Dear Ms. Dumas,

I am writing just one of the many concerned people in this community. If you have any questions or need information, there are tremendous human rights to be addressed as a result of the Agriprocessors plant in Postville.

Through all of this, we need to address the welfare and working conditions of America's livestock. With the company in bankruptcy now, the public may want to know why workers were being humanely cared for, fed and watered, were never in a position to be employees, or the few left after the immigration raid are being floridly treated. This is the worst case of animal pain and suffering I have witnessed in a lifetime of practicing veterinary medicine.

The PETA investigation showed abuses in this area in the plant. The people who know these animals best, and, we hope your newspaper can be a "purring" light.

A county (or country or city) in the judgment by the compassion it shows for livestock.

When You Winter squash can be prepared in a variety of ways, and squash and herbs. Or for a sweet treat, alternative to a website which has numerous truths and animals regarding events occurring in Postville. On November 6, 2008 an article was posted on the Polaced Postville website which was, to me, very mean-spirited. In my opinion, this community, which has supported and helped the downtown for the past 6 months and now, is under attack from a businessman who has professed great respect for the residents of many counties.

Our local alcohol was taking a direct hit. Allamakee-Clayton Electric Cooperative is a member-owned cooperative. It is owned by its members. As with all utilities, I can see that there is a place to plan with delinquent accounts. I am certain that different discrimination of service would be a last resort.

On a personal note, it was because of Allamakee-Clayton that I ran in 1977. We have lived in or around Postville since that time, raising our family, supporting our community, our church, the schools and the businesses in the area. Perhaps because we were NOT Jewish, it was us, the few, who were left to do the work for the diversity. We have been privileged to make our home in a small community, and share in the life of many Families and acquaintances.
