Annual Report of the Iowa Academy of Science, 1987-88

James G. Macmillan
University of Northern Iowa
JAMES G. MACMILLAN*

Department of Chemistry, University of Northern Iowa, Cedar Falls, IA 50614

PREFACE

Since 1975 when a history of the Iowa Academy of Science was written for the centennial of the founding of the Academy, an Annual Report has acted as a continuing record of the Academy's activities.

This report encompasses the year beginning July 1, 1987 to June 30, 1988 and is based on minutes of committee meetings, Board minutes and recollections of the author. Each part represents a major activity of the Academy.

THE 100TH ANNUAL MEETING

In 1986 it was recognized that in 1988 the Academy would be conducting its 100th Session on the Iowa State University campus. To begin planning for this centennial session the Annual Meeting Committee, chaired by Gary Downs, Director of Meetings and Programs, was formed in the Fall of 1986 to begin the two year planning process. The whole committee met on October 25, 1986, February 7, 1987 and October 29, 1987 for detailed planning of the speakers, symposia, and special events. The local arrangements committee met separately on April 2, 1986, April 2, 1986 and September 21, 1987 for planning the logistics of the meeting.

Annual Meeting Committee
(The Section Chairs constitute the Annual Meeting Committee)

Local Arrangements Committee Chair
 Harry T. Horner, Iowa State University

Agricultural Sciences
 H. Tachibana, Iowa State University

Anthropology
 Shirley Schermer, University of Iowa

Biotechnology
 Arthur Weissinger, Pioneer Hi-Bred International, Inc.

Botany
 Thomas J. Blewett, Clarke College

Chemical Education
 Donald N. Lang, North Iowa Area Community College

Chemistry, Inorganic
 Mono Mohan Singh, Wartburg College

Chemistry, Organic
 William J. Scott, University of Iowa

Conservation
 John Fleckenstein, Iowa Department of Natural Resources

Earth Science Teaching
 Carolyn Brockway, Cedar Rapids

Elementary Science Teaching
 Carl W. Bollwinkel, Price Laboratory School, UNI

Engineering
 David Luerkens, University of Iowa

Geology
 Karl Seifert, Iowa State University

Linguistics
 Bruce Willis, Luther College

Nursing
 Martha J. Craft, University of Iowa

Physics
 Eugene S. Takle, Iowa State University

Physiology
 William O. Reece, Iowa State University

Psychology
 Fred Ribich, Wartburg College

Science Teaching
 Richard H. Kruse

Zoology
 Daryl Howell, Department of Natural Resources

The Annual Meeting Committee recommended General Session speakers, symposia and planned the blocking of the program. Details of the program were handled by the Executive Director, Director of Meetings and Programs and the Local Arrangement Committee. The section chairs planned the contributed paper portion of their section program.

The Annual Meeting was held April 21-23, 1988 in the Scheman Center on the Iowa State University campus. Preceding the opening session on April 21, the Governor presented the Governor's Science Medals in the Brunnier Gallery of the Scheman Center. Award winners were:

Science Application
 Steven J. Phillips, M.D., Director of Cardiac and Thoracic Surgery Veterans Administration Hospital
 Des Moines, IA

William L. Brown, Ph.D Pioneer Hi-Bred International
 Des Moines, IA

Science Achievement
 Glen A. Russell, Ph.D Distinguished Professor of Science and Humanities
 Iowa State University
 Ames, IA

Donald J. Burton, Ph.D. Professor of Chemistry
 University of Iowa
 Iowa City, IA

Science Teaching
 Detroy E. Green, Ph.D. Professor of Agronomy
 Iowa State University
 Ames, IA

Iowa Junior Academy of Science Program
 The Director of the Iowa Junior Academy of Science, Lynn Glass and the chair of the Student Programs Committee, Ross Iverson, planned the IJAS program of invited papers. The following 14
student poster papers and oral presentations were judged by a committee made up from vice chairs of the sections and members of the student programs committee.

Teresa Creswell, Montezuma
Eric Gogerty, Algona High School

"How does pollination delay affect corn production?"

Richard R. Harms, Sentral of Fenton High School

"A Computer controlled party line: an Apple IIGS innovation"

Susan Havencamp, Davenport Central

"8-0H and PM1000 as Serotonin1A receptor agonists"

Jill Leggett, Davenport North High School

"Developing Pollination Technology"

Eric Gogerty, Algona High School

Teresa Creswell, Montezuma

"The Breakdown of Serotonin is related to psychological well-being and the group dynamics of consciousness"

Susan Havencamp, Davenport Central

"Nitrate filtration with trickling systems"

Nirmal D. C. Pugh, Maharishi School of the Age of Enlightenment, Fairfield

"The Effects of calcium on ascorbic acid's stability"

Lisa Snider, Davenport West High School

"The effect of fertilizer run-off on pond ecosystems - Phase II"

Christina Masey, Oelwein Community High School

"The effects of herbal preparations on cancer cells: immunotherapy or chemotherapy?"

Michelle Wells, Marshalltown Senior High School

"The effect of fertilizer run-off on pond ecosystems - Phase II"

Program Summary

The senior Academy had 290 papers which included General Session speakers, symposia presentations and contributed papers. The following is a summary of the Annual Meeting program activities.

**PROGRAM SUMMARY**

**THURSDAY, APRIL 21**

12:00  Board of Directors Meeting and Dinner
4:00  Governor's Science Medals
5:00  Reception for Recipients
7:30  General Session I

President Lenore T. Durkee, presiding

"Global Change/Earth System Science Research"

Dr. Francis P. Bretherton, Office of Interdisciplinary Earth Studies, University Corporation for Atmospheric Research, Boulder, Colorado

Panel discussion on implications of Global Change moderated by Iowa State University President, Dr. Gordon Eaton

Panelists:

Biology, Ecology: Dr. Harold Mooney, Department of Biological Sciences, Stanford University

**FRIDAY, APRIL 22**

**VIDEO FILM PREVIEW**

**IJAS POSTERS**

**SECTION MEETINGS**

Anthropology
Botany - A & B
Chemistry C
Chemistry D
Geology
Physics A & B
Science Teaching
Zoology

**IJAS PRESENTATIONS**

**SYMPOSIUM I**

Bioethics: "The Scientist's Role in the Controversy over Genetic Engineering, Regulation, and Utilization of Microorganisms."

**AWARDS LUNCHEON**

This served luncheon will honor groups and individual students who have performed in an exemplary manner in science activities throughout Iowa. Several teachers will be honored as they receive the Iowa Academy's Excellence in Science Teaching Award.

**ANNUAL BUSINESS MEETING**

**SYMPOSIUM II**

"Preservation and Utilization of Iowa Natural Resources"

**GENERAL SESSION II**

President Lenore T. Durkee, presiding

"Communications Network"

**GENERAL SESSION III**

President Paul Christiansen, presiding

"Science Education - Getting More Important - But Not Easier"

**SATURDAY, APRIL 23**

**SECTION MEETINGS**

Agricultural Sciences
Anthropology
Biotechnology
Botany - A & B
Engineering - A & B
Geology A & B
Nursing
Physiology
The Awards Luncheon
One hundred and eighty persons attended the Awards Luncheon in room 220-240 of the Scheman Center. The awards for Excellence in Science Teaching were presented by Roy Unruh, the Director of the Excellence In Science Teaching program. The following persons received awards:

- **Biology** - Doug Herman, East High School, Sioux City
- **Chemistry** - Bernard Hermanson, Sumner High School
- **Earth Science** - Ed Rezabek, Glidden-Ralston
- **Elementary Science** - Reta Lemon, Mentzer Elementary
- **Junior High Science** - Bonnie Sankot, South Tama Middle School
- **Physics** - Rollan Frevel, Marshalltown Senior High School

Following the ESTA awards, Lynn Glass, the Director of the Iowa Junior Academy of Science, introduced the participants in the IJAS morning program and announced the winners of the two $500 scholarships and the students who would represent Iowa at the 1989 American Junior Academy of Science program in San Francisco. The scholarship winners were:

- **Sara Schneckloth**, Davenport Central High School
- **William Staib**, Davenport Central High School

The AJAS representatives were:

- **John Stoffel**, Bettendorf High School
- **Michelle Wells**, Marshalltown Senior High School

The Presidents Banquet
Following a social hour in the second floor lobby of the Scheman Center Friday evening, one hundred and seventy five persons attended the President’s Banquet in room 220-240. During the banquet, Sharon Kaye Ferris, harpist, provided musical entertainment. On conclusion of the meal President Lenore Durkee, introduced George Burnet, chair of the Recognition and Awards Committee, who introduced the nominators for the following Iowa Academy of Science Awards:

- **Distinguished Fellow Award**
  - Don Kirkham, Iowa State University
  - Jerry Kollros, University of Iowa

- **Distinguished Iowa Scientist Award**
  - Peter A. Peterson, Iowa State University

- **Distinguished Service Award**
  - Jean C. Prior, Iowa Geological Survey Bureau, DNR

President Durkee introduced Harry Horner, who presented a special recognition to James Macmillan for his service to the Academy from 1983-88. President Durkee reviewed the Academy’s activities for the year prior to presenting the gavel to new President Paul Christiansen. President Christiansen presented his goals for the Academy during the next year. Both presentations appeared in the August issue of the Iowa Academy of Science Bulletin.

### Attendance
Both the 1988 and five year attendances is shown in Tables 1 and 2.

1 University of Iowa
2 Central College
3 Wartburg College
4 Grinnell College
5 Iowa State Univ.

The seven hundred and two persons in attendance at the three-day meeting made this the largest Annual Meeting of the Academy and represented an 11.1% increase over the 1987 meeting in Grinnell, the previous largest meeting. This was not unexpected due to the central location of Iowa State University and to the fact that this was the 100th Session of the Academy as well as being a three day meeting. It is unlikely this trend will continue as the meeting moves further from the central portion of the state. With the increase in attendance there was also an increase in the number of contributed papers from 237 in 1987 to 285 in 1988; a 20% increase. Interestingly, whereas the attendance has gone up over the past five years the ratio of persons attending to the number of contributed papers has remained about constant or gone down slightly indicating that fewer people are attending the meeting without giving papers. The distribution...
between member, non-member and students remains about constant
with the members representing about 64%, non-member 29% and
guests 7%.

Table 3 shows the number of papers given in each section and the
average number of persons attending each section program. Attend­
ance at section programs this year was up probably due to the fact that
average number of persons attending each section program. Attend­
ance at General Session II was low probably due to it being held
at 4:00 p.m. following a symposium and just before the social hour.
The attendance was disappointly low for this general session. The
Annual Business Meeting was held in the Benton Auditorium
following the Awards Luncheon and was also very poorly attended.
Most people took a break preceding the afternoon symposium.

**MINUTES OF THE ANNUAL BUSINESS MEETING**
Benton Auditorium, 1:30 p.m., April 22, 1988

The Annual Business Meeting was called to order by President
Lenore Durkee at 1:35 p.m. With approximately 48 persons in
attendance, a quorum was declared. President Durkee reported the
following items to the membership.

James G. Macmillan has resigned as Executive Director of the
Iowa Academy of Science as of July 31, 1988. Durkee expressed the
appreciation of the members for Jim’s excellent leadership. She
announced that Paul E. Rider, Professor of Chemistry at the University
of Northern Iowa, had been appointed by the Board of Directors to
succeed Jim as Executive Director and introduced him to the member­
ship.

Durkee reported that a new desktop publishing system has been
acquired by the Academy and was used for the most recent IAS Bulletin and the Annual Meeting program.

Two more members were added to the Recognition and Awards
Committee (for a total of eight members). That committee is also in
the process of developing an appropriate set of guidelines for granting
the Carothers Award, named after Wallace Carothers (a Des Moines
native and inventor of nylon) which would be funded by a grant from the Du Pont company.

In Board actions the Controversial Issues Committee was made a
standing committee and the Publications Committee, which was an
ad hoc group, was discharged with appreciation for its efforts.

Hertz Farm Management had reported the status of the Parish Farm
crop production to the Board as well as its support and interest in
research projects using the farm.

The Board decided against having the Academy supervise NSF grant
monies as a general principle, although the Academy may lend
its support to those who apply for grants.

The discussions in the Academy this year have involved a number
of significant matters including the situation in which the Academy
may require the services of a full-time Executive Director in the
future. Durkee encouraged members to fill out the questionnaire of the Long Range Planning Committee at the meeting (since returns
had been minimal). Forms were available at the registration desk.

**Financial Report** - Following President Durkee’s report, James
Macmillan gave the membership a report on the financial condition
of the Academy as of March 31, 1988. The assets of the Academy included $13,938.42 in checking, $64,217.79 in savings, $826.00
in Iowa’s Natural Heritage books and $38,331.68 in unused state
appropriation. The latter was for Iowa Science Foundation grants and
would be expended by June 30, 1988. The only other liabilities that
the existed were for payroll taxes which are paid on a quarterly basis.
Consequently the total liabilities were $38,331.68.

At the end of last fiscal year, June 30, 1987, the restricted fund
balance was $22,785.57 and the unrestricted fund balance was
$46,576.11. The net income as of March 31, 1988 was $8,652.22.
He reported that this did not included a major portion of the income
or expenses for the Annual Meeting which would change the picture considerably.

He reported that attendance at the 100th Annual Meeting would
probably exceed 700 which would be a record (surpassing last year’s
record established at the meeting at Grinnell College).

**1988-89 Budget** - George Karas, Finance committee chair,
presented the proposed budget for the next fiscal year 1988-89 as
developed by the Finance Committee and approved by the Board of Directors. The balanced budget based on an expected
income of $152,015 included $53,340 for grants and dues, $53,925
for honoraria and wages, $8,400 for postage, $7,650 for supplies and services, $28,900 for printing and $17,800 for travel and committee
activities. Karas moved approval of the budget which was seconded
by Dwight Tomes. The motion passed.
Election Report - Paul Waite, the Election Committee chair, reported the results of the recent election. Ruth Swenson of Iowa State University was elected President-Elect.

He indicated that the mistake on the original ballot for election to the Board of Directors created confusing and uncertain results, depending upon interpretation. He reported that the present board of directors ruled that the election should be held again and that a new ballot would be sent to the membership as soon as possible.

Membership Report - Gene Lucas, Membership Committee chair, gave the report of the committee. He indicated that problems existed relative to current members identifying potential new members, both in terms of seeking them and doing so in a timely fashion.

He reported that new sections had resulted in a substantial increase in the total membership.

He mentioned that the committee was concerned about elevating present members to "fellow" status. He reminded the membership of the criteria (excellent scholarship, involvement in Academy affairs, Academy membership for at least five years) and indicated that approximately 500 current members were eligible for fellow status.

He encouraged members to get nomination forms at the registration desk and to nominate themselves or others if interested.

He indicated that there were presently 1260 Regular Members, 132 Student Members, 250 Fellows, 96 Emeritus Members, 47 Life Members, 6 Corporate Members, and 41 Distinguished Fellows.

He reported the following new fellows, new emeritus members, and deceased members.

Fellows -
- Carl Bollwinkel
- Richard Markuszewski
- Peggy Lee Steffen
- Harry C. Vaughan
- Thomas D. Wheelock

Emeritus -
- Homer O. Clark
- William C. Kunsch
- Wayne J. McIlrath

Deceased -
- Wise Burroughs
- Henry J. Dickinson
- R. V. Drexler
- Larry A. Kelsey
- Reggie H. Stevens
- William J. Zimmerman

With no new business being brought up to the membership, Waite moved (seconded by several) adjournment. Motion passed.

The meeting adjourned at 2:00 p.m.

REVIEW OF ACADEMY ACTIVITIES 1987-88

Committee Activities

During 1987-88, the Academy affairs have been handled by the Board of Directors, the Executive Director, the Associate Executive Director, the Director of Meetings and Programs, the Director of the Iowa Junior Academy of Science, thirteen committees, three ad hoc committees and three editors. In all, over one hundred persons were involved in the Academy's committees and administration. The membership on the Board of Directors, committees and special program directors is listed at the end of this report.

At the beginning of the year the committees were asked to set goals for the year. They submitted year end reports which summarized their activities for the year.

Annual Meeting

Chair: Gary Downs

The 100th Annual Meeting Committee began their work two years in advance of the meeting. The committee, chaired by Gary Downs, Director of Meetings and Programs, met on October 25, 1986, February 7, 1987 and October 29, 1987 for detailed planning of the speakers, symposia, and special events. The local arrangements committee met separately on April 2, 1986, April 23, 1986 and September 21, 1987 for planning the logistics of the meeting. The section programs were arranged by the section chairs.

Committee on Committee

Chair: President Elect Paul Christiansen

The committee met on November 20, 1987 to discuss committee appointments for 1987-88. After a list of potential committee appointments was prepared from recommendations of the committee chairs and the members of the committee on committees, the LAS office contacted individuals by mail. All appointments were made prior to the 1988 Annual Meeting.

Conservation and Preserves

Chair: William Pusateri

The committee did not formally meet during the year but carried out some of their activities by mail and phone. The committee submitted a list of nominees in the spring of 1988 for appointment by the Governor to the State Preserves Advisory Board.

The Committee provided valuable input and advice in regular meetings and activities sanctioned by the State Preserves Advisory Board. These activities included the Fifth Annual State Prairie Heritage Week, the Twelfth Annual National History Foray, and the Twelfth Annual Loess Hills Seminar. The committee also contributed to several academic research projects, several State Preserves Management projects and to courses and research conducted at Iowa Lakeside Lab. The committee was in consultation for the filming of "Land Between Two Rivers"; a series being produced for Iowa Public Television.

Controversial Issues

Chair: George Magrane

The committee began discussions on the following issues: experimentation with laboratory animals, unified field theory, creationism, health related issues, and unorthodox scientists.

Information was gathered to begin work on a position paper concerning the experimentation with laboratory animals. It was felt that a symposium on the subject might be an effective means of airing all sides of the issue.

The committee monitored the impact made by advocates of the Unified Field Theory and the Science of Creative Intelligence. There was concern about the influence these advocates were having on the judging of science fair projects.

Although the committee saw a need to investigate areas relating to science and health, no issues could be clearly defined for consideration. Topics such as chiropractic, organ transplants, toxic wastes, and water quality were considered.

Education

Chair: Melba Strickler

The committee met several time to conduct the selection process for the selection of nominees for the Presidential Award for Excellence in Science and Mathematics Education. The Iowa nominees in science were Gary L. Busby, Johnston Middle School; Morgan Masters,
Chariton Community Schools; Gerald Walsh, Washington Junior High School.

Election
Chair: Past President Paul Waite

The committee met October 30 and selected the following slate of candidates for President Elect and board of directors for the 1988-89 ballot.

President-elect: Joe D. Woods, Drake University
Ruth W. Swenson, Iowa State University

Directors:
Richard Baker, University of Iowa
George Burnet, Iowa State University
William Deskin, Cornell College
Allan Orr, University of Northern Iowa

Shortly after the ballot was mailed, and error was discovered which indicated that one should vote for one director when the bylaws say that one should vote for two. A corrected ballot was mailed immediately following the discovery. There was a disappointing return on the second ballot with some persons not receiving the ballot. The election of President Elect was clear with Ruth Swenson being selected but with the confusion concerning the ballot the Board of Directors rejected the results for the election to the Board of Directors. After consultation with a parliamentarian, a third ballot was mailed dealing only with the election to the Board of Directors. A very good return was obtained with the election of the Alan Orr, University of Northern Iowa and William Deskin, Cornell College.

Finance
Chair: George Karas

The committee met on March 10, 1988 to assist the executive director on developing the 1988-89 budget which was submitted to the board of directors for the April board meeting. The committee recommended that $20,000 of the long term investments be placed in a money market account.

The committee selected Carney, Alexander, Marold and Co. to conduct a financial audit of the Academy accounts after closing the 1987-88 books.

Iowa Science Foundation
Chair: Robert Yager

The committee solicited and evaluated proposals for the 1988-89 fiscal year. The following twelve proposals were funded for a total of $42,531.

“A Project to Operationalize the Iowa Alliance for Science”
Lynn W. Glass, Iowa State University $5,000

“Blycoproteins as Markers of Regional Differentiation in the Ectoderm of Chicken Embryos”
Charles H. Sullivan, Grinnell College $5,000

“Protein Analysis of Flowering in a Rapid-Cycling Brassica using 2-D PAGE”
Alan R. Orr, University of Northern Iowa $1,910

“Accessory Chlorophyll Analyses of Selected Diatoms”
David B. Czarnecki, Loras College $2,880

“Investigations of the Effects of the Mutant Eyeless (e/e) gene upon the Developing Hypothalamus in the Axolotl”
Gerald W. Eagleson, Loras College $4,000

“A comparative and developmental study of polycetylene ducts in native and weedy ragweed (Ambrosia) species (Asteraceae)”
Nels R. Lersten, Iowa State University $3,500

“An Interactive Science Museum Exhibit of Transmission Holography”
Kirk E. Brocker, Dale W. Olson, The Science Center of Iowa $4,900

“Mineralogy, Paragenesis, and Stable Isotopic Compositions of Sulfide Mineral Deposits Associated with Late Paleozoic Karst Fills in Devonian Limestones in Eastern Iowa”
Paul L. Garvin, Cornell College $2,100

“Mineralogy, Paragenesis, and Stable Isotopic Compositions of Sulfide Mineral Deposits Associated with Late Paleozoic Karst Fills in Devonian Limestones in Eastern Iowa”
Eugenia S. Farran, Iowa State University $4,200

“The role of chorusing behavior in the reproductive behavior of a prairie karyid”
Kenneth C. Shaw, Iowa State University $4,800

“Dispersal of the European Alder Leafminer in an Intensive Culture Plantation”
Richard B. Hall, Elwood R. Hart, Iowa State University $3,750

“Laser Nucleation of Catalyst Clusters”
David G. Rethwisch, University of Iowa $5,000

“Promoting Science Careers for Women Through Education: A Pilot Program”
Ruth W. Swenson, Iowa State University $5,000

Long Range Planning
Chair: Donald Huffman

The committee was given the charge by the Board of Directors to survey the membership concerning the future direction of the Academy. The committee designed the survey instrument and reported the results to the Board of Directors.

Membership
Chair: Gene Lucas

The committee solicited nomination for Fellow through the fall issue of the IASB. The committee evaluated the nominations received and recommended to the Board of Directors that the following persons be appointed as Fellows. The committee discussed ways of increasing membership.

Carl W. Bollwinkel, Price Laboratory School, UNI Richard Markuszewski, Iowa State University Peggy L. Steffen, Ottumwa High School Harry C. Vaughan, Iowa State University Thomas D. Wheelock, Iowa State University

Parish Farm
Chair: George Knaphus

The committee met on the farm premises in August of 1987 to review with the farm manager the crop plantings for the year and the success of the 1986 crop. The committee agreed that the Parish Farm was meeting the expectations of the Academy.

It was recommended to the Board of Directors that a Farm Picnic be held on June 15, 1988. The program planned by the Farm Committee was attended by about 90 people. Tours were conducted by the Grundy County Conservation Commission and the Hertz Farm Management personnel.

The committee and the farm manager met with the Board of Directors to discuss the polices regarding the use of herbicides, insecticides and fertilizers on the farm. The Farm committee also cooperated with the Iowa Natural Heritage Foundation Demonstration Farm Project to conduct several test plantings in the summer of 1988. The test plots were to show the effect of nitrogen rates on corn
and the effectiveness of drilled soybeans vs. 30 inch row soybeans.
The Iowa Geological Survey began investigating the possibility of
monitoring the effluent of field tiles for chemical residues; however,
with the unusually dry summer no sampling was done.

Public Information
Chair: Connie Mutel

This year the Public Information Committee began work on a
resource directory of IAS Members who would be willing to work
with the media. A questionnaire was developed and mailed to all
members. The resource directory will be developed during 1988-89.

The committee developed public service announcement regarding
the 100th Annual Meeting and assisted with other Annual Meeting
publicity.

A mailing list of newspapers, radio stations and television stations
who carry science stories was compiled. This list was used to alert the
media about important science stories.

The committee recommended that the Board of Directors continue
to support the IPT program “Nature”.

Ad Hoc Publications
Chair: Don Norton

The Board of Directors, at the committees request, dissolved this
committee since it had not been given a charge for two years.

Recognition and Awards
Chair: George Burnet

The committee worked with the Governors office in evaluating the
nomination for the Governor’s Science Medal.

The Awards ceremony was held April 21, 1988 in the Brunner
Gallery of the Scheman Center just prior to the opening of the 100th
Annual Meeting of the Academy. (Recipients are listed elsewhere in
this report.)

The Committee solicited and evaluated the nominations for the
Iowa Academy of Science Awards. The committee recommended, and
the Board of Directors approved, the following persons for the Iowa
Academy of Science Awards.

Distinguished Fellow
Donald Kirkham, Iowa State University
Jerry Kollros, Iowa State University

Distinguished Iowa Scientist
Peter A. Peterson, Iowa State University

Distinguished Service Award
Jean Prior, Geological Survey Bureau

The committee accepted the charge from the Board of Directors to
develop the guidelines for a Wallace H. Carothers Scholarship in
Chemistry to honor Dr. Carothers, the inventor of Nylon while
working for E. I. du Pont de Nemours and Company. Dr. Carothers
was a native of Iowa and received most of his education in Iowa. The
committee prepared a proposal to DuPont Company for fund of the
scholarship.

Student Programs
Chair: Ross Iverson

The committee worked with the Lynn Glass, Director of the Iowa
Junior Academy of Science, in soliciting and evaluating student
research grant applications. The Committee approved $993.64 in

grants to the following secondary schools:

Do varied levels of ultraviolet rays affect the mutation rate in the
deoxyribonucleic acid of specific chromogenic bacteria

Justin E. Jordebrek, Marshalltown Senior High School

Land snails and their causal effects in the stimulation of neo-plasias in
Lycopersicon Esculentum

Douglas J. Renze, Marshalltown Senior High School

Evidences of “medical practices” in archaeological artifacts in the
Americas

Jennifer Stephens, Marshalltown Senior High School

“The Effect of Fertilizer Run-off on Pond Ecosystems - Stage 2”
Michelle Wells, Marshalltown High School

“The Presence of Radon in Marshalltown, Iowa”
Abby Mack, B.R. Miller Junior High

“The Effects of Low Doses of Radiation on the Development and
Growth of Bean Seeds”
John T. Stoffel, Bettendorf High School

“The Effect of Black and White on the Sensitire and Maidenhair
Ferns”
Sara Koopman, B.R. Miller Junior High

“The Antimicrobial Effect of Common Woodland Plants”
Cort Iverson, Green Mountain - Garwin

“Quantitative Comparison and Spectroscopic Analysis of Citrus Oil
Insecticides”
Sara Schneckloth, Davenport Central High School

“The Effects of Neural Network Simulations on Computer Composed
Music”
William Staib, Davenport Central High School

“Economic Effects from the Replacement of Manufacturing Jobs with
Service Jobs”
Michael Stolze, Davenport Central High School

“Filling Bats with Foreign Substances”
Jeremy Wells, Stuart-Menlo Comm.

“Calculation of Absolute Magnitudes Through Infra-red & Color
Photographic Image Diameters, Print Calibration & Apparent Mag-
itudes”
Ken Tyne, Stuart-Menlo High School

“The Effect of Centrifical Force on Glycine Max”
Julie Wigton, Stuart-Menlo High School

“Personalities From Pupils?”
Brenda Mains, Stuart-Menlo High School

The committee conducted a program for teachers at the Iowa Junior
Science and Humanities Symposium in addition to several Iowa
science fairs.

The committee invited the winners of state and local science fairs
and symposia to present their research at the IJAS Program at the IAS
Annual Meeting. The papers presented are listed elsewhere in this
report. As a result of judging the presentations at the Annual Meeting
the following awards were made:

$500 scholarships to graduating seniors.
Sara Schneckloth, Davenport Central High School
William Staib, Davenport Central High School

The AJAS representatives were:
John Stoffel, Bettendorf High School
Michelle Wells, Marshalltown Senior High School

During the year the committee also selected the delegates and
alternates to the following national programs:
National Youth Science Camp

Delegates:
- Curt Clifton, Maquoketa Valley High School
- Laura Kain, Abraham Lincoln H.S., Des Moines

Alternates:
- Catherine Harmon, West Burlington, Arnold
- Bruce Vander Lee, Sheldon Comm. H.S.

National DEO Summer Student Research Program
- Todd L. Duncan, Bettendorf High School

Argonne National Laboratory, Illinois
- Carla Marie Tiarks, Treynor High School

Oak Ridge National Laboratory, Tennessee
- Patrick Dumstorf, Bancroft St. John

Lawrence Berkeley Laboratory, California
- John R. Loigren, Ankeny Senior High School

Brookhaven National Laboratory, New York
- Peter D. Soley, Dubuque Senior High School

Lawrence Livermore National Laboratory, California
- Jeff Moehlis, Cedar Falls High School

The committee selected 177 high school seniors to receive the Outstanding Science Student Award. One award was allowed for each accredited high school in Iowa. The names of the students appeared in the August 1988 IAS Bulletin.

Support for the student programs came from contributions from Pioneer Hi-Bred International, Rolscreen Company and AAAS.

Excellence in Science Teaching Award

The Excellence in Science Teaching program was directed by Roy Unruh of the University of Northern Iowa. Six subcommittees reviewed approximately 40 nominations to select the recipients of the awards. The awards were presented at the Awards Luncheon during the IAS Annual Meeting in Ames Iowa. (See Awards Luncheon for the names of the recipients.)

SECTION ACTIVITIES

Section Reorganization

At the request of President Lenore Durkee all sections discussed the possibility of section reorganization and the establishment of new sections. Although most sections felt that their section did not require reorganization, Conservation and Zoology saw that they could combine. The Science Teaching Section felt that reorganization should be approached cautiously but felt that the other teaching sections (Chem Ed., Elementary Science Teaching, and Earth Science Teaching) might find it advantageous to be a sub section of the Science Teaching Section.

There appeared to be a need for new sections or the renaming of old sections to attract scientists who do not see how their specialty is presently covered by the present sections.

Chemical Education

The Chemical Education section held an afternoon and evening meeting at Hoover High School, Des Moines Iowa, on Friday, September 25, 1987. The group of 25 persons heard a report on the Chem Ed '87 meeting in Kingston, Ont. and held a discussion on the disposal of hazardous chemicals. There was some discussion of what people were doing to celebrate National Chemistry Day, November 6. The section also met at the Annual Meeting to discuss what would be a good topic for the fall meeting.

Iowa Science Teachers Fall Conference

The Iowa Science Teachers Fall Conference was held October 22, 1987 at the Stouffer Five Seasons Hotel in Cedar Rapids, Iowa. In addition to 44 small group presentation, Dr. James Van Allen, Carver Professor of Physics, University of Iowa, gave a presentation at the noon luncheon. The attendance figures are shown in Table 4.

The Iowa Science Teachers Outstanding Service Award for 1987 was presented to Peggy Steffen, secondary science teacher in the Ottumwa Community Schools and secretary of the Iowa Science Teacher Section.

ADMINISTRATION

Personnel

During the 1987-88 year there were a few changes in the Academy office personnel. Although Doris Mitchell continued as Office Manager, James Macmillan who has served as Executive Director since 1983, submitted his resignation effective August 1, 1988. In anticipation of his leaving the IAS Board of Directors solicited applications for an Associate Director in the fall of 1987. Paul Rider, University of Northern Iowa, was selected from the applications. He will continue as Executive Director as of August 1, 1988.

With the graduation and leaving of Debra Davis who had worked for two years as a student office assistant, Tracy Fontanini was hired as a student office assistant.

Grants

The Academy continued involvement with the PRISMS project by selling PRISMS Guides and keeping accounts of the expenses for the printing and mailing of guides. With the University of Northern Iowa receiving NSF support for the PRISMS project, the Academy transferred the remaining funds and books to the University of Northern Iowa at the end of the fiscal year.

The Iowa Department of Education awarded the Academy a grant of $5000.00 for continued support of the elementary science education section and newsletter. The Board of Directors established the Elementary Science Teaching Section in 1985 with special membership dues of $10. The grant has paid the dues of the new members for the first two years. The Elementary Science Teaching Section has grown to over 230 new members.

In 1987 the Iowa Department of Education awarded the Academy $7,000 for a secondary science student program called Surface Water Analysis Program (SWAP). This project was co-directed by Cherin Lee, University of Northern Iowa, Erwin Richter, University of Northern Iowa, and Ross Iverson, Marshalltown Community Schools.

The Academy received $1,000 from AAAS to support the IJAS secondary student research grants while $3,000 was received from...
Pioneer Hi-Bred International to support the student activities.

Publications
The Proceedings of the Iowa Academy of Science, edited by Roger and Marilyn Bachmann of Iowa State University, is published on a calendar year. In 1987, Volume 94, four issues were published containing 18 articles and 148 pages from 59 authors. Several persons authored more than one article. After a survey of the Academy membership, the ad hoc Publications Committee recommended to the IAS Board of Directors that the name of the Proceedings of the Iowa Academy of Science be changed to the Journal of the Iowa Academy of Science. In addition to the title change, the cover was redesigned, printed on silver gray stock using forest green ink. The distribution of the first issue of the Journal occurred at the 100th Annual Meeting in Ames, Iowa.

The Iowa Science Teachers Journal, edited by Carl W. Bollwinkel of the University of Northern Iowa, is published on a yearly basis. In 1987, Volume 24, had three issues containing 88 pages, with 16 articles from 19 authors.

In the fall of 1987, Carl Bollwinkel resigned as editor of the Iowa Science Teachers Journal effective with the spring issue of volume 25. As of June 30, 1988 a new editor had not been appointed by the Board of Directors.

The Academy has three newsletters; the I.A.S. Bulletin edited by James G. Macmillan, the IJAS Newsletter edited by Joe Moore, Keystone AEA Elkader, Iowa and SPARKS, the newsletter for the Elementary Ed Section, edited by Susan Kelley, Mercer Elementary, Ames, Iowa.

National Activities
President-elect Paul Christiansen and Executive Director James Macmillan were the Iowa Academy of Science representatives to the National Association of Academies of Science held in conjunction with the AAAS meeting in Boston, Massachusetts February 11-14, 1988. They attended the NAAS meetings as well as the AJAS banquet and the meeting to form the new Section Y of AAAS.

MEMBERSHIP

Table 5 shows the membership trends for the years 1984-88. In 1985 the Associate Membership category was eliminated and Associate members were made regular members. The membership which stood at 1878 as of June 30, 1988, represents an increase of 198 members over the same date in 1987. This 11.8% increase is due largely to the growth in the new Elementary Science Teaching Section. This section which was formed in 1986 has attracted a large number of interest from elementary school teachers. Student members were made regular members. The membership which now stands at 131, has been on a slow decline since 1984 when there were 160 student members. This may be due to the lack of sufficient membership publicity at the colleges and universities.

</tbody>
</table>

The slow decline in the number of Fellows has been a concern of both the Membership Committee and Board of Directors. In 1983 there were 349 fellows while at the end of 1988 there were 245. When one considers that candidates for President Elect and Board of Director must be fellows, the pool of potential candidates is getting smaller.

Table 6 show the numbers of persons showing an interest in the 19 sections. Since an individual can indicate an interest in more than one section the percentages are not additive.

FINANCIAL REPORT

Balance Sheet

Table 7, the balance sheet for the year ending June 30, 1988, is for both the Academy and for the combined assets of IAS, ISTS, and several grants. The total assets of the Academy were $53,796.59 and $62,899.95 for the combined organizations. The liabilities at years end were for payroll taxes to be paid in July of $1,672.91. The combined restricted and unrestricted fund balances for the Academy from 1987 were $69,259.08. Consequently, the net income for the Academy was ($17,135.40). The combined fund balance for all organizations were $62,899.95 which results in a net income (loss) for all organizations of ($23,038.29).

It should be noted that at the beginning of the 1987-88 fiscal year the Academy held a bond with a face value of $6,140 which had been paying 15% interest. In September this bond was called and paid $6,846.50.

INCOME STATEMENT

Tables 8 and 9 shows that the actual income and expenses for 1987-88. Table 8, in addition to showing a total income of $164,654.10, also show how the income was distributed to the various programs and activities of the Academy. The income for publications and the Annual Meeting do not cover the expenses for these two activities; therefore, part of the dues income was assigned to each to balance the expenses.

The farm transfer shows the amount transferred from the Parish.

Farming operation and does not reflect the actual farm income. Hertz Farm Management reports on a crop year and the $28,500 represents the amount transferred between June 30, 1987 and June 30, 1988. The 1987 crop income will be in excess of this amount.

Table 9 show how the actual expenses of $181,789.50 were allocated to the programs of the Academy. This year to meet the expenses it was necessary to use Academy reserves. The net loss of ($17,135.40) was the first loss in a number of years. To a large extent this was due to the purchase of the new computer system which greatly improved the data processing and desk top publishing capabilities of the office and due to the high cost of the 100th Annual Meeting held this year.

Table 10 and 11 show the income and expenses respectively for all the programs and projects that the Academy administers. For all projects there was $200,855.99 of income and $223,894.28 in expenses.

In Table 8-11 it is shown that the University of Northern Iowa makes a contribution of $6,507.06. This represents the release time provided for the Executive Director and for some printing and mailing of the Iowa Science Teachers Journal.

During 1987-88, the Academy received funds from the Iowa Department of Education to form an Elementary Science Teaching Section (ESTS), to conduct workshops on computer interfacing (Micro) and to develop a junior high school chemistry project on Surface Water Analysis Program (SWAP). The funds available at the end of 1988 will be carried over as fund balances for 1988-89.

The PRISMS Co. which was an out growth of the U.S. Department of Education project, showed a net income of ($6,167.83). At the end of the 1987-88 fiscal year the remaining funds from the PRISMS company were transferred to the University of Northern Iowa. At that time the Academy cut it's ties with the PRISMS project. PRISMS was a very exciting endeavor for the Academy.

Restricted Assets

For a number of years the Academy has had some investments which have been set aside for special purposes. Table 12 show the status of these funds as they are presently invested with Merrill-Lynch. These amounts indicates what was invested in the fund in addition to the dividends which are reinvested. There is a decreasing penalty for early withdrawal for the first four years of investment consequently the indicated values do not represent the redeemed value.

Within this fund the dividends are distributed to the various categories. For example, the dues paid by Life Members are placed in a special fund of which only the interest can be used for operating expenses.

The Robert W. Hanson Publication Fund was established when Robert W. Hanson retired as Executive Director of the Academy. This account has grown from $4,141.38 on June 30, 1986 to $6,467.03 as of June 30, 1988 due to the reinvestment of dividends and further contributions by members. Dividends were reinvested in this fund. The Board of Directors can use the dividends from this fund to support publication projects in honor of Robert W. Hanson.

In 1985 the Board of Director established a restricted savings of $15,000 as a result of the exceptional income from the Parish Farm. Dividends from this fund have been reinvested in the account. As of June 30, 1988 the investment value of this account was $16,473.38.

In addition to the restricted funds shown in Table 12, the Academy has $23,737.47 in unrestricted savings. These fund are available for use by the Board of Director.

### ACADEMY LEADERSHIP 1987-88

**Officers**

President — Lenore T. Durkee, Grinnell College
Past-President — Paul Waite, Des Moines, State Climatologist
President-elect — Paul Christiansen, Cornell College
Executive Director — James G. Macmillan, University of Northern Iowa

**Directors**

Wayne L. Anderson, University of Northern Iowa, 1988
Luth W. Swenson, Iowa State University, 1988
Arthur J. Bosch, Central College, 1989
Donald L. Koch, Geological Survey Bureau, Iowa City, 1989
Bruce W. Menzel, Iowa State University, 1990
Samuel J. Turthill, Amana, 1990

**Standing Committees**

**Annual Meeting Committee**
(The Section Chairs constitute the Annual Meeting Committee.)

**Committee on Committees**
Paul Christiansen (chair), Cornell College
John C. Downey, University of Northern Iowa
Laura E. Sweets, Iowa State University
Charles C. Wunder, University of Iowa
William H. Gilbert, Simpson College
Don Norton, Iowa State University
Board Liaison: Paul Christiansen

**Conservation & Preserves Committee**
William P. Pusateri (chair), Des Moines
Neil P. Bernstein, Mount Mercy College
Paul D. Whiston, University of Northern Iowa
George D. Schrimper, University of Iowa
Harlo H. Hadow, Coe College
Richard Lampe, Buena Vista College
Lawrence Eilers, University of Northern Iowa
