(1980) "Physics Certificate," *Iowa Science Teachers Journal*: Vol. 17: No. 1, Article 21.

Available at: <https://scholarworks.uni.edu/istj/vol17/iss1/21>

This Article is brought to you for free and open access by the IAS Journals & Newsletters at UNI ScholarWorks. It has been accepted for inclusion in Iowa Science Teachers Journal by an authorized editor of UNI ScholarWorks. For more information, please contact scholarworks@uni.edu.

Offensive Materials Statement: Materials located in UNI ScholarWorks come from a broad range of sources and time periods. Some of these materials may contain offensive stereotypes, ideas, visuals, or language.

Beyond these materials, the only cost is for such items as rocks, minerals, a few maps and of course the basic "Geology Is" Text/Lab Manual. However, more cost may be involved if optional activities are planned.

"Geology Is" can be a viable addition to a secondary science program in any setting and is an important, relevant subject in today's world. The course is designed for a wide variety of student interests and abilities, and can be obtained at a very reasonable cost.

Education in Iowa

"Education is important in Iowa, as it has the nation's highest literacy rate. Nine out of 10 Iowan 9th-graders complete the 12th grade. . . . Fifty-one thousand high-school seniors in Iowa are eligible to vote in the November general election."

Jesse Jackson
Waterloo Courier, 1/27/80
