Offensive Materials Statement: Materials located in UNI ScholarWorks come from a broad range of sources and time periods. Some of these materials may contain offensive stereotypes, ideas, visuals, or language.

What's the *Outlook* for Summer 1987

One week *Outlook* training sessions will be offered in Iowa beginning June 7, 14 and 21 and July 5. Summer sessions are also being planned for Manitoba, Wisconsin, Illinois, Kansas and Colorado. *Outlook* is an environmental education enrichment program developed in Iowa for grades K-12.

The *Outlook* training program consists of one week of graduate work composed of two courses, each providing one hour of graduate credit. The courses provide a basis for understanding the *Outlook* approach to environmental education and methods of integrating *Outlook* into any existing curriculum. Grade level *Outlook* teaching materials are provided to workshop participants.

In Iowa, courses will be taught at Camp EWALU, near Strawberry Point, during the weeks of June 7 and July 5 and at the Conservation Education Center, near Guthrie Center, during the weeks of June 14 and 21. Two sections are scheduled for each location each week. During the weeks of June 7 and 14, one section will be designed for teachers of talented and gifted students with Kate Young, a TAG teacher from Waterloo, serving as one of the instructors. During the weeks of June 21 and July 5, one section will be specially devoted to the needs of language arts teachers. Cherin Lee and Carl Bollwinkel of the University of Northern Iowa science education faculty will be instructors for several sections.

The training program is offered through the University of Northern Iowa Institute for Environmental Education. The cost of tuition, room and board and *Outlook* materials is \$250 per person. Iowa participants will receive \$100 stipends and will pay only \$150. Early pre-registration is suggested to insure first choice of dates. Final registration for each session will take place on the opening Sunday evening of each session between 6 and 7 p.m.

For more detailed information and pre-registration forms, write UNI, Continuing Education, Cedar Falls, IA 50614, or call (within Iowa) toll free at 1-800-772-1746.

Lantz Summer Awards For Graduate Study in the Sciences

The College of Natural Sciences of the University of Northern Iowa announces the availability of financial awards to pay tuition costs of graduate study during the 1987 summer session in the fields of biology, chemistry, earth science, physics, science and science education.

To be eligible, students must have been admitted to graduate study with degree status. Awards will be made on the basis of scholarship and potential for success in graduate study. Awardees must carry a program of between five and eight credit hours during the summer session. It is expected that about four awards will be made. The deadline for application is May 1. Awards will be announced on May 15. Further information and application forms may be obtained from science departments or from Roy H. Saigo, Dean, College of Natural Sciences, University of Northern Iowa, Cedar Falls, IA 50614, phone (319) 273-2585.
