This Back Matter is brought to you for free and open access by the Iowa Academy of Science at UNI ScholarWorks. It has been accepted for inclusion in Proceedings of the Iowa Academy of Science by an authorized editor of UNI ScholarWorks. For more information, please contact scholarworks@uni.edu.

INDEX

A

- Abbott, Roy L., in memoriam of Winifred Gilbert, 40
- Abnormalities of Siamese twin lambs, 401
- Academy, organization of, 57
- Acetobacter, chemical transformations by, 127
- 4-Acyloxy derivatives of cinnamic acid, oxidation of, 249
- Adiabotic extension and compression of metals, 284
- Adjustment, home, evaluation of, 289
- Agarics, purple-brown spored, 83
- Aikman, J. M., see Shubert and Aikman
- Aitken, W. W., A preliminary report on a check-list of Iowa teleosts, 387
- Alcohol, blood, 261
- Alcohol, determination of, from preserved blood specimens, 225
- Alcohol, gelation of serum, 257
- Aliphatic, radicals, long-chained, 262
- Alpha particles, distribution in angle of long range, 287
- Alpha particles, distribution of, 286
- Ambisexuality and sex differentiation in *Ambystoma*, Winifred M. Gilbert, 307
- Ambystoma*, ambisexuality and sex differentiation in, 307
- Amides, direct syntheses of, 263
- Amines, aliphatic, long-chained, 263
- Amines, primary, pyrrolidines from, 264
- Ammonia and organic nitrogen determinations in stream pollution studies, Jack J. Hinman, Jr., W. Keith Weeber and R. Rupert Kountz, 213
- Ammonoids, permian, from Greenland, 269
- Anatomy of Siamese lambs, 401
- Anhydrous magnesium perchlorate, 159
- Animal tissues, phosphatase systems of, 235
- Anisole, iodination of, 265
- Annual reports, 21
- Anoxia, biochemical recovery from, 266
- Aphanorhagma patens* in Iowa, Roberta O'Harra, 115
- Apparatus for measuring tolerance to light and visual efficiency under different conditions of illumination, An, Glenn O. Martinson, 302
- Application of the Van't Hoff, equation to adsorption equilibria, H. H. Rowley and W. B. Innes, 165
- Aptitude tests in driving, 304
- Arnold, L. K., and A. D. Quackenbush, Jr., Plastics from soybean meal and furfural, 231
- Arnold, L. K., see Sweeney, Arnold, Dix, and Stelzer
- Augustine, Daniel W., Plants of Mahaska County, Iowa, 135

B

- Bartow, Edward, and Harland L. Wetzstein, Preparation of tyrosine from Steffen's waste, 190
- Behavior, college student, as an evaluation of the Iowa home adjustment inventory, 289
- Behavior, corrective measures for problems in, 298
- Behavior of some p-hydroxybenzaldehyde derivatives toward oxidizing agents, R. P. Perry and L. Charles Raiford, 264
- Behavior problems, 295
- Behavior, seriousness of problems in, 297
- Benson, R. E., D. L. Porth and O. R. Sweeney, The removal of fluorides from water by ionic exchange, 221
- Berg, J. Robert, Petrography of the tertiary igneous rock, Nigger Hill District, Wyoming-South Dakota, 270
- Biochemical recovery from anoxia, Ferrin B. Moreland, 226
- Biological background, evaluation test for, 301
- Birds, winter, of northeastern Iowa, 371
- Bleaching powder, 197
- Blood specimens, preserved, for alcohol determination, 225
- Bolzano function, 273
- Bushnell, John James, in memoriam (T. C. Stephens), 34

C

- Carty, Theron S., and A. R. Lauer, Driving aptitude of CCC enrollees as compared with a similar age group from the general population, 304
- Casein, manufacture of plastics from, 231
- Chemical evidences of intoxication, R. W. Getchell, 261
- Chemical transformations by Acetobacter, Nandor Porges, 127
- Chemistry, evaluation of quantitative experiments in, 181
- Chemistry, teaching of, in laboratory, 177
- Chimeric tulip, A, Karl A. Stiles, 155
- Chloride, cyanogen, 201
- Chloropicrin, production of, as needed from dry mixtures of picric acid and bleaching powder, 197
- Chorioid plexus, histological observations on, of third ventricle of the dog, 409
- Chrysemys marginata bellii Gray, western painted turtles, food habits of, 361
- Cicadellidae (leaf hoppers) in the Iowa insect survey collection, 393
- Cinnamic acid, oxidation of 4-acyloxy derivatives of, 249
- Clark, Melvin D., and Barbara J. Selzer, Studies in the properties of suspensoids, 283
- Clark, Norman Ashwell, and Elmer E. Frahm, The effect of various growth-promoting substances on the reproduction of Lemna, 239
- Clark, Norman Ashwell, Vitamins in plants, 123
- Coleman, George H., and Robert W. Leeper, Cyanogen chloride with organomagnesium compounds, 201
- Coleman, George H., Chris C. Schulze and Harold A. Hoppens, Pyrrolidines from primary amines, 264
- College student behavior as an evaluation of the Iowa home adjustment inventory, Earl E. Emme and Irvine Thoe, 289
- Comparison in size of pollen baskets of three races of honey-bees, A, J. M. Hitchings, 405
- Composition of three-component liquid mixtures, 207
- Conard, Henry S., Thirty Iowa liverworts, 97
- Conard, H. S., in memoriam of Mary Louise Sawyer, 45
- Conard, Henry S., Liverworts of the so-called unglaciated area of Iowa, 91
- Conservation, research program, 77
- Corixidae, Iowa, survey and ecological notes of, 331
- Corn, mutant strain of, 155
- Crane flies (Diptera: Tipulidae), 329
- Cratty, Robert Irwin, in memoriam (Ada Hayden), 31
- Critical evaluation of study habit inventories, A, Irene Mammen, 301
- Culbertson, J. B., see Holch and Culbertson
- Cupric sulfate, diffusion of into water, 189
- Cyanogen chloride organomagnesium compounds, George H. Coleman and Robert W. Leeper, 201
- Cytological research, use of parasitic nematodes for, 415

D

- Daniells, Marian E., A note on a Bolzano function, 273
- Danielson, Loran L., Temperature and photoperiod in relation to flowering in *Cucumis sativus*, 157
- Dennison, Raymond, The effect of riboflavin on the growth of plants, 157
- Devonic chronology in Iowa, Charles Keyes, 271
- Differences in the phosphatase systems of plant and animal tissues by a microtechnic, James J. Hilbe and T. U. Marron, 235
- Diffusion coefficient of cupric sulfate at 25°, The, W. G. Eversole and J. D. Peterson, 189
- Direct syntheses of amids from long-chained aliphatic amines, Byron A. Hunter, William I. Harber and H. Gilman, 263
- Disciplinary problems, in high school, 295
- Distribution in angle of alpha particles from $F^{19} + H^1$, A. Ellett, W. B. McLean, V. J. Young and G. J. Plain, 287
- Distribution in angle of alpha particles from $Li^7 + H^1$, V. J. Young, G. J. Plain, W. B. McLean, and A. Ellett, 286
- Dix, R. K., see Sweeney, Arnold, Dix and Stelzer
- Dog, third ventricle of, histology on epiphysis cerebri and chorioid plexus of, 409

Dreier, William, see Henry and Dreier

Driving aptitude of CCC enrollees as compared with a similar age group from the general population, Theron S. Carty and A. R. Lauer, 304

Earls, L. T., A heat vaporization experiment for elementary laboratory, 287

Earls, L. T., Quantitative spectrographic analysis of plant tissue, 285

Eastwood, Douglas W., see Stiles and Eastwood

Ecological and floristic aspects of Clay and Palo Alto Counties, Ada Hayden, 155

Effect of gelatin on the solubility of hydrogen at 25° C., The, W. G. Eversole and Allen Hanson, 190

Effect of riboflavin on the growth of plants, The, Raymond Dennison, 157

Effect of various growth-promoting substances on the reproduction of Lemna, The, Norman Ashwell Clark, and Elmer E. Frahm, 239

Effects of ultracentrifuging Oxytricha, Harold W. Kirshenblit, 417

Electrification, objective studies of, in microtechnique, 416

Ellett, A., see McLean, Young, Whitson, Plain and Ellett

Ellett, A., see Young, Plain, McLean and Ellett

Ellett, A., W. B. McLean, V. J. Young and G. J. Plain, Distribution in angle of alpha particles from $F^{19} + H^1$, 287

Emme, Earle E., and Irvine Thoe, College student behavior as an evaluation of the Iowa home adjustment inventory, 289

Emme, Earle E., see Harrison and Emme

Emys blandingii, study of urogenital systems of, 343

Ephiphysis cerebri, histological observations on, 409

Equilibria, adsorption, application of Van't Hoff equation to, 165

Equilibrium between gelatin and

Ducks, lead poisoning in, during winter of 1938-39, 397

Dyes containing long-chained aliphatic radicals, Fred W. Hoyt and H. Gilman, 262

E

water vapor at 25° C., The, W. G. Eversole and Fred Fordemwalt, 189

Eroded soil, as influenced by contour furrowing, 77

Esker-like deposit on the Middle Teton glacier, An, L. R. Wilson, 272

Estimation of the composition of the three-component liquid mixtures, S. G. Measamer and O. R. Sweetney, 207

Etiology of tuberculosis, 416

Evaluation of quantitative experiments, Melvin Mueller and R. W. Getchell, 181

Evaluation of study habit inventories, 301

Evaluation of test for biological background, 301

Eversole, W. G., and Allen I. Hanson, The effect of gelatin on the solubility of hydrogen at 25° C., 190

Eversole, W. G., and Fred Fordemwalt, The equilibrium between gelatin and water vapor at 25° C., 189

Eversole, W. G., and G. H. Wagner, Vapor density, liquid density and surface tension of solutions of potassium thiocyanate in liquid sulfur dioxide from 10° to 25° C., 190

Eversole, W. G., and J. D. Peterson, The diffusion coefficient of cupric sulfate at 25°, 189

Evidences, chemical, of intoxication, 257

Experimental evidence on Thorndike's Law of repetition and corollaries frequency and recency, Morgan Harrison and Earle E. Emme, 305

Exponential operators, Fred Robertson, 277

F

Fishes, hypothetical list of, may be discovered in Iowa, 390

Fishes, Iowa, 388

Flies, Crane, (Diptera: Tipulidae), 329

Flora, native, of Clay and Palo Alto counties, Iowa, 155

Flora of Mahaska County, Iowa, 135

Flower bud development in some varieties of tulip, John E. Sass, 156

Fluorides, removal of, from water by ionic exchange, 221
 Food habits of the western painted turtle, *Chrysemys marginata bellii* Gray, Emery G. Fritsch, 361
 Fordemwalt, Fred, see Eversole and Fordemwalt
 Frahm, Elmer E., see Clark and Frahm
 Frequency and seriousness of disciplinary problems in certain Iowa

high schools, Lyle K. Henry and William Dreier, 295
 Fritsch, Emery G., Food habits of the western painted turtle, *Chrysemys marginata bellii* Gray, 361
 Fritz, Martin F., A new test of imagination, 306
 Furfural, plastics from soybean meal and, 231
 Furnish, W. M., see Miller and Furnish
 Furrowing, contour, 77

G

Glacial marks, Arthur Goshorn, 271
 Gale, Grant O., Temperature changes accompanying the adiabatic extension and compression of metals, 284
 Galium, taxonomic study of genus, in Iowa, 101
 Galium, key to species found in Iowa, 104
 Gelatin and water vapor, equilibrium between, 189
 Gelatin reaction in blood serum, 257
 Genetic stability of tomato diploids and tetraploids derived from haploid, E. W. Lindstrom, 75
 Getchell, R. W., Chemical evidences of intoxication, 261
 Getchell, R. W., see Mueller and Getchell
 Gilbert, Winifred M., Ambisexuality and sex differentiation in *Ambysoma*, 307

Gilbert, Winifred, in memoriam (R. L. Abbott), 40
 Gilman, J. C., Illustrations of the fleshy, fungi of Iowa, 83
 Gilman, Joseph C., The organization of an academy, 57
 Gilman, H., see Hoyt and Gilman
 Gilman, H., see Hunter, Harber and Gilman
 Gilman, H., see Spatz and Gilman, 262
 Gilmore, J. W., see Venzke and Gilmore
 Goshorn, Arthur, Glacial marks, 271
 Grignard reagent, reaction of, with cyanogen chloride, 203
 Growth-promoting substances, effect of, on the reproduction of *Lemna*, 239

H

Habit, study, inventories, 301
 Halvorson, Orville, and H. E. Jaques, A preliminary list of the crane flies (Diptera: Tipulidae) of Iowa, 329
 Hanson, Allen L., see Eversole and Hanson
 Harber, William I., see Hunter, Harber and Gilman
 Harrison, Morgan, and Earle E. Emme, Experimental evidence on Thorndike's law of repetition and corollaries frequency and recency, 305
 Harris, Ross W., in memoriam (William H. Pfeffer), 41
 Hauber, U. A., in memoriam of Edward K. Putnam, 43
 Hayden, Ada, Ecological and floristic aspects of Clay and Palo Alto Counties, 155
 Hayden, Ada, in memoriam of R. I. Cratty, 31
 Heat vaporization experiment for elementary laboratory, L. T. Earls, 287

Henry, Lyle K., and William Dreier, Frequency and seriousness of disciplinary problems in certain Iowa high schools, 295
 Heredity and the etiology of tuberculosis, Karl A. Stiles and Thomas N. Stewart, 416
 High school, disciplinary problems in, 295
 Hilbe, James J., and T. U. Marron, Differences in the phosphatase systems of plant and animal tissues by a microtechnic, 235
 Hilbe, James J., see Marron and Hilbe
 Hinman, Jack and W. C. Oelke, Semi-micro analysis of tungsten, 185
 Hinman, Jack J. Jr., W. Keith Weeber and R. Rupert Kountz, Ammonia and organic nitrogen determinations in stream pollution studies, 213
 Histological observations on the epiphysis cerebri and on the chorioid

- plexus of the third ventricle of the dog, W. G. Venzke and J. W. Gilmore, 409
- Hitchings, J. M., A comparison in size of pollen baskets of three races of honeybees, 405
- Holch, Ralph, and J. B. Culbertson, Iodination of anisole, 265
- Home adjustment inventory, Iowa, 289
- Honeybees, comparison in size of pollen baskets of three races of, 405
- Hoppens, Harold A., see Coleman, Schulze and Hoppens
- How much time for the general chemistry laboratory, Edwin O. Price, 177
- Hoyt, Fred W., and H. Gilman, Dyes containing long-chained aliphatic radicals, 262
- Hunter, Byron A., William I. Harber and H. Gilman, Direct syntheses of amids from long-chained aliphatic amines, 263
- p-Hydroxybenzaldehyde derivatives, behavior of, toward oxidizing agents, 264
- Hypholoma incertum, 89

I

- Illustrations of the fleshy fungi of Iowa. I. The Purple-brown spored Agarics, J. C. Gilman, 83
- Imagination, a new test of, 306
- Innes, W. B., see Rowley and Innes
- Innoculation, effect of, on alcohol values of blood, 228
- Insect survey collection, leaf hoppers in, 393
- Insoluble residue of the Missouri and virgil series in southwestern Iowa, Edwin H. Wenberg, 267
- Intoxication, chemical evidences of, 257
- Iodination of anisole, Ralph Holch and J. B. Culbertson, 265
- Ionic exchange, removal of fluorides from water by, 221
- Iowa, fleshy fungi of, 83
- Iowa, liverworts of, 91, 97
- Iowa, southeastern, floristic features of, 135
- Iowa spiders, 333

- Lead poisoning in ducks of southwestern Iowa during the winter of 1938-39, Bruce F. Stiles, 397
- Leaf hoppers (Cicadellidae) in the Iowa insect survey collection, 393
- Leeper, Robert W., see Coleman and Leeper
- Lemna, effect of various growth-promoting substances on the reproduction of, 239
- Lemna major, 245
- Leyendecker, Philip Jordan, A taxonomic study of the genus Galium in Iowa, 101
- Light intensity effects on some of the Solanaceae, 156
- Light, tolerance to, and visual efficiency, under different conditions of illumination, 302
- Lindstrom, E. W., Genetic stability of tomato diploids and tetraploids derived from haploid, 75

Liquid density of solutions of potassium thiocyanate in liquid sulfur dioxide from 10° to 25°C., 190
 Liquid mixtures, composition of three-component, 207
 Liquid sulfur dioxide, 190
 List of the leaf hoppers (Cicadellidae) in the Iowa insect survey

collection, A, Carroll Padley, 393
 Liverworts of the so-called unglaciated area of Iowa, Henry S. Conard, 91
 Liverworts, list of thirty Iowa, to be distributed, 97
 Long-chained aliphatic amines, 263
 Long-chained aliphatic radicals, 262

M

Mahaska County, Iowa, flora of, 135
 Maize, mutant strain of, obtained by ultra violet treatment, 155
 Mammen, Irene, A critical evaluation of study habit inventories, 301
 Maney, T. J., see Paris and Maney
 Marron, T. U., and James J. Hilbe, A study of preserved blood specimens taken for alcohol determination, 225
 Marron, T. U., see Hilbe and Marron
 Marron, T. U., Studies on alcohol gelation of serum, 257
 Martinson, Glenn O., An apparatus for measuring tolerance to light and visual efficiency under different conditions of illumination, 302
 McClenon, R. B., Science and progress (address of the president), 49
 McLean, W. B., see Ellett, McLean, Young and Plain
 McLean, W. B., see Young, Plain, McLean and Ellett
 McLean, W. B., V. J. Young, W. L. Whitson, G. J. Plain and A. Ellett, The resonance in the B-P-a reaction, 286
 Measamer, S. G., and O. R. Sweeney, Estimation of the composition of three-component liquid mixtures, 207
 Melt-water volume of Iowa's last ice-sheet, Charles Keyes, 270
 Memorials: Robert I. Cratty, 31; John James Bushnell, 34; Edward Jacob Petry, 36; Winifred Gilbert,

40; Ross W. Harris, 41; Edward K. Putnam, 43; Mary Louise Sawyer, 45
 Metals, temperature changes accompanying adiabatic extension and compression of, 284
 Microtechnic, differences in phosphatase systems of plant and animal tissues by, 235
 Microfossils in a pre-Kansan peat deposit near Belle Plaine, Iowa, The, L. R. Wilson and R. M. Kosanke, 269
 Microtechnique, objective studies of electrification in, 416
 Miller, A. K., and W. M. Furnish, Permian ammonoids from Greenland, 269
 Miller, A. K., and W. M. Furnish, Permian ammonoids from southernmost Mexico, 268
 Millsbaugh, D. D., Preliminary survey and ecological notes of Iowa Corixidae, 331
 Missouri and virgil series in southwestern Iowa, 267
 Moreland, Ferrin B., Biochemical recovery from anoxia, 266
 Mottled enamel, disfigurement of teeth, 221
 Mueller, Melvin, and R. W. Getchell, Evaluation of quantitative experiments, 181
 Mullerian ducts, observance on occurrence of, in males of *Emys blandingii*, 343

N

Nelson, Mildred, Photoperiodic and light intensity effects on external structures of certain members of the Solanaceae, 156
 Nematodes, parasitic, use of, earthworm, 415
 New synthetic tools in the pyridine, quinoline and other nitrogen-heterocyclic series, Sydney M. Spatz and H. Gilman, 262

New test of imagination, A, Martin F. Fritz, 306
 Nicholson, Frank A., and P. L. Risley, A study of the urogenital systems of *Emys blandingii*, with observations on the occurrence of Mullerian ducts in males, 343
 Nitrogen-heterocyclic series, 262
 Note on a Bolzano function, Marian E. Daniels, 273

O

Oak-hickory forest, in Mahaska county, Iowa, 153
 Objective studies of electrification in

microtechnique, Karl A. Stiles and Douglas W. Eastwood, 416
 Oelke, W. C., see Hinman and Oelke

- O'Harra, Roberta, *Aphanorhegma patens* in Iowa, 115
 Oil discovery excitement in Iowa, Charles Keyes, 267
 Organic nitrogen, determinations in stream pollution studies, 213
 Organization of an academy, The, Joseph C. Gilman, 57
- Organomagnesium compounds, 201
 Oxidation of 4-acyloxy derivatives of cinnamic acid, Victor S. Webster and L. Chas. Raiford, 249
 Oxidizing agents, 264
 Oxytricha, ultracentrifuging, effects of, 417
- P**
- Padley, Carroll, A list of the leaf hoppers (Cicadellidae) in the Iowa insect survey collection, 393
 Padley, Carroll, and James Shipley, Some abnormalities of a pair of Siamese twin lambs, 401
 Parasitic nematodes of earthworm, use of, for class study, 415
 Paris, Clark D., and T. J. Maney, The rose crimson rambler and its progenies, 65
 Pennsylvanian strata, in Iowa, 267
 Peat deposit, pre-Kansan, in Iowa, 269
