Nomination of H. S. Conard for Honorary Fellow

To the Fellows of the Iowa Academy of Science

We, the undersigned, fellows of the Iowa Academy of Science, nominate

HENRY SHOEMAKER CONARD

to become an honorary fellow of the Academy. Dr. Conard, a fellow of the Academy since 1907, has been an inspiring teacher and a productive scholar for more than half a century. Born in Philadelphia in 1874, he received his B.S. degree from Haverford College in 1894 and his Master's from the same institution in 1895. After four years of teaching he accepted a Harrison Fellowship at the University of Pennsylvania where he received his Ph.D. degree in 1901. After serving on the staff of the University of Pennsylvania for five years he became the Johnston scholar at Johns Hopkins, from which position he came to Grinnell College as Professor of Biology in 1906, where he now resides. During this period he was a summer lecturer at the Cold Spring Harbor Biological Station 1909-11, 1927-34, State University of Iowa 1913, Harvard University 1916 and was ranger naturalist in Yellowstone National Park 1924-26. He retired to Emeritus Professor in 1944, and was Visiting Research Professor at the State University from 1944-53. He holds the Sc.D. from Grinnell 1944 and Haverford 1945. He has published many papers in Botany over a wide range of plants and is recognized particularly for his contributions to our knowledge of the mosses.
