## Forward Together Update—11/23/20

---

Dear Campus Community,

We've made it to the end of an unprecedented semester, and everyone should feel proud that we persevered through new rules and guidelines to help keep our campus safe.

Now, as we embark on an extended winter break, it's important that we maintain our vigilance in order to protect ourselves and others from COVID-19. For students, faculty and staff who will remain in the area:

- The [Student Health Clinic](#) will maintain its regular hours through December 18.
- Students and employees will continue to receive the [Panther Health Survey](#) daily. If you plan to be on campus or if your health status changes, please complete the survey.
- Call 319-273-2100 to be assessed for COVID-19 testing.

For students, faculty and staff traveling during this time, we hope you will keep in mind the following guidelines from the [CDC](#) and [American College Health Association](#).

We will continue to communicate to campus over the winter break if the need arises. We also plan to be in touch in the weeks prior to the start of the spring semester to provide updated information on campus health and operations.

Take care of yourselves, and have a safe, healthy and rejuvenating winter break.

Your COVID-19 Response Team
