Price Laboratory School

University of Northern Iowa

Pre-Kindergarten
through Grade 5

Class of 2004-05 Yearbook

Price Laboratory School Pledge

I promise to respect everyone at Price Laboratory School, to follow all the rules, to value all the property, to listen to others, to do my best at learning, and to cooperate. I will not hurt others with my words or actions. I want Price Laboratory School to be a safe and happy place for all.

College of Education
University of Northern Iowa
Cedar Falls, Iowa

Price Lab School / NU High

Student Profile

The student body of PLS/NU High represents a cross section of the Cedar Valley community. The 2004-05 enrollment in grades pre-12 was just under 400 students, with an additional 50+ students in the UNI Child Development Center. PLS/NU enrolls students in programs from pre-kindergarten through grade twelve and includes children as young as six weeks of age in the UNI Child Development Center.

The PLS/NU enrollment includes students from American, racial and ethnic minorities and those from other countries, those who receive free and reduced lunch, and those who have special needs. A defined attendance zone surrounds the school for Cedar Falls students in grades K-6, although elementary students may open enroll from outside the Cedar Falls school district. Middle and high school 7-12 students may enroll from the Cedar Falls community and open enroll from other communities. The Child Development Center accepts children of parents who are UNI students or employees at UNI.

Mission

- Serve as an integral component of the University of Northern Iowa's teacher education program.
- Engage in scholarly work and service to advance teaching practices and provide resources for teachers in Iowa and beyond.
- Provide an excellent and innovative education for the early childhood through grade twelve students who attend Price Laboratory School.

About Laboratory Schools ~

To be a laboratory school, two factors must be in place. First the school must be affiliated with a college or university. Second, laboratory schools have as their primary mission the training of teachers, the expansion of research and the development of curriculum. There is only one pre-kindergarten through grade twelve comprehensive laboratory school in Iowa – Price Laboratory School at the University of Northern Iowa. Price Lab School is a public school governed by the Board of Regents and a department within University of Northern Iowa's College of Education.

Highlights of Our Year:

Fifth grade has been a busy, productive school year. One project that will last a lifetime will be the building of the Effigy Mound on the playground. The students organized the day's events, and all of the PLS students in K-6th helped to construct the Mound.

Our UNI Math friends spent two days a week with us during math class. Each one of us had our own friend and enjoyed working one-on-one with our friend and doing fun math activities.

Have you ever been invited to the White House? This class was! Each student researched and "became" a historical figure for our classroom White House Tea Party. It was a lot of fun to dress up as someone famous and do a presentation about that person.

Reading was a big part of fifth grade. We read several historical fiction novels that related to each social studies unit that we did. A lot of fun creative projects were done as part of the books that we read.

Sara doesn't worry about healthcare.

Thanks to Allen, she doesn't have to.

Allen's family of caregivers brings together more than 1,500 medical professionals who are thinking, planning and training for your healthcare.

Allen Hospital offers personalized care close to home. United Medical Park unites physicians and specialists with an imaging center, lab, surgery center and more at one convenient location. And today Allen College is training the nurses and medical professionals of tomorrow.

So whether Sara needs healthcare next week or next year, Allen is ready. And when that day comes, knowing where to turn for healthcare is one less thing she'll worry about.
