The Iowa Academy of Science commends all those individuals, institutions, and agencies that have sponsored activities in science for high school students. The importance of identifying and encouraging students with science interest and talent cannot be over-emphasized at a time when the future calls for more and more scientists and engineers to solve the problems of a technological society.

Excellence in Science Teaching Awards

The Iowa Academy of Science has a long and distinguished record of encouraging improvement in science teaching within Iowa's public and parochial schools. Since 1954, through its *Excellence in Science Teaching Awards* program, teachers from all areas of the state have been recognized for their outstanding work.

Presently, the Academy recognized excellence in elementary, junior/middle high school and senior high school science teaching. Further, in the senior high school program, the specialty areas of biology, chemistry, earth science, environmental education and physics are focused upon. A general/multiple science category was established to include those who teach more than one science discipline in a single course, or separate courses, or interdisciplinary courses.

Earth/Environmental Science

Scott R. Schoneberg - Des Moines Central Academy, Des Moines

Physical Science

Shannon Harrison McLaughlin - Norwalk Community High School,
Norwalk
