Offensive Materials Statement: Materials located in UNI ScholarWorks come from a broad range of sources and time periods. Some of these materials may contain offensive stereotypes, ideas, visuals, or language.

The Iowa Academy of Science commends all those individuals, institutions, and agencies that have sponsored activities in science for high school students. The importance of identifying and encouraging students with science interest and talent cannot be over-emphasized at a time when the future calls for more and more scientists and engineers to solve the problems of a technological society.

It is likely that our list is incomplete. The following activities have to some degree been identified with the Iowa Junior Academy of Science specifically or more generally with the Iowa Academy of Science. Those activities not so identified are equally important and their possible omission here is not to be construed otherwise.

THE EXCELLENCE IN SCIENCE TEACHING AWARDS

The Iowa Academy of Science has a long and distinguished record of encouraging improvement in science teaching within Iowa's public and parochial schools. Since 1954, through its Excellence in Science Teaching Awards program, teachers from all areas of the state have been recognized for their outstanding work.

Presently, the Academy recognizes excellence in elementary school, junior high school and senior high school science teaching. Further in the senior high school program, the specialty areas of biology, chemistry, earth science and physics are focused upon.

Biology

Gene Ulrich - North High School, Sioux City

Chemistry

Kenneth Hartman - Ames High School, Ames

Earth Science

Lewis Stoneking - Ottumwa High School, Ottumwa

Elementary Science

Ms. Cameron Vanni - Horace Mann Elementary, Iowa City

Junior High Science

Sharon Fisher - Meredith Junior High School, Des Moines

Physics
