# Complete Teaching Guides on CORROSION With Demonstration Materials

These kits were given high ratings by the Committee on Evaluation of Business-Industry Sponsored Teaching Aids of the National Science Teachers Association and by selected teachers who used them.

## HIGH SCHOOL CHEMISTRY KIT

Principles of Corrosion Teaching Kit contains a dozen pieces of metal and an outline with reference material, procedures and questions. Answers are on a separate sheet. Some maintain that corrosion is a college level subject but with this unit many high school students are proving them wrong. It may be used as a classroom presentation or as extra activity for those who want to be challenged. This kit may be re-used many times.

One per teacher ..... Free.

PLEASE SUPPLY ONE

## JUNIOR HIGH SCIENCE KIT

Principles of Corrosion Teaching Kit contains six pieces of metal which don't do what the students expect them to do. They'll have questions, you'll have the answers on the accompanying teaching guide and reference sheet. This kit may be re-used many times.

One per teacher ..... Free.
