SingleSpeed Brewing Earns First Iowa Green Brewery Certification

SingleSpeed Brewing, located in Cedar Falls is the first craft brewery in the state to be certified by our recently launched Iowa Green Brewery Certification. We launched the Iowa Green Brewery Certification as a way to provide direct assistance to a rapidly growing business sector.

“The goal of our organization is to provide as direct and comprehensive environmental assistance to small businesses as possible. We saw how many breweries were popping up around the state and already had an understanding of the environmental impact they have, so it just seemed like a natural fit for us to develop this program,” said Joe Bolick, project manager for the certification. Minor Source Emissions Inventory Assistance

MSEI season is underway. Portable plants and facilities in the central third of Iowa must submit their 2016 MSEI by May 15, 2017. IWRC’s Iowa Air Emissions Assistance Program has many resources available to help including tutorials, calculators, checklists, and even one-on-one training sessions at no charge for Iowa businesses with less than 100 employees. For more information, visit iwrc.uni.edu/msei.

Hazardous Waste Rule Workshop

Registration will soon open for the EPA Hazardous Waste Generator Improvement Rule Workshop taking place on March 7 in Van Meter, IA.

Hosted by the EPA, the workshop will clarify and discuss the impending changes to the hazardous waste generator regulations under the Resource Conservation and Recovery Act (RCRA). These rule changes will become effective in Iowa on May 30, 2017.
Biocycle East Coast
April 4-7 | Baltimore, MD

Graceland University Food Citizen Symposium
