## SCIENCE NOTES

### Environmental Issues Instruction (eii) Workshops

A Resource Enhancement and Protection Act (REAP) grant has been awarded for the 1992-93 continuation of eii. The program, designed to teach responsible environmental action, is appropriate for elementary and junior and senior high school students in all disciplines.

Each workshop consists of an instruction and resource gathering session (one weekend) and an "update" session at which teachers will exchange ideas and experiences (classroom application in the topic area is required and should occur between the two sessions).

Participants completing the program receive two hours of graduate credit from the University of Northern Iowa. Carl Bollwinkel is the Project Director. Associate Directors are Barbara Bonnett and Rosalie Cochran. For more information, contact the Division of Continuing Education, University of Northern Iowa, ph. 1-800-772-1746.

Workshop Topic	Session Dates	Workshop Site
Feeding the World	October 9-11, 1992 February 26-27, 1993	Forest Lake Camp, Bloomfield, IA
Tropical Rain Forest	November 6-8, 1992 March 12-13, 1993	Botanical Center, Des Moines, IA
Feeding the World	November 20-22, 1992 March 19-20, 1993	Starr's Cave, Burlington, IA
Tropical Rain Forest	January 29-31, 1993 April 16-17, 1993	Botanical Center, Des Moines, IA
Solid Waste Management	February 19-21, 1993 April 30-May 1, 1993	Springbrook CEC, Guthrie Center, IA

### National Mole Day Foundation Offers Information

Each year, the National Mole Day Foundation, designed to promote awareness of and enthusiasm for chemistry, organizes volunteers to collect, collate and distribute ideas that can be used to celebrate "Mole Day." Since a mole is defined as  $6.02 \times 10^{23}$  of something, Mole Day is held from 6:02 a.m. to 6:02 p.m. on October 23 (10/23). This year's theme is "Go for the Mole" as 1992 is a "Molympics" year.

For more information about Mole Day or membership in the Foundation, contact Maurice Oehler, 1220 S. 5th St., Prairie du Chien, WI 53821.
