This Article is brought to you for free and open access by the IAS Journals & Newsletters at UNI ScholarWorks. It has been accepted for inclusion in Iowa Science Teachers Journal by an authorized editor of UNI ScholarWorks. For more information, please contact scholarworks@uni.edu.

Offensive Materials Statement: Materials located in UNI ScholarWorks come from a broad range of sources and time periods. Some of these materials may contain offensive stereotypes, ideas, visuals, or language.

school at a time. Between twenty-five and thirty schools will be involved in the program so the units will be moved on the week-ends. With this approach, it is hoped that more students can be served.

How did you become a science teacher? Did you even decide that teaching was what you wanted, or did you just become one? Did you ever think that some other career might fit your criteria for job satisfaction but the risk of trying it was too high? If so, think of what career exploration might have done for you. Do your students deserve less?

Dubuque Symposium

On Saturday October 25, 1975, the University of Dubuque is planning its 3rd Annual Science and Mathematics Educators' Symposium. The present plans include lectures and discussion on drugs as the main topic. High school teachers in particular are invited. For further information contact Dr. Carl Osuch, Chairman of the Science Division of the University of Dubuque.

NSTA Pit Stop

In a few precious seconds a car is refueled, tires changed, engine problems diagnosed and cured, the driver gets advice from his crew . . . he's off again — that's a pit stop! You'll be able to make a pit stop at this year's area convention in Indianapolis on October 23-25. While we hope there's no need for "major repairs" you'll be able to refuel your tank of teaching ideas as you see and hear what others are doing. Teachers and students will be in the Pit Area with pet projects from their science classes and clubs. If you have an activity "that works," write it up, make some copies, and bring it to the Pit for exchange called "Bring One, Take Some." Anyone interested in participating in the Pit Area with a display and/or with students is asked to get more information from Barbara Hagerman, 8196 Old Farm Lane, Indianapolis, Indiana 46224.
