11 and Physical Education 300.

471. History and Principles of Physical Education—3 hours. For women this course must be accompanied by Physical Education for Intermediate Grades as arranged.

492. Tests and Measurements in Physical Education—2 hours. Credit also as a course in education for a student whose major is physical education. Analysis, interpretation, and use of tests in physical education. Prerequisite: Education 460.

Courses Offered to Men

01. Physical Education

The work in Physical Education 01 required of all men students is selected from the following courses: baseball, basketball, boxing, cross country, diamond-ball, floor and mat work, football, games, golf, gymnastics, handball, modified activities, six-man football, soccer, soft ball, speedball, beginning swimming, advanced swimming, tennis, touch football, track and field, volleyball, and wrestling.

Men and women may enter any activity course offered by either department of physical education, without earning physical education credit, upon the approval of the head of the department giving the course. If credit is desired, the advance approval of the heads of both departments and the Dean of the Faculty is required.

351. Football I—2 hours. Physical Education 01: Football must accompany this course.

352. Basketball I—2 hours. Physical Education 01: Basketball must accompany this course.

353. Baseball—2 hours. Physical Education 01: Baseball must accompany this course.
354. **Track and Field**—2 hours. Physical Education 01: Track and Field must accompany this course.

451. **Football II**—2 hours. Physical Education 01: Football must accompany this course. Prerequisite: Physical Education 351.

452. **Basketball II**—2 hours. Physical Education 01: Basketball must accompany this course. Prerequisite: Physical Education 352.

455. **Gymnastics**—2 hours. Gymnastic marching. Elementary exercises on bars, horse, mats, and other apparatus. Physical Education 01: Gymnastics must accompany this course.

456. **Swimming**—2 hours. Physical Education 01: Swimming must accompany this course.

457. **Activities for Schools**—2 hours. Activities suitable for the growing child at different age levels. Physical Education 01: Games must accompany this course.

458. **Wrestling**—2 hours. Physical Education 01: Wrestling must accompany this course.

459. **Recreational Leadership**—2 hours. City, county, state, and national organizations promoting recreational activities. Playground equipment and programs. Physical Education 01: Games must accompany this course.

463. **Training and First Aid**—2 hours. Diet; treatment of injuries; massage and bandaging; lectures, demonstrations, and practice. Prerequisite: Biological Science 11 and Physical Education 300.

472. **Supervision of Physical Education**—3 hours. This course must be taken in conjunction with Methods in Physical Education. Prerequisite: Physical Education 351 or 451 and 352 or 452.

473. **Organization and Administration of Physical Education**—3 hours.

490. **Methods in Physical Education**—2 hours. Credit also as a course in education for a student whose major is physical education (men). This course must be taken in conjunction with Supervision of Physical Education. Prerequisite: Education 460.
Physical Education for Women

Monica R. Wild, Ph.D., Professor of Physical Education for Women and Head of the Department

Doris E. White, M.A., Associate Professor of Physical Education for Women

Dorothy Humiston, Ph.D., Assistant Professor of Physical Education for Women

Grace Van Ness, M.A., Assistant Professor of Physical Education for Women

Dorothy Michel, M.A., Instructor in Physical Education for Women

Maude E. Moore, M.A., Instructor in Physical Education for Women

Thelma Short, M.A., Instructor in Physical Education for Women

Max L. Durfee, M.D., Health Director

A major in physical education (women) must include Physical Education 100, 300, 301, 303, 305, 401, 402, 403, 404, 406, 407, 408, 410, 471, and 492.

The work of a student whose major is physical education (women) must include Biological Science 11 and 100; and four courses in Physical Education 01 each quarter unless the student is released by the adviser from this requirement. The student must pass a test in the playing of piano accompaniments for rhythmic work in physical education.

A minor in physical education (women) must include Physical Education 300, 305, and 471; 5 hours of work selected from courses 401, 402, 403, and 404; at least 5 hours of elective work in physical education for women; and at least two courses in Physical Education 01 each quarter for six quarters unless released from this requirement by the Head of the Department of Physical Education for Women.

With the consent of the adviser a student may register for four courses in Physical Education 01 each quarter provided that the total number of periods required for this work does not exceed eight periods a week.
Courses Offered to Both Men and Women

300. Anatomy—5 hours. Gross anatomy of the osseous, muscular, and nervous systems and of the vital organs.

301. Kinesiology—3 hours. Body mechanics in relation to physical development and efficiency. Physical Education 300 must precede or accompany this course.

407. School Health Problems—3 hours. No credit for a student who has credit for Biological Science 300. Physical examinations; the hygiene of environment; health needs of the individual child; evaluation of the literature and devices of health instruction; and similar problems of the school and home. Prerequisite: Physical Education 300 and Biological Science 11.

408. Therapeutic Exercise—2 hours. Theory and practice of remedial posture measures and massage in the school program. Prerequisite: Physical Education 300, 301, and Biological Science 11.

410. Physiology of Exercise—3 hours. Effects of exercise upon the various organic functions of the body. A comparison of strength, speed, and endurance exercises. Prerequisite: Physical Education 300 and Biological Science 11.

471. History and Principles of Physical Education—3 hours. For women this course must be accompanied by Physical Education for Intermediate Grades as arranged.

492. Tests and Measurements in Physical Education—2 hours. Credit also as a course in education for a student whose major is physical education. Analysis, interpretation, and use of tests in physical education. Prerequisite: Education 460.

Courses Offered to Women

01. Physical Education

The work in Physical Education 01 required of all women students is selected from the following courses:

Group Games and Team Sports: games (representative activities for various age groups), simple team games (mainly the lead-up games to the major sports), beginning baseball, advanced baseball, beginning basketball, advanced basketball, beginning hockey, advanced hockey, beginning volleyball, advanced volleyball, beginning soccer, advanced soccer, speedball, fieldball, lacrosse, and cricket.
Individual and Dual Activities: combat activities, handball, beginning archery, advanced archery, archery golf, indoor archery, track and field, beginning swimming, first intermediate swimming, second intermediate swimming, life saving, advanced swimming, golf, beginning tennis, intermediate tennis, advanced tennis, canoeing, fencing, horseback riding, winter sports, ice skating, stunts and contests, games and athletics (a combination of simple team games and track and field), outing activities, recreational games (deck tennis, paddle tennis, badminton, ping pong, etc).

Rhythmic Activities: first dancing, second dancing, third dancing, fourth dancing, fifth dancing, first folk dancing, second folk dancing, third folk dancing, advanced folk dancing, national dancing, beginning social dancing, advanced social dancing, beginning tap and clog, advanced tap and clog, rhythmic form and analysis.

Gymnastics: the technique of gymnastics, therapeutic gymnastics, gymnastics, Danish gymnastics.

Physical Education for Special Groups: fundamentals of rhythmic education, physical education for primary grades, physical education for intermediate grades, elements of motor skills, activities for high school and adult recreation.

Men and women may enter any activity course offered by either department of physical education, without earning physical education credit, upon the approval of the head of the department giving the course. If credit is desired, the advance approval of the heads of both departments and the Dean of the Faculty is required.

100. First Aid to the Injured—2 hours. Students may prepare themselves in this course for the examination for a Red Cross first aid certificate.

303. Club and Camp Leadership—3 hours. Organization and activities of girls clubs; correlation with the physical education program of the school; summer program; camp craft. This course must be accompanied by Outing Activities.

304. The Teaching of Basketball—1 hour. No credit for a student whose major is physical education (women). Recitation, 1 period a week; laboratory work, 2 periods a week.

305. Play and Recreational Leadership—3 hours. Play as education. Age needs. Yearly and daily program planning. Playground equipment and sites. This course must be accompanied by Games.
401. **The Dance in Education—2 hours.** Dancing as an art; fundamentals in rhythmic education; the teaching of dancing in the public school physical education program. This course must be accompanied by two of the following activity courses as arranged: Fundamentals of Rhythmic Education, Folk Dancing, Tap and Clog, and First Dancing.

402. **The Teaching of Basketball and Swimming—3 hours.** This course must be accompanied by Basketball and Swimming as arranged.

403. **The Teaching of Hockey, Soccer, and Tennis—2 hours.** This course must be accompanied by Tennis and Hockey or Soccer as arranged.

404. **The Teaching of Baseball and of Track and Field—3 hours.** This course must be accompanied by Baseball and Track and Field as arranged.

406. **Administration of Physical Education—3 hours.** Program of instruction and of free-time recreation; equipment, gymnasium, play fields, locker room, swimming pool. Budget; supervisory problems; community relationships.
Science

Emmett J. Cable, Ph.D., Professor of Earth Science and Head of the Department
Louis Begeman, Ph.D., Professor of Physics, Emeritus, Part-time Service
R. L. Abbott, Ph.D., Professor of Biology
Alison E. Aitchison, M.S., Professor of Geography
Robert W. Getchell, Ph.D., Professor of Chemistry
W. H. Kadesch, Ph.D., Professor of Physics
C. W. Lantz, Ph.D., Professor of Biology
H. Earl Rath, Ph.D., Professor of Health Education
O. B. Read, M.A., Professor of Chemistry

Marguerite Uttley, Ph.D., Associate Professor of Geography
Martin L. Grant, Ph.D., Assistant Professor of Biology

A major in science must include Science 15, 16, and 490; 25 hours from a field of special interest which may be either biological science, chemistry, or physics; 10 hours from each of the two above mentioned fields which have not been chosen as the field of special interest; and 7 hours from Earth Science 360, 474, and 475. No one of the required minors shall be in the field of science.

A major in earth science must include Science 15 and 16; Earth Science 493; and at least 18 hours of work selected from Earth Science 162, 360, 366, 460, 462, 464, 466, 468, 470, 474, and 475.

A minor in biological science must include Science 15; Biological Science 100 and 102; and at least 5 hours of elective work in biological science or Physical Education 300.

A minor in chemistry consists of Science 16; and 15 hours of work in chemistry.

A minor in physics consists of Science 16; and at least 15 hours of work in physics.

A minor in earth science consists of at least 20 hours of work in earth science except that credit in Science 16 may be used in meeting the requirements of this minor.

A minor in agriculture consists of Science 15; and at least 18 hours of work in agriculture.
General Courses in Science

15. **Survey of Biological Sciences**—5 hours. No credit for a student who has credit in Biological Science 10. A survey of the basic principles of both plant and animal biology, with special emphasis upon their relationship to man. Recitations, 3 periods a week; laboratory work, 4 periods a week.

16. **Survey of Physical Sciences**—5 hours. No credit for a student who has credit in Physics 50 (Everyday Physical Science, General Science B). Survey of basic concepts in chemistry, physics, astronomy, climatology, geology, and of other phases of earth science. Recitations, 3 periods a week; laboratory work, 4 periods a week.

Both of these courses must precede other courses in the Department of Science, except Biological Science 10, 12, and 13 and courses in geography, unless otherwise stated.

490. **The Teaching of Science**—2 hours. Credit also as a course in education for a student whose major is science. Prerequisite: 15 hours in science and Education 460.

1. Biological Science

10. **Nature Study**—5 hours. No credit for a student who has credit for Science 15. The more conspicuous types of plant and animal life with special emphasis on trees, birds, and insects. Recitations, 3 periods a week; laboratory work, 4 periods a week.

11. **Physiology**—5 hours. The functioning of the different systems of organs of the human body; correlation of the physiology and anatomy of each organ; dissection and experimentation. Recitations, 3 periods a week; laboratory work, 4 periods a week.

12. **Health Education A**—3 hours. No credit for a student who has credit for Biological Science 13 or 300. Personal, community, and school hygiene. Aims and methods of health education with emphasis on child health.

13. **Health Education B**—2 hours. No credit for a student who has credit for Biological Science 12 or 300. Community and school hygiene with emphasis on personal health and hygiene.

100. **Animal Biology**—5 hours. Life processes and structure of animals. Recitations, 3 periods a week; laboratory work, 4 periods a week.

102. **Plant Biology**—5 hours. Life processes and structure of plants. Recitations, 3 periods a week; laboratory work, 4 periods a week.
108. **Invertebrate Zoology**—5 hours. Anatomy and physiology of several type-forms in each division of invertebrate animals. **Prerequisite:** Biological Science 100. Recitations, 3 periods a week; laboratory work, 4 periods a week.

300. **Hygiene and Sanitation**—5 hours. No credit for a student who has credit for Biological Science 12 or 13. Personal hygiene. Sanitation. School health problems; heating, lighting, ventilation, spread of communicable diseases. Recitations, 3 periods a week; laboratory work, 4 periods a week.

306. **Vertebrate Zoology**—5 hours. The classes of vertebrates with particular reference to their origin, development, anatomy, and physiology. **Prerequisite:** Biological Science 100. Recitations, 3 periods a week; laboratory work, 4 periods a week.

402. **Insects and Man**—3 hours. **Prerequisite:** Biological Science 100. Recitations, 2 periods a week; laboratory work, 2 periods a week.

403. **Plant Morphology**—5 hours. Morphology and evolution of the great groups of plants, with special emphasis upon algae, fungi, mosses, and ferns. Recitations, 3 periods a week; laboratory work, 4 periods a week.

404. **Plant Physiology**—5 hours. Physiological processes of plants with emphasis upon plant metabolism. Responses of plants to stimuli. **Prerequisite:** Biological Science 102. Recitations, 3 periods a week; laboratory work, 4 periods a week.

406. **Plant Ecology and Taxonomy**—5 hours. Effects of environment upon plant growth and plant distribution. Identification, field recognition, and economic importance of seed plants of our local flora; evolution of flowering plants. **Prerequisite:** Biological Science 102. Recitations, 3 periods a week; laboratory work, 4 periods a week.

408. **Bacteriology**—5 hours. Micro-organisms, their classification, morphology, and physiology; their relation to health, sanitation, and food preservation. Recitations, 3 periods a week; laboratory work, 4 periods a week.

410. **Organic Evolution**—2 hours. Meaning, evidences, and factors of organic evolution; its significance in biology and in modern thought.

412. **Heredity**—3 hours. Laws of heredity and their relation to plants, animals, and man. Significance of heredity to the human race.
2. Chemistry

121. **Inorganic Chemistry I**—5 hours. The non-metallic elements and their compounds and chemical theory. Recitations, 3 periods a week; laboratory work, 4 periods a week.

122. **Inorganic Chemistry II**—5 hours. Prerequisite: Chemistry 121. Recitations, 3 periods a week; laboratory work, 4 periods a week.

124. **Chemistry of Metals and Qualitative Analysis**—5 hours. Introduction to the study of the properties of the metallic elements. Prerequisite: Chemistry 122. Recitations, 2 periods a week; laboratory work, 6 periods a week.

321. **Organic Chemistry**—5 hours. Essentials of organic chemistry. Prerequisite: Chemistry 122. Recitations, 3 periods a week; laboratory work, 4 periods a week.

322. **Organic Preparations**—5 hours. Synthesis of typical compounds representative of organic reactions. Prerequisite: Chemistry 321. Laboratory work, 10 periods a week.

324. **Quantitative Analysis I**—5 hours. Gravimetric analysis. Prerequisite: Chemistry 124. Laboratory work, 10 periods a week.

326. **Quantitative Analysis II**—5 hours. Volumetric analysis. Prerequisite: Chemistry 122. Laboratory work, 10 periods a week.

328. **Chemistry of Foods and Nutrition**—3 hours. Essentials of physiological chemistry. The chemical composition of foods. Prerequisite: Chemistry 321. Recitation, 1 period a week; laboratory work, 4 periods a week.

421. **Water Analysis**—3 hours. Methods in analysis of water to determine its suitability for drinking, laundry, and industrial purposes. Prerequisite: Chemistry 124. Laboratory work, 6 periods a week.

423. **Special Laboratory Course**—5 hours. Quantitative experimental work. For students of exceptional ability this work may be in the nature of a research problem. Prerequisite: 5 hours of credit in quantitative analysis. Laboratory work, 10 periods a week.

424. **Physical Chemistry**—5 hours. Prerequisite: Chemistry 124.

426. **Food Analysis**—5 hours. Proximate quantitative analysis of the common foods. Prerequisite: Chemistry 321. Recitations, 2 periods a week; laboratory work, 6 periods a week.
3. Physics

140. Mechanics—5 hours. Prerequisite: high-school physics or Mathematics 100, 101, or 110. Recitations, 3 periods a week; laboratory work, 4 periods a week.

340. Advanced Mechanics—3 hours. Experimental problems preceded by brief discussion of the principles involved. Prerequisite: Physics 140 or equivalent preparation. Laboratory work, 6 periods a week.

341. Sound and Light—5 hours. Prerequisite: Physics 140 or equivalent preparation. Recitations, 3 periods a week; laboratory work, 4 periods a week.

342. Advanced Course in Light—3 hours. Experimental problems preceded by discussion of the principles involved. Prerequisite: Physics 341 or equivalent preparation. Laboratory work, 6 periods a week.

343. Heat, Electricity, and Magnetism—5 hours. Prerequisite: Physics 140. Recitations, 3 periods a week; laboratory work, 4 periods a week.

440. Measurements in Electricity and Magnetism—5 hours. Resistance, electromotive force, current, capacitance, inductance, magnetic field strength, and other electrical and magnetic quantities are accurately measured, and the instruments of measurement studied. Prerequisite: Physics 343 or equivalent preparation. Laboratory work, 10 periods a week.

441. Alternating Currents—5 hours. Includes a study of industrial alternating currents, and of high frequency currents, circuits, and devices used in radio. Prerequisite: Physics 140 and 343. Recitations, 3 periods a week; laboratory work, 4 periods a week.

442. Modern Physics—5 hours. Introductory course in radioactive and electronic phenomena. Prerequisite: Physics 140 and 343. Recitations, 3 periods a week; laboratory work, 4 periods a week.

445. Kinetic Theory and Thermodynamics—5 hours. Prerequisite: Physics 343. Recitations, 3 periods a week; laboratory work, 4 periods a week.

4. Earth Science

162. Elements of Geography—5 hours. A survey of man's occupancy of the earth developed through the classification and distribution of the major types of natural environment and man's utilization of the resources in each type.
360. **Astronomy**—5 hours. A course in descriptive astronomy. Uses of various astronomical instruments.

366. **Geography of North America**—5 hours. Description, analysis, and interpretation of the present occupance pattern of the major regions of the United States. Brief survey of Canada, Mexico, and the Caribbean regions.

460. **Mineralogy**—5 hours. Descriptive and determinative mineralogy. Recitations, 3 periods a week; laboratory work, 4 periods a week.

461. **Meteorology**—3 hours. Composition and physics of the air; weather forecasting; weather map making; instruments and their uses.

462. **Climatology**—2 hours. Comparison of European and American schemes of climatic classification. Description, explanation, distribution, and habitability of climatic regions of the world. Prerequisite: Earth Science 461.

464. **Geography of South America**—5 hours. Designed to develop an understanding of the geographic individuality of each of the major countries of South America.

466. **Historical Geography of the United States**—5 hours. Geography of the major regions of the United States in past times. A study of successive stages in land occupance. Prerequisite: entrance credit or college credit in American history.

468. **Conservation of Natural Resources**—5 hours. Natural resources of the United States and their exploitation. Current problems relating to their conservation.

470. **Geography of Europe**—5 hours. Regional study of the continent of Europe. Analysis of the geographic individualities of the major countries.

472. **Commercial and Industrial Geography**—5 hours. Commodities of international trade; trade routes of the world; ocean transportation.

474. **Dynamic Geology**—2 hours. Agencies at work in producing land forms; rocks and rock structures; diastrophism and volcanism.

475. **Historical Geology**—3 hours. Origin of the earth; its history and development of life.
488. **Units in Geography**—3 hours. Organization of geographic units for elementary and secondary schools, types of learning activities, techniques of testing.

493. **The Teaching of Geography**—2 hours. Credit also as a course in education for a student whose major is earth science. Selection and organization of geographic materials for presentation in grades four to nine inclusive. Prerequisite: 5 hours of college work in geography and Education 460, or 5 hours of geography and 15 hours in kindergarten-primary education or elementary education.

5. **Agriculture**

   Only Science 15 is prerequisite to Agriculture 80 and 82.

80. **Forage Crops**—5 hours. Important forage crops of Iowa and their production. Recitations, 3 periods a week; laboratory work, 4 periods a week.

82. **Grain Crops**—5 hours. Important grain crops of Iowa and their production. Recitations, 3 periods a week; laboratory work, 4 periods a week.

180. **Soils**—3 hours. Management of soils for maximum production. Recitations, 2 periods a week; laboratory work, 2 periods a week.

182. **Horticulture**—2 hours. Management of orchard, bush, and small fruits. Harvesting and marketing. Recitation, 1 period a week; laboratory work, 2 periods a week.

380. **Dairy Cattle**—3 hours. Types and breeds. Judging and marketing. Recitations, 2 periods a week; laboratory work, 2 periods a week.

382. **Beef Cattle and Sheep**—3 hours. Types, breeds, grades. Judging and marketing. Recitations, 2 periods a week; laboratory work, 2 periods a week.

384. **Horses**—2 hours. Types, breeds, classes, grades. Judging. Recitation, 1 period a week; laboratory work, 2 periods a week.

386. **Swine**—2 hours. Types, breeds, market classes, grades. Judging and marketing. Recitation, 1 period a week; laboratory work, 2 periods a week.

480. **Soil Fertility**—2 hours.
484. Farm Poultry—2 hours. Breeds and varieties. Management. Recitation, 1 period a week; laboratory work, 2 periods a week.

487. Farm Management—3 hours.

488. Marketing Agricultural Products—3 hours. Grain, live stock, and produce marketing, with emphasis upon cooperative methods.

489. Organization and Administration of General Agriculture—3 hours. The course of study for the various grades, securing and organizing materials, equipment of the laboratory and library.

494. Methods in Agriculture—2 hours. Prerequisite: 10 hours of agriculture and Education 460.
M. R. Thompson, Ph.D., Professor of Economics and Head of the Department
Carl H. Erbe, Ph.D., Professor of Government
George C. Robinson, Ph.D., Professor of Government
Sara M. Riggs, B.L., Associate Professor of History, Emeritus, Part-time Service
Marshall R. Beard, Ph.D., Associate Professor of History
Ralph R. Fahrney, Ph.D., Associate Professor of History
Mary B. Hunter, M.A., Associate Professor of Economics
Leland L. Sage, Ph.D., Associate Professor of History
Fred W. Wellborn, Ph.D., Associate Professor of History

A major in social science must include 10 hours of history (courses 303 and 304 recommended); 10 hours in economics (course 152 required); 5 hours in sociology (course 358 recommended); 10 hours in government (course 132 required); Social Science 490; and 20 hours of additional credit in social science. No one of the required minors may be in the field of social science.

A major in history must include History 14, 303, and 304; Social Science 490; Government 132; Economics 152, and the following additional work: 18 hours of elective work in history which should be distributed over the several fields of history; 5 hours of elective work in government; and 5 hours of electives in economics and sociology (Sociology 358 recommended). No one of the required minors shall be in the field of social science.

Foreign language is recommended for students majoring in history or social science who are not familiar with at least one foreign language and especially for students who plan to do graduate work.

A minor in history consists of 23 hours, of which 20 hours should be chosen from History 13 or 14, 104, 112, 303, 304, and 402.

A minor in government consists of at least 20 hours of work in government.

A minor in economics and sociology consists of at least 20 hours of work in economics and sociology.
General Courses in Social Science

400. *Contemporary Affairs B—½ hour.

490. The Teaching of the Social Sciences—2 hours. Credit also as a course in education for a student whose major is history or social science. Prerequisite: 15 hours of social science and Education 460.

1. History

14. American History to 1865—5 hours. Foreign relations, westward expansion, development of democracy, growth of nationalism, and sectional controversies.

102. English History to 1688—5 hours.
104. English History since 1688—5 hours.
112. Modern Europe to 1870—5 hours.
301. Medieval Civilization—5 hours.

303. Modern Europe since 1870—5 hours. No credit for a student who has credit in European History since 1815 or European History since 1914.

304. American History since 1865—5 hours. Reconstruction, the rise of big business, financial adjustments, the reform movements, and the emergence of the United States as a world power.

306. American Colonial History—5 hours. Founding of the American colonies; evolution of economic, social, and governmental institutions; various phases of the independence movement.

401. History of Iowa—2 hours.

402. Greek and Roman Civilization—5 hours. Contributions of Greek and Roman civilization to human progress.

407. Economic and Social History of Europe—5 hours. The transition from feudalism; the new industrialism; the ascendancy of British enterprise; trade rivalry among the powers; the economic aspects of the World War and the post-war period.

*Courses 10 and 400 may be repeated for credit toward graduation.
408. The British Empire—5 hours. An intensive study of British possessions throughout the world since 1815.

410. The Far East—3 hours. Brief course including recent history of China, Japan, and India. Offered 1941-42 and alternate years.

411. American Constitutional History—5 hours. The development of the Constitution of the United States from its adoption to the present time. Prerequisite: Government 132 or a course in American history.

412. Diplomatic History of the United States—5 hours. American foreign relations with emphasis upon the Monroe Doctrine, rights of neutrals, territorial expansion, and peaceful solutions of disputes. Prerequisite: 5 hours of American history.

414. History of the West—5 hours. The westward moving frontier and its influence upon American history. Prerequisite: 5 hours of American history.

416. Latin-American History—3 hours. The development of the Latin-American States and their relations to the United States. Offered 1941-42 and alternate years.

2. Government

132. American Government—5 or *3 hours. The republican form of government and the constitution of Iowa and of the nation. The organization and actual workings of the American government in all of its branches.

134. Parliamentary Law—1 hour.

332. Principles of Political Science—5 hours. Nature, origin, and sovereignty of the state; relation of a state to other states; separation of the powers of the state; authority of the state over the individual. Offered 1941-42 and alternate years.

336. Constitutional Law—5 hours. The Constitution of the United States as fundamental law with emphasis upon the provisions that have been interpreted by the supreme court. Prerequisite: Government 132. Offered 1941-42 and alternate years.

*The three-hour course is credit only on the one-year curriculum for teachers in rural schools and on the two-year curricula.

342. Modern European Governments—5 hours. Comparative study of the organization and administration of the governments of England, France, Germany, Switzerland, Italy, and certain newer European states.

438. World Government and Politics—5 hours. International relations of independent states; arbitration, alliances, conferences, and congresses; the balance of power, the Hague Court, and the League of Nations. Prerequisite: Government 132.

442. School Laws of Iowa—3 hours. Legal rights, powers, duties, and responsibilities of school corporations, school boards, school officers, superintendents, teachers, parents, and pupils.

3. Economics and Sociology

Economics

152. Principles of Economics I—5 hours.

354. Money and Banking—5 hours.

356. Labor Problems—3 hours. Labor organizations; wage levels, hours of work, unemployment, women in industry; methods of settling industrial disputes; labor legislation; industrial democracy.
452. Insurance—2 hours. Property and life insurance.

454. Corporation Finance and Investments—5 hours. Financing of business enterprises; corporate and individual investments, failures and reorganizations.

Credit used in meeting the requirement in teaching of any curriculum must be earned in courses offered by the Department of Teaching at this institution.

In all work in teaching, students take charge of classes in the campus schools or in affiliated schools, outline units of work, meet the critics for conferences, prepare comprehensive reports on the phases of teaching undertaken during the quarter, and perform such other duties as may be assigned.

A student who has completed a two-year curriculum and has earned only 10 hours of credit in teaching must earn 6 hours of additional credit in teaching in the senior year unless released from this requirement by the Director of Student Teaching. If the major is elementary education, kindergarten-primary education, or nursery school-kindergarten education, the requirement is 5 hours of additional credit. Critics in training are permitted to register for the last 5 or 6 hours of teaching in the junior year.

The scholarship average required before a student is permitted to register for teaching is the same as that required for graduation. (See page 53). A student must make application for teaching at least one quarter in advance of the time when the work in teaching is to be taken.

The course in Critic Training is open to a student who has completed at least two years of college work and has been selected by the Director of Student Teaching as a critic in training. A critic in training is employed as a teacher in one of the campus schools or in an affiliated school and is permitted to register for 5 hours of other college work each quarter. For further particulars consult the Director of Student Teaching.

A critic in training may receive a department certificate in critic training on meeting the requirements for a degree and completing six quarters of service in the Department of Teaching.

A student who has received a bachelor's degree from a standard college and has been selected as a critic in training may substitute eleven, twenty-two, or thirty-three weeks of graduate credit earned at a standard graduate school for one, two, or three quarters of credit in critic training in meeting the requirements for a department certificate in critic training.
01. **Directed Observation of Intermediate Grade Work**—Credit required on the curriculum for teachers in grades above the primary. Observation and discussion of illustrative lessons. Lectures. Selection and planning of units of work. Prerequisite: Psychology 15. Three periods a week.

02. **Directed Observation of Kindergarten-Primary Work**—Credit required on the curriculum for teachers in kindergarten-primary grades and for a student whose major is nursery school-kindergarten education or kindergarten-primary education. Selection and planning of units of work. Observation and discussion of illustrative lessons. Prerequisite: Psychology 15. Three periods a week.

5. **Rural Observation and Participation**—2 hours. Credit only on the curriculum for teachers in rural schools. Observation of illustrative lessons with discussion and plan writing. Three periods on each of two afternoons a week.

302, 402. **Nursery School Teaching.** Prerequisite: Teaching 02, Industrial Arts 21, and 10 hours of psychology and education. The equivalent of five periods of classroom work and two periods of conference a week are required for each 5 hours of credit.

304, 404. **Kindergarten-Primary Teaching.** Prerequisite: Teaching 02, and 10 hours of psychology and education. Five periods of classroom work and two periods of conference a week are required for each 5 hours of credit.

306, 406. **Intermediate Grade Teaching.** Prerequisite: Teaching 01, and 10 hours of psychology and education. Five periods of classroom work and two periods of conference a week are required for each 5 hours of credit.

400. **High School Observation and Participation**—2 hours. Prerequisite: Psychology 315. Four periods a week.

408. **High School Teaching.** Prerequisite: Teaching 400 and 10 hours of psychology and education. Five periods of classroom work and two periods of conference a week are required for each 6 hours of credit.

470. **Critic Training**—15 hours. Six quarters of training. Students are selected for this work by the Director of Student Teaching. Prerequisite: two years of college credit.

*Not more than a total of 15 hours of credit in all courses 302 to 408 inclusive may be used in meeting the requirements for graduation on any curriculum.*
Extension Service

Extension Service For 1940-41

The extension service includes consultative service, correspondence work, and extension class work.

Consultative Service

The services of the members of the extension staff are available to teachers, administrators, and boards of education for the improvement of instruction and administration in the public schools of Iowa.

Extension Credit Work

Extension credit may be earned by correspondence work or by extension class work.

Fees

The fee for extension credit work is $4 a quarter hour payable in advance. A matriculation fee of $5 is charged for first enrollment whether for residence or extension credit work.

Refunds

The entire correspondence fee may be refunded if the application is rejected. No refund may be made after three months from the date of registration. Refunds may be made only in case of personal illness certified to by a physician, or registration for the same course in residence. In any case except that of rejection of the application, the refund shall not exceed four-fifths of the fee paid, less $1.00 for each lesson submitted by the student. When a matriculation fee has been paid in connection with registration for correspondence work, no part of the matriculation fee may be refunded unless the application is rejected.

General Regulations

No student who is registered for residence work in this institution or for credit work of any kind in any other institution may be registered for extension credit work.
No student may earn more than 15 quarter hours of credit by extension work in any one calendar year. No student may earn more than 5 quarter hours of credit by extension work in any one period of twelve weeks.

A five-hour course may not be completed by extension work in less than twelve weeks, a three-hour course in less than eight weeks, or a two-hour course in less than five weeks.

Not more than one-fourth of the credit required for the completion of any curriculum may be earned by other than residence work.

The regulations pertaining to marks and credit are the same for extension work as for work in residence.

**Correspondence Work**

To be registered for correspondence work an applicant must have met all requirements for college entrance and must have earned in addition at least one full year of college credit, except that with the permission of the Dean of the Faculty mature and experienced teachers may register for correspondence work without a full year of college credit.

To be registered for correspondence work an applicant must have earned an average of two times as many grade points as hours of credit at this institution or must have maintained as high scholarship standing at another institution.

At least two written lessons for each quarter hour of credit work are required of a student registered for correspondence work.

No credit may be received for correspondence work unless the student has satisfactorily passed a written examination on the course.

Partial credit earned in residence in any course may not be completed by correspondence work.

A correspondence course must be completed within twelve months from the date of registration. If, however, a student who is registered for correspondence work registers for residence work within one year from the date of registration for his correspondence work and before the completion of that work, he is entitled to continue correspondence work at the close of his residence work until the entire time of his correspondence work, exclusive of time spent in residence work, amounts to twelve months.

After a student has registered for correspondence work, all communications between the instructor and the student concerning the work must pass through the hands of the Director of the Bureau of Extension Service.

### Extension Class Work

Extension classes may be organized either on the campus or elsewhere in the state for teachers in service whenever a sufficient number of persons properly qualified to take an extension course indicate their desire to register for the course.

The conditions for admission to extension class work are the same as for admission to residence work except that any student may be admitted to an extension class for work without credit.

For each quarter hour of credit work, an extension class receives not less than ten clock hours of actual class instruction. No extension class receives more than five hours of class instruction a week.
