## **European Trip**

The class is planning a trip to Europe or Eurasia. However, we only raised enough money to go to one country. We need to decide where to go. Your task, with no more than 2 other people, is to pick a country from the provided list and research it so that the class can vote on where to go.

### **The Task**

You and your group are to research and give an oral and visual presentation on a country. You can do this in a variety of ways. You could make a poster or power point. You could give a regular oral presentation or a rap. Other ideas are acceptable but need to be discussed with me.

Using research tools (books, textbook, and the internet); you need to find the following information. Divide up the tasks evenly between your group members. Each person is responsible for taking notes on their topics and turning them in. Each person is responsible for making a part of the visual presentation.

### **Topics to be found and to be included in visual presentation:**

- Name of the country, the capital and their relative and absolute location
- Language – along with how to say hello and goodbye and at least 3 phrases we would need to know to survive in the country
- 2 Physical Landforms
- Main economic activity – including the currency they use and the exchange rate
- Government – along with the name of the head of state (king/queen/president) and whether they are members of the European Union
- Religion
- 3 things about their history
- At least 3 places to visit – could be cities or specific historical sites
- 3 things about their pop culture – could be on dance, food, music or clothing

### **Analysis:**

The last thing you will need to do is write a paragraph answering the following question.

- Pick a country that another group presented on and explain why we should go to that country rather than the one you presented on. You must include facts that were presented.

### **Assessment:**

- Group work by me and your group members.
- Visual and Oral Presentation by me and other members in the class.
- Decision Paragraph
