Art for El Salvador
Art for El Salvador is an organization that uses art in all its forms as means through which to support and uplift impoverished communities in El Salvador. Through the sale and celebration of art in our home communities here in the US, we aim to support projects of development for those suffering from the inequalities of extreme poverty in El Salvador. Art for El Salvador encourages individuals to embrace their role as citizens within the global community. Currently we are working to fund the Sarah’s School Project, a project created with the dream of building a school in El Salvador in memory of Sarah Howard.
“Because from real love comes real rage at what is seen, and from real rage comes real change and a real end to the social and economic systems that are hurting impoverished people in the first place.” – Katherine Pater
“The poor do not have any resources. Everyday is a fight to get food, to get medicine. And for those who have children—everyday is a fight to get them an education.”

The most essential piece of Art for El Salvador is the community aspect of it. This is a project that a whole community of people have ownership in. This includes people who loved Sarah dearly and people who never even had the chance to meet her. When this school is built, a whole community of people will be proud and will be able to say that they had a part in making it happen.
