The Iowa Science Teachers Journal is co-sponsored by the Iowa Academy of Science and the University of Northern Iowa through the Office of the Provost and Price Laboratory School. The journal is dedicated to the improvement of science teaching and to the stimulation of interest in scientific studies. The journal is published tri-annually.

SUBSCRIPTION

For subscriptions, circulation data, additional copies and change of address, write the Managing Editor, ISTJ, Iowa Academy of Science, P. O. Box 868, Cedar Falls, IA 50613. Single copies may be obtained for $3; a year's subscription is $9.00.

PUBLICATION POLICY

Manuscripts for publication will be received from all individuals interested in science education at any academic level. Preferential treatment will be given to Academy members and to papers with topics of special scientific and educational interest to science educators in Iowa.

All non-solicited manuscripts submitted to the editor will be reviewed by two authorities in the area concerned. All manuscripts must be typewritten, double-spaced on one side of a sheet and submitted in triplicate. Refer to recent issues of ISTJ for examples of the uniform reference format which is required. Every attempt will be made to publish papers within a year after approval for publication. News items will be published promptly. Publication deadlines are March 31, September 30 and December 31.

For information concerning news items, announcements or articles, contact Carl W. Boilwinkel, Ph.D., Editor, Iowa Science Teachers Journal, Department of Teaching, Price Laboratory School, University of Northern Iowa, Cedar Falls, IA 50613.

Copyright 1989 by the Iowa Academy of Science. Permission to reprint in non-profit journals may be obtained by writing the Editor of the Iowa Science Teachers Journal. Permission will be granted with the condition that reprinted articles are accompanied by author and ISTJ credit. Requests for commercial use should also be addressed to the editor.

Responsibility

Experiments, laboratory exercises, lecture demonstrations and other descriptions of the use of chemicals, apparatus and instruments are presented in this journal as illustrative and directed at qualified teachers. Although every effort is made to insure and encourage safe practices and safe use of chemicals, ISTJ cannot assume responsibility for uses made of its published materials. All teachers planning to use materials from our pages should make choices and develop procedures for laboratory and classroom safety in accordance with local needs and situations.
Contents

2 TWO MODELS FOR THE TEACHING OF SCIENCE-RELATED SOCIAL ISSUES
   Patricia R. Simpson

9 IMPROVING SCIENCE TEACHER PREPARATION: PERSPECTIVE ON STANDARDS
   Robert L. Fisher

13 A NATIONAL COMPUTER CONFERENCING NETWORK FOR SCIENCE EDUCATION
   Jack A. Gerlovich

17 HOW LONG IS A SNAIL'S PACE?
   Carl W. Bollwinkel

22 GEODES: A LOOK AT IOWA'S STATE ROCK
   Brian J. Witzke

25 N.S.F. IMPACT ON AN IOWA TEACHER or How I Spent My Summer Vacation
   Paul D. Jones

27 SCIENCE EDUCATION INITIATIVES FOR THE 1990'S
   An NSTA Report

Departments

29 ASTRONOMY BULLETIN

33 SCIENCE NOTES

39 SCIENCE CALENDAR

42 EDITOR'S CORNER

This symbol identifies articles of particular interest to elementary teachers of science.

The Cover

The cover shows a detail of the fractal image called the Mandelbrot set. Discovered by Benoit B. Mandelbrot, it combines the properties of self-similarity and infinite change. Fractal geometry has become important in computer rendering and simulation of natural phenomena.

Cover design selected by

Ed Harris

Harris is an Associate Professor of Teaching-Art at Price Laboratory School, University of Northern Iowa
