The Iowa Science Teachers’ Journal

The IST Journal is published each October,
December, February, and April by the Iowa
Academy of Science for its members and
special subscribers. Its central theme is science
teaching at all academic levels.

Subscription Rates: Single copies $.50; sub­
scription, $2.00. For subscription, circulation
data, additional copies, and changes of ad­
dress, contact Dr. Robert Hanson, Iowa
Academy of Science, University of Northern
Iowa, Cedar Falls, Iowa.

Advertising Rates: Full page, single issue $50;
$160 per annum. For advertising information
contact: Walter DeKock, Science, University
of Northern Iowa, Cedar Falls, Iowa.

Publication: Open to all persons interested in
science education; preferential consideration for
Academy members. For information as to policy
as well as submission of new items of
general articles, contact: Robert E. Yager,
Science Education, U of I, Iowa City. All
manuscripts should be typewritten, double­

The cover photograph shows two ruby-throated hummingbirds sipping red-colored sugar water from a feeder. Hummingbirds (unlike other birds) derive power from both upbeat and downbeat of their wings, enabling them to hover indefinitely, rise vertically, fly forwards, backwards and sideways. The wingbeat of the ruby-throat is approximately 50 times per second, creating their characteristic zooming hum. Photographs by H. L. Dean, Department of Botany, The University of Iowa, using a hand-held Rolleiflex equipped with an Autostrobonar flash unit. The flash duration here is about 1/40,000 second.
