This Article is brought to you for free and open access by the IAS Journals & Newsletters at UNI ScholarWorks. It has been accepted for inclusion in Iowa Science Teachers Journal by an authorized editor of UNI ScholarWorks. For more information, please contact scholarworks@uni.edu.

Offensive Materials Statement: Materials located in UNI ScholarWorks come from a broad range of sources and time periods. Some of these materials may contain offensive stereotypes, ideas, visuals, or language.

ing were internal to the various disciplines of science. With such new goals, areas such as nutrition have new meaning and importance for school science. Nutrition is one of the basic problems of our times — both at a personal and at a societal level. As such it is an important and central strand to any science program which is in tune to the more modern goals and the kind of science needed for 1980.
