THE IOWA SCIENCE TEACHERS JOURNAL

The Iowa Science Teachers Journal is co-sponsored by the Iowa Academy of Science and the University of Northern Iowa. The journal is mailed by the University of Northern Iowa Extension Service and is published tri-annually. The journal is dedicated to the improvement of science teaching and to the stimulation of interest in scientific studies.

SUBSCRIPTION

For subscriptions, circulation data, additional copies and change of address, write the Managing Editor, ISTJ, Iowa Academy of Science, University of Northern Iowa, Cedar Falls, Iowa 50613. Single copies may be obtained for $1.25; a year's subscription is $4.00. Any secondary science teacher in Iowa may obtain a subscription free of charge if a request is mailed to the Managing Editor; all such requests must be made on school stationery.

PUBLICATION POLICY

Publications will be received from all individuals interested in science education at any academic level. Preferential treatment will be given to Academy members and to papers with topics of special scientific and educational interest to science educators in Iowa.

All non-solicited manuscripts submitted to the editor will be reviewed by two authorities in the area concerned. All manuscripts must be typewritten, double-spaced on one side of a sheet and submitted in duplicate. Every attempt will be made to publish papers within a year after approval for publication. News items will be published promptly. Publication deadlines are April, September and December.

For information concerning news items, announcements or articles, contact A. C. Haman, Editor, Iowa Science Teachers Journal, Department of Biology, University of Northern Iowa, Cedar Falls, Iowa 50614.

Responsibility

Experiments, laboratory exercises, lecture demonstrations and other descriptions of the use of chemicals, apparatus and instruments are presented in this journal as illustrative and directed at qualified teachers. Although every effort is made to ensure and encourage safe practices and safe use of chemicals, ISTJ cannot assume responsibility for uses made of its published materials. All those teachers planning to use materials from our pages should make choices and develop procedures for laboratory and classroom safety in accordance with local needs and situations.
Contents

The Natural Forest Communities in Iowa: 
A Resource in Trouble  
Gary Hightshoe ......................................................... 2

A Laboratory Exercise in Gas Chromatography  
for High School Students  
Bernard Hermanson ......................................................... 16

Beyond the Metre (Part III)  
Richard Thompkins ......................................................... 21

Creationism and Evolution  
New York State Department of Public Instruction ......................................................... 28

Comparison of Perceptions of Major 
Problems in Science Education  
Jack Gerlovich and Robert Yager ......................................................... 30

Student Construction of a Working Solar Collector  
Edward Jones and David Roberts ......................................................... 34

Science Anxiety: How Can We Reduce It?  
George Davis ......................................................... 40

Do Reading Ability and Sex Differences  
Make a Difference in Science Achievement?  
Sharon Wadsworth and Lynn Glass ......................................................... 44

Potential New Iowa Multi-Use Crops  
for Oils and Hydrocarbons  
Russell Buchanan ......................................................... 47

A Philosophy of Present-Day Education  
James Kelly ......................................................... 53

Notes from NSTA District VIII Director  
Robert Fisher ......................................................... 56

Teaching Notes  
James Hungerford and Dennis Kingery ......................................................... 15, 59
