- Dr. David Surdam on Wednesday, April 11 from Noon-12:50 p.m.
- Chair Pohl welcomed Dr. Melissa Beall to discuss about the previous hiring process about the new Graduate College Dean.

New Business:

- **Discussion of New Graduate Dean.**

Dr. Beall discussed some history of the previous Dean and Associate Dean positions at UNI. Discussion included how the previous administrations distributed responsibilities of these positions within the Graduate College, their teaching responsibilities and how these positions were defined in the context of the graduate program. The new position description is considered appropriate in terms of the current administrative structure and its curricular needs.

- **Graduate Assistantships:**

Associate Dean Olivares discussed the needs for revised Graduate Assistants guidelines. We have a handbook policy that regulates assistantships at UNI, which is very old and needs updating. Graduate Assistants are trained differently in different academic units. Departmental programs have much evolved over the years. Responsibilities vary from teaching classes to grading tests and helping faculty in labs. In addition, we now have a Center for Excellence in Teaching and Learning. The new policy should reflect these recent developments in teaching. Olivares invited suggestions from the Council members on these issues. Some ideas are as follows:

- How to resolve behavioral issues of students in undergrad courses taught by GA's?
- Where should they go for help?
- Do they have to take pedagogical courses?
- Do they have to attend weekly meetings to discuss teaching issues?

Should there be special TA training in departments?

- **UNIversitas:**

Chair Gayle reported that the subgroup for the journal UNIversitas recently met to discuss its future mission and structure. The group also considered making it a national journal as well as indexing it.

- **CRM update:**

Dean Pease reported the following:

- Undergraduate admission and recruitment will become CRM-dependent in May.
- Graduate admission will be processed through CRM after June this year.
- The first program to switch will be the Continuing Ed program and MBA.
- All applications will go to a single application system, including the online programs and in-person degrees. Non-degree based online programs will be an exception.
- Any supplemental questions from departments should be notified to the CRM team as soon as possible.
- Application attachments are drastically reduced from 70 to 15.
- The application process is moving to an online Letter of Reference system. There will be questions in 8 categories and ratings. The forms can be uploaded online.
- There will be a testing period for CRM since it is new. The system will be constantly updated through the year.

Meeting adjourned. The next meeting will be on March 22, at 3:30 p.m.

Respectfully submitted,

Rubina Chowdhury
