Programs in Environmental Education Readied for Mid-Fall Release

The latest National Science Teachers Association compilation of going environmental programs held by schools will be available by mid-October. *Programs in Environmental Education* is an aid to teachers, curriculum planners and others interested in examples of current environmental education programs.

NSTA sought information about these programs through an inquiry form that was sent to all state supervisors of science, all members of the National Science Supervisors Association and school systems represented in the NSTA curriculum bibliographies. The primary purpose was to locate materials that are available to others, and so NSTA requested that schools report only those programs that could handle inquiries, either by mail or in person.

Other current NSTA publications relating to the environment are *Vital Views of the Environment*, edited by Mrs. Mary E. Hawkins, and "Environmental Investigations—Getting Help from Uncle Sam" (a summary of environment-related activities of government agencies with a listing of representative publications from each), reprinted from the October 1971 issue of *The Science Teacher*.

Order direct from NSTA. Price per

copy: *Programs in Environmental Education*, \$1.50; *Vital Views of the Environment*, \$1.50; "Environmental Investigations—Getting Help from Uncle Sam," \$.50. Discounts: 2-9 copies, 10 percent; 10 or more copies, 20 percent. Payment must accompany all orders except those on official purchase order forms. Postage and handling charges will be added to billed orders.

NEW PUBLICATION

Journal of College Science Teaching is now being published quarterly by the National Science Teachers Association (Volume 1, Number 1, October 1971). The magazine is designed to disseminate the basic and innovative knowledge of science teaching and to promote the application of this knowledge to introductory college science and its function in bringing greater scientific literacy into general education.

Included will be national and legislative news, abstracts, innovations in curriculum and administration, books and audiovisual materials, and equipment and new products. Subscriptions are \$10.00 per year for libraries and non-NSTA members and \$8.00 per year for NSTA members in the regular, comprehensive or life member categories. Write to 1201 16th Street, N.W., Washington, D.C. 20036.
