## COMMITTEE ON COMMITTEES AND ELECTIONS

The Committee on Committees shall review the structure and function of all the standing committees and recommend changes when the need arises. Each year the committee shall recommend the names of persons to fill expiring and vacant positions on all standing committees to the President-elect. Recommendations shall give consideration to 1) balanced representation, 2) the number of committees and duties which a potential nominee is serving, 3) the principle of rotation of committee assignments, and 4) the responses from the membership to a periodic survey of member interests in and qualifications for service on a committee. This committee shall nominate candidates for the offices of President-elect, and vacant directors' positions ensuring that there is more than one candidate for each position.

## MEMBERSHIP ROSTER

(Effective July 1, 2002)

Addresses are not given so as to protect Academy mailing lists from misuse. Member addresses change frequently; up-to-date addresses will be supplied to authorized members by the Executive Director upon written request.

The membership is listed alphabetically without regard to member classification. Following the name is the Academy code, which may interpreted as follows:

The first letter and numbers indicate the member's current category status (M=member; F=fellow; DF=distinguished fellow; E-emeritus; L-life; S=student) and date. Following this information is a series of codes indicating section interest. (**Example:** L93F85M66AD John Doe, means that John Doe became a member of the Academy in 1966, a fellow in 1985, a life member in 1993, and has indicated Agricultural Sciences-A and Botany-D as section interests.)

Sections of the Academy and Code Letters:

A =	Agricultural Sciences	K =	Environmental Science and Health
B =	Anthropology	L =	Chemistry: Organic and Biological
C =	Cellular, Molecular, & Microbio.	M =	Physics
D =	Botany	N =	Physiology
E =	Chemical Education	O =	Psychology and Linguistics
F =	Conservation	P =	Zoology
G =	Engineering	Q =	Science Teaching
H =	Geology	R =	Earth Science Teaching
I =	Chemistry: Inorg., Phys. & Analy.	S =	Elementary Science Teaching
J =	Community College Biologists	T =	College Science Teaching

If a member code contains a small "x" it is an indication that membership lapsed for one year or more and was started up again at a later date (**Example:** F81M72x77DH means that the person joined the Academy in 1972, the membership lapsed and was reinstated in 1977, and the person became a Fellow in 1981.)

Names in the membership listing with an asterisk \* are honorary members (recipients of the Distinguished Fellow Award).
