Infinity Stone Found in UNI Museum

While conducting an inventory of the Museum collection, our staff has uncovered an artifact believed to be an infinity stone. The 7th Gullability Stone is believed to have the power to make people believe anything they read. Having trouble navigating the world of inaccurate/satirical/false news stories? The friendly library staff here at the Rod Library are here to help. Phone, text, email, or chat to us to answer quick questions. Contact us at tinyurl.com/YourLibrarian to set up a 1-on-1 session with a librarian in your field.
