## Dashboard Update Reminder

---

Campus Community,

The university's [COVID-19 dashboard](#) has been updated with this week's numbers.

This morning, we added a new table to the dashboard that shares the number of self-reported COVID-19 cases reported through the Panther Health Survey. Like the other tables on the dashboard, this information will be updated each Monday and Friday.

Please remember that some individuals may be self-reporting their status through the Panther Health Survey following a diagnosis from the Student Health Center. Therefore, the same cases might be reflected in both tables.

We greatly appreciate your feedback, and will continue exploring ways to appropriately segment data and to include additional data to the dashboard while also protecting the privacy of our community members.

Completing the daily [Panther Health Survey](#), wearing masks, and remaining physically distant are the most important actions we can take to do our part to help prevent the spread of COVID-19 and to protect our Panthers.

If you have any questions, please reach out to our [COVID-19 Response Team](#) campus liaisons or email [forwardtogether@uni.edu](mailto:forwardtogether@uni.edu).

In partnership,

Colleen Mulholland, Dean of the College of Education  
Joseph Rayzor, Director of Risk Management, Environmental Health and Safety
