Iowa Junior Science and Humanities Symposium

The 28th Annual Iowa Junior Science and Humanities symposium will be held February 23 and 24, 1990, at University of Iowa, Iowa City.

The symposium will emphasize the importance of "science and society." Applications are now being accepted and approximately 200 students and 40 teachers will be invited to interact with renowned scientists and professors on present and future issues concerning our science-based society.

This statewide symposium will enable at least sixteen student presenters to share their research endeavors and compete for the opportunity to present their papers at the National Symposium next May. In addition, finalists may be selected to represent Iowa at various other state and national meetings.

Any secondary student who has conducted, is or will be conducting a scientific research study is eligible to apply. The application deadline is January 8, 1990. Funds are available from the Student Program Committee, Iowa Academy of Science, to defray expenses in doing research. Application forms may be obtained from the Iowa Academy of Science, University of Northern Iowa, Cedar Falls, IA 50614-0422.

NEBRASKA SCIENTIFIC presents:

DISSECTION VIDEOS

Available for each of the following:

ORGANS

* NEW *

BRAIN

EYE

HEART

SPECIMENS

CAT

CLAM

CRAYFISH

EARTHWORM

FETAL PIG

FROG

GRASSHOPPER

PERCH

RAT

SHARK

STARFISH

7 minute demonstration video available on loan showing excerpts from several of the dissection series. Call to receive yours.

WORLD'S LARGEST PRODUCER OF STOCKYARD SPECIMENS

Known for high quality preserved specimens, specializing in fetal pigs, rats, cats, frogs & stockyard materials.
