mid-February has been suggested as a place for the pre-symposium session where student researchers may get help on their presentations for the Iowa Symposium. Thus a statewide cooperative effort to improve high school student research throughout the state appears to be underway.

The response by administrators and faculty at The University of Iowa was again outstanding, as they demonstrated their concern for the bright science-oriented high school participants. Laboratory visits, personal interviews with professors, informal discussions, research presentations and formal banquets all involved many of the busiest and most renowned researchers, professors and administrators. The energies expended in this year's symposium were rewarded by the enthusiastic reactions, questions and comments of the participants.

## **Mrs. Keithahn Receives Outstanding Service Award**

The Iowa Science Teacher's Section of the Iowa Academy of Science is proud to announce that Mrs. Lena Keithahn has been selected as this year's

recipient of the Outstanding Service Award. Mrs. Keithahn has an outstanding record of service to the cause of science education in the State of Iowa. She has served in several capacities in the ISTS organization, including the presidency during the 1969-70 school year. She has directed and participated in many seminars and short courses. She has presented several papers regarding techniques in science teaching at the Iowa Academy meetings. She has also been very active in pre-service training and supervision of new and better science teachers for Iowa schools. The admiration and respect of the science teachers of Iowa go with the award, which reads: "Presented to Lena Keithahn, Representative of Outstanding Service to the Iowa Science Teacher's Section, Iowa Academy of Science for the year 1972."
