Graduate Program Survey 2009-2010

University of Northern Iowa
Office of Institutional Research

Nangai Yang
Introduction to the Survey and the Instrument

- What: Graduate program survey

- Who: All UNI graduate students attending the commencement exercises. The response rate for this year (December 2009, May 2010, and July 2010) is 61.8%, i.e., 289 out of 468.

- When: December 2009 and May 2010

- Where: UNI commencement held at UNI-Dome

- Why: To provide an overview of several critical components regarding the academic, social, educational, and professional experiences of UNI graduate students

- How: Each respondent was asked to answer 38 questions that range from applying skills to the solving of problems, to rating their ability to perform professionally, to scholarly and academic activities. They were also asked questions about curriculum, graduate faculty, the UNI graduate community, the campus community, and finally their overall educational experience at UNI. The responses are then scanned and analyzed using SPSS descriptive statistics and MS excel spreadsheets.
Summary of Demographic Characteristics

Among the 2009-2010 graduate program survey respondents, the male and female student ratio is 30.5% to 69.5%. The gender ratio in the College of Social and Behavioral Sciences and the College of Humanities and Fine Arts are much skewed with a female ratio of above 80.0%.

For graduate student marital status by college, 11.5% of the respondents are married, 72.5% are single, 3.7% are married with dependent children, and 12.4% are single with dependent children. For respondents whose college is unknown, 100% are single.

Of all the graduating graduate students, 75.8% are residents, and 24.2% are non-residents.

In terms of ethnicity, 73.9% are white students, 4.6% are African American students, 3.2% are Hispanic students, and 15.6% are non-residents. A breakdown by college shows that the College of Social and Behavioral Sciences has the most White students (84.6%), the College of Humanities and Fine Arts has the most Hispanic students (6.9%), and the College of Business Administration has the most non-resident students (31.6%).

Summary of Educational Experiences and Skills

Educational experiences and skills as delineated in this instrument mainly refer to experiences ranging from the planning of projects to the solving of problems by using such research skills as defining problems, thinking creatively, integrating information and by performing professionally meaning upholding ethical standards, working independently and together with others. The highest ranking individual survey item with “good” and “excellent” combined is “Bringing information together” (94.0%). Following it in the descending order are “working independently” (92.5%), “upholding ethical standards” (92.1%), and “working as a team member” (91.4%). The lowest ranking individual item is “working with people from diverse backgrounds” (81.7%) followed by “thinking creatively” (87.1%) and “planning projects” (87.1%). Just like the previous year, individual differences by college are obvious. For example, “working as a team member” in the College of Business Administration is ranked much higher (97.2%) than in the College of Social and Behavioral Sciences (87.0%). Another example is “working with diverse people”. In the College of Natural Sciences, the combined rating of “good” and “excellent” exceeds 90% (90.5%) while in the College of Education it is rated at 79.4%. Both cases seem to reflect obvious disciplinary differences. The difference this year, however, is that the rating across all items of this section is much higher than last year.

Summary of Scholarly and Academic Activities at UNI

In answer to the seven questions in the first part of this section, reported activities across colleges tend to concentrate in “completed original research” (152 or 52.6%), “completed practicum or internship” (134 or 46.4%), and “creative work presented for review” (72 or 24.9%). Activities in four other areas, however, are quite limited in reported number – “published original research” (12 or 4.2%), “submitted for publication” (32 or 11.1%), “presented at professional conference” (55 or 19%), and “participated in professional society” (59 or 20.4%).

The second part of the activities section queries about the importance of the listed reasons for going to graduate school and students’ satisfaction in these areas. In order of importance, the reasons chosen by participants across colleges for going to graduate school are personal growth or fulfillment (92.4%), to learn new skills (89.3%), intellectual stimulation (88.5%), advancement or promotion (75.5%), entry into a new career (63.1%), and a stepping-stone or preparation for further graduate education (49.1%). In descending order students’ satisfaction rate for achieving the stated goals are 97.9% for advancement or promotion, 91.9% for personal growth or fulfillment, 90.9% for intellectual stimulation, 86.2% for learning new skills, 63.4% for entry into a new career, and 56.8% for getting prepared for further graduate education.

Summary of Academic and Social Environment

This section solicits students’ perception of the academic and social environment at UNI in terms of curriculum, teaching and faculty student interaction, the graduate community, the campus community, and the overall quality of their education in the program. 93.5% of the graduating students report that they would recommend their graduate program. Items ranking above 95.0% are: “faculty interested in student learning or educational goals” (97.5%), “received quality education” (96.6%), and learning experience cumulative” (95.2%). Items ranking below 92.0% are “community values excellence” (89.6%) and “faculty committed to student learning” (91.9%).
To what extent do you agree that most of the graduate courses you took at UNI were intellectually demanding?
To what extent do you agree that most of your graduate instructors were intellectually stimulating?
To what extent do you agree that your graduate learning experience was cumulative over a series of courses in the program?

Summary of Plans Following Graduation

Upon graduation, 82.5% of the respondents will be working full time, 4.2% part-time, 7.1% are going to graduate school full-time, and 0.4% will be raising or starting family.

In answer to the question of whether their job is in Iowa, 70.7% of the respondents said yes. The number answering yes to this item for the colleges are 77.1% for the College of Education, 75.0% for the College of Natural Sciences, 68.4% for the College of Social and Behavioral Sciences, 64.3% for the College of Humanities and Fine Arts, and 59.1% for the College of Business Administration.

When asked whether they would return to Iowa when given the opportunity 75.3% of the respondents said that they would. By individual college, the numbers are 100% for the College of Social and Behavioral Sciences, 90.9% for the College of Natural Sciences, 82.4% for the College of Education, 75.0% for the College of Humanities and Fine Arts, and 50.0% for the College of Business Administration.
What is most likely to be your principal activity upon graduation?

- Employment
- Grad School
- Volunteering
- Starting/ Raising a Family
- Other

Number of Students Who Would Return to Iowa When Given the Opportunity

- CBA: 6
- COE: 14
- CHFA: 15
- CNS: 10
- CSBS: 6
- College Unknown: 7
Summary of Plans for Further Education

Out of 211 graduating graduate students, 13.8% report that they are going for further education. Among them 6.2% are accepted to another graduate or professional program and 7.6% are currently applying for another graduate program.
What are your continuing education plans?

- **CBA**: 2 # Accepted, 1 # Currently Applying
- **COE**: 2 # Accepted, 1 # Currently Applying
- **CHFA**: 8 # Accepted, 4 # Currently Applying
- **CNS**: 4 # Accepted, 1 # Currently Applying
- **CSBS**: 3 # Accepted, 1 # Currently Applying
- **College Unknown**: 2 # Accepted, 1 # Currently Applying
CONGRATULATIONS on your graduation! Your response to this survey will be used for program improvement and will not be linked in any way with your permanent records. Individual responses to this survey will be confidential. Survey findings will be reported in aggregate only. PLEASE PRINT CLEARLY. Please complete all six sections.

SECTION 1: BACKGROUND INFORMATION

Name: ___________________________ Address: __________________________ Non-UNI E-Mail Address: __________________________
City: ______________________________ State: ______________ Zip: ____________ Phone: ______________________

SECTION 2: EDUCATIONAL EXPERIENCE AND SKILLS

Think about your future/career goals. Using the scale to the left, please rate how well UNI has prepared you for ...

Planning projects
Defining problems
Solving problems
Thinking creatively
Bringing information/ideas together from different areas
Using research skills
Conducting yourself in a professional manner
Upholding ethical standards
Adapting to change
Working under pressure
Working independently
Working with people of diverse backgrounds
Working as a team member

SECTION 3: SCHOLARLY AND ACADEMIC ACTIVITIES AT UNI

Please check each of the following activities that you experienced or participated in during your graduate education at UNI.

- Completed original research
- Submitted original research for publication
- Published original research
- Creative work presented/performed for professional review
- Presented research at a professional conference
- Participated in other ways in regional or national professional society
- Completed a practicum or internship in a professional setting

Below are some reasons for going to graduate school. For each, shade in the appropriate circle for how important that reason was to you and how satisfied you feel about achieving that goal through your graduate experience at UNI.
