Directions

Objective: This game provides students with practice in recognizing three dimensional crystal shapes and planar geometric shapes of crystal faces.

Preparation of the Game:
Photocopy each page of this game onto light colored heavy card stock paper. Laminate each page if possible. Cut apart the four game cards on each page and the eight calling cards on the other pages. Assemble a set of buttons, pennies, or Bingo chips to use as markers during play.

How to Play:
- Each player is given a Bingo Card and several markers.
- The calling cards are shuffled and placed face down in a stack.
- The caller chooses the first calling card from the stack and calls out the crystal shape name. Players search their cards to see if they have that shape. If the shape is present on a Bingo card, the player covers it with a marker.
- The caller chooses the next crystal shape.
- Play continues until a player finds that three spaces in a row (vertically, horizontally, or diagonally) are covered on the player's card. The player calls, “Bingo!” The player must correctly identify all three shapes on the player's card that form the row. The caller checks the crystal shapes to make sure they were called and correctly identified.
- The winning player becomes the caller for the next round of Crystal Shape Bingo.
Crystal Shape Calling Cards: Cut apart and shuffle these cards. Take the top card from the deck and call out a crystal shape name. Players check their cards for the shape and mark it if they have it.
Crystal Shape Calling Cards: Cut apart and shuffle these cards. Take the top card from the deck and call out a crystal shape name. Players check their cards for the shape and mark it if they have it.
### Crystal Shape Bingo

**Card 1**
- Isometric

---

**Card 2**
- Isometric

---

**Card 3**
- Isometric

---

**Card 4**
- Isometric

---

**Notes:**
- This is a set of crystal shape bingo cards with different isometric diagrams.
- Each card contains a variety of crystal shapes.
- The cards are likely used for educational purposes, possibly in a classroom setting.

## II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, Resources in Education (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

1. **Level 1** release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g., electronic) and paper copy.
2. **Level 2A** release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only.
3. **Level 2B** release, permitting reproduction and dissemination in microfiche only.

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.

III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents that cannot be made available through EDRS.)
