Forward Together Update

Dear Panther Community,

Black Hawk County is in the low (green) COVID-19 community level according to the [CDC](#). Based on this finding the CDC recommends that individuals in Black Hawk County stay up to date with COVID-19 vaccines and get tested if they have symptoms. The CDC made this determination after looking at hospital beds being used, hospital admissions and the total number of new COVID-19 cases in the area.

Current [CDC travel requirements and recommendations](#) have not changed - including wearing masks on public transportation and in public transportation hubs. In addition, some communities continue to have in place COVID-19 requirements based on their specific COVID-19 community level. Please keep this in mind as you begin any spring break travel.

The [Student Health Clinic](#) will be closed during spring break. Throughout spring break, individuals can continue to visit:

- [Vaccines.gov](#) to find a vaccine provider; and
- [Test Iowa](#) or [COVIDtests.gov](#) to request that an at-home test kit be sent directly to their residence.

If you get sick, isolate yourself and complete the [Panther Health Survey. Self screening](#), isolating and [testing](#) when you have COVID-19, cold or flu symptoms is an important part of protecting our campus.

If you have a question, please visit [forwardtogether.uni.edu](#) or email it to forwardtogether@uni.edu. Thanks for all that you do to keep yourself, your family and the Panther community safe. Your proactive efforts make a difference, which helps immensely in ensuring a successful spring semester.

Stay Well,

Joseph Rayzor,
Director of Risk Management, Environmental Health and Safety
