INDEX

A

- Acetamide, binary systems with, 178
 Acetamide solutions of potassium chloride, freezing point curve of, 179
 Adams, J. Alfred, Further observations on the firebrat, *Thermobia domestica* (Packard) (Thysanura), 365
 Adaptation and variability of response of the human brain, The, B. K. Bagchi, 335
 Address of the President, 47
 Adjustment problems of college freshmen and contributory factors, The, Earle E. Emme, 304
 Adler, Dan L., Perception of relations in reading, 295
 Aikman, J. M., The radiometer: a simple instrument for the measurement of radiant energy in field studies, 95
 Aitken, W. W., Introduction of aquatic plants into the artificial lakes of Iowa, 133
 Aitken, W. W., Notes on the propagation of the large-mouthed bass, *Aplites salmoides* (Rafinesque) of Iowa, 341
 Aitken, W. W., Research vs. conservation, 107
 Alcohol-water, refractive indices of, mixtures at 25°C., 175
 Alcohols, n-aliphatic, liquid structure of, 268
o-Aminophenol, mixed diacyl derivatives of, 206
 Ammonooids, Iowa Devonian, 231
 Amytal, sodium, study of changes occurring under, 338
- Analysis of the Berger rhythm, with special reference to the duration and amplitude of the individual wave, An, John R. Knott, 337
 Anatomy, Comparative, in the small school, 361
 Anderson, Irving H., and Grant Fairbanks, Common and differential factors in reading vocabulary and hearing vocabulary, 279
 Anderson, W. A., Progress in the regeneration of the prairie at the Iowa Lakeside Laboratory, 87
 Antioxidants and the autoxidation of fats. V. Mode of action of anti- and pro-oxidants, L. A. Hamilton and H. S. Olcott, 203
Aplites salmoides, large-mouthed bass, in Iowa, 341
 Application of metal spraying to the construction of a high voltage condenser, H. D. Huntoon, 271
 Aquatic plants, introduction of, into artificial lakes, 133
 Are there types of learning and thinking that are functionally distinct, and if so, what?, Robert Leepers, 303
 Arnold, Roger, see Oelke and Arnold
 Art appreciation process, conditions affecting functioning of, 323
 Artistic expression, 324
 Aspects, timbre and sonance, of sustained vowel "o", 319
 Association-motor, tests, 333
 Atanasoff, J. V., see Wilson and Atanasoff
 Atoms, potassium, 270
 Attitudes, statistical study of, 307

B

- Baillie, J. C., see Lichtenwalter, Baillie and Carter
 Bagchi, B. K., The adaptation and variability of response of the human brain, 335
 Bakke, H. M., see Pearce and Bakke
 Barium acetate, use of, in determining base exchange capacity, 165
 Base exchange capacity of soils, 161
 Basic strength of ketimines by the use of the glass electrode, J. B. Culbertson and DeWalt Young, 203
 Bass, large-mouthed, propagation of, in Iowa, 341
 Bearing of Cambric re-definition upon Iowa, The, Charles Keyes, 249
 Becker, Elery R., and Neal F. Morehouse, The effect of vitamins on a coccidian infection, 398
 Bell adjustment inventory, validity of, 299
 Berg, Clarence P., see Correll, Berg, and Cowan
 Berg, Clarence P., Growth promoting ability of *d*- and *l*-lysine, 201

- Berg, Clarence P., see Conrad and Berg
- Berger rhythm, analysis of, 337
- Binary systems with acetamide, Robert Butikofer and Ben H. Peterson, 178
- Biological fluid osmotic pressure determinations, E. C. McCracken, 270
- Biota of the Cedar River as related to odor and taste production, The, E. J. Petry, 123
- Bissell, H. J., Pennsylvanian stratigraphy in the southern Wasatch Mountains, Utah, 239
- Black crappie, *Pomoxis sparoides*, propagation of, in Iowa, 345
- Blomquist, Richard F., see Coleman and Blomquist
- Bluegill, *Helioperca machrochira*, propagation of in Iowa, 345
- Bodine, Joseph Hall, see Thompson and Bodine
- Bodine, Joseph Hall, and Edgar J. Boell, Respiratory activity of grasshopper embryo as contrasted with intact egg, 392
- Bodine, Joseph Hall, and Edgar J. Boell, The effect of ultracentrifuging on the respiratory activity of developing and blocked embryonic cells, 391
- Boell, Edgar J., see Bodine and Boell
- Bog, microfossil succession in, 157
- Brain, human, response of, adaptation and variability of, 335
- Brandt, A. E., and A. Starbuck, Statistical analysis of change over or reversal tests, 305
- Brighthouse, Gilbert, A tachistoscopic study of aesthetic perception, 324
- Brown, P. E., see Millar, Smith and Brown
- Brown, P. E., see Mollenhoff, Smith and Brown
- Brown, P. E., see Smith, Brown and Millar
- Brown, Spencer F., see Johnson and Brown
- Buchanan, R. E., Paul Bunyan turns scientist (Address of the President), 47
- Bullera, studies on *Sporobolomyces* and, 158
- Burdick, Harold C., Effects of exposure to low temperatures on developmental time of embryos of the grasshopper, *Melanoplus differentialis* (Orthoptera), 398
- Butikofer, Robert, and Ben H. Peterson, Binary systems with acetamide, 178
- C**
- Calcium acetate, use of, in determining base exchange capacity, 165
- Calf, teratological, morphology of, 369
- Cambric re-definition, 249
- Carbon dioxide, effect of, on nitrate accumulation in Carrington loam, 113
- Carr, A. B., The liquid structure of the n-paraffins, 274
- Carrington loam, effect of carbon dioxide on nitrate accumulation in, 113
- Carter, A. J., see Lichtenwalter, Baillie and Carter
- Catalysts, effect of, on preparation and properties of organometallic compounds, 205
- Cedar river, biota of, 123
- Celloidin method, for rotary microtome, 394
- Cenozoic history of the upper Mississippi river, The, A. C. Trowbridge, 245
- Central determinants of peripheral manifestations in reading, Grant Fairbanks and Joseph Tiffin, 283
- Certain persistence of the characteristics of structure carried over from solid to liquid with alkali halides, A, G. W. Stewart, 267
- Characteristic features of intellectual deterioration in schizophrenia and organic psychoses, Eleanor Palmer, 340
- Chemistry in the Iowa Academy of Science, L. Chas. Raiford, 181
- Child-level, art appreciation process at, 323
- Circus hudsonius, marsh hawk, embryology of gonads of, 399
- Clark, Normal Ashwell, Green plants and the reactions of iron, 185
- Cobb, Charles Sherman, Memorial of, 33
- Coccidian infection, effect of vitamins on, 398
- Cohen, Victor W., see Ellett and Cohen
- Coleman, George H., and Gilbert E. Goheen, The preparation and analysis of monobromoamine, dibromoamine, monochloroamine, and nitrosylchloride, 178
- Coleman, George H., and Richard F. Blomquist, The reaction of dialkylmagnesium with monochloroamine, 201
- Common and differential factors in reading vocabulary and hearing vocabulary, Irving H. Anderson and Grant Fairbanks, 279

- Comparative anatomy in the small school, Fae M. Shawhan, 361
- Comparative progressive metamorphism of igneous and sedimentary rocks, R. C. Spivey, 253
- Comparative study of the normal and pathological ear with regard to intensity level preference and intelligibility of speech sounds, A. Noble H. Kelly, 289
- Conodonts, Oneota, 250
- Conrad, Ralph M., and Clarence P. Berg, Growth on histidine and lysine injected subcutaneously or intraperitoneally, 202
- Conservation, research vs., 107
- Coprinus atromentarius, "nebenkern," in, 159
- Corn, seedlings of, 160
- Correll, John T., Clarence P. Berg, and Donald W. Cowan, The influence of *l* and *al*-tryptophane and kynurenic acid administration on bile volume and composition, 202
- Countryman, M. Alden, Some obser-

- vations concerning the evaporation of metals from hot filaments, 269
- Cowan, Donald W., see Correll, Berg and Cowan
- Cowan, J. M., Pitch and intensity characteristics of American dramatic speech, 326
- Crescent, Iowa, Pennsylvanian section at, 235
- Criterion for prime numbers, A. Carl W. Strom, 263
- Cryptococcus hominis, life cycle of, 81
- Crystal, magnesium oxide, 270
- Crystals, alloy single, resistivities of, 272
- Culbertson, J. B., and DeWalt Young, Basic strength of ketimines by the use of the glass electrode, 203
- Current early paleozoic classification in Iowa, A. C. Trowbridge, 250
- Curriculum, psychologizing on the, 303
- Cytology of the developing muscle, The, Isabelle G. Weed, 400

D

- Damping constant of gunning forks, The, Scott N. Reger, 322
- Dean, Henry Lee, Records of a dodder gall-weevil in Iowa, 139
- Deardorff, D. L., see Eversole and Deardorff
- Deciphering an earthquake message, M. M. Seeburger, 249
- Decomposition of $4(x^p-1)/(x-1)$, The, Cornelius Gouwens, 255
- Dehydration, rates of, of grasshopper eggs, 397
- Delinquent, organization of function in the, 329
- Determinants, central, of peripheral manifestations in reading, 283
- Determination of potassium as triple nitrites, The, Everett F. Kelm and J. A. Wilkinson, 169
- Devonian, Iowa, ammonoids, 231
- Diacyl derivatives of *o*-aminophenol, 206
- Dialkylmagnesium, reaction of, with monochloroamine, 201
- Dibenzofuran series, orientation studies in, 204
- Dibromoamine, preparation and analysis of, 178
- Dicotyledon leaves, distribution of minor veins in, 159
- Diptera, in Iowa, 383
- Dodder, gall-weevil, records of, 139
- Drift, Nebraskan, 245
- Drinking waters, removal of fluorine from, 191
- Drouth recovery, and seasonal succession in a pond, 373

E

- Ear, normal and pathological, comparative study, 289
- Earthquake message, deciphering on, 249
- Effect of carbon dioxide on nitrate accumulation in Carrington loam, The, F. B. Smith, P. E. Brown and H. C. Millar, 113
- Effect of catalysts on the preparation and properties of organometallic compounds, M. Lichtenwalter, J. C. Bailie, and A. J. Carter, 205
- Effect of fluorides on the teeth, The, C. A. Kempf and V. E. Nelson, 197
- Effect of gelatin on the solubility of thallosal salts in water, W. G. Eversole and F. S. Thomas, 177
- Effect of hypertonic solutions on development, The, Arthur L. Schipper, 397
- Effect of penalty upon frequency of stuttering spasms, The, C. Van Riper, 308
- Effect of ultracentrifuging on the respiratory activity of developing and blocked embryonic cells, The, Joseph Hall Bodine and Edgar J. Boell, 391
- Effect of vitamins on a coccidian in-

- fection, The, Elery R. Becker and Neal F. Morehouse, 398
- Effects of exposure to low temperatures on developmental time of embryos of the grasshopper, *Melanoplus differentialis* (Orthoptera), Harold C. Burdick, 398
- Effects of Roentgen rays on development and respiration of grasshopper embryos, Titus C. Evans, 391
- Eggs, of grasshopper, effects of ultracentrifuging on, 391
- Eldridge, John A., An opportunistic laboratory, 273
- Electrode, glass, basic strength of ketimines by the use of, 203
- Electrodermal response data, from stimulation, 287
- Electrokinetic potentials at liquid surfaces, W. G. Eversole and D. L. Deardorff, 177
- Ellett, Alexander, and Victor W. Cohen, Magnetic velocity analysis of potassium atoms scattered by a magnesium oxide crystal, 270
- Embryo, grasshopper, respiratory activity of, as contrasted with intact egg, 392
- Embryology of the gonads of the marsh hawk, *Circus hudsonius*, Allan J. Stanley, 399
- Embryos, grasshopper, developmental time of, after exposure to low temperatures, 398
- Embryos, grasshopper, effect of Roentgen rays on development of, 391
- Emme, Earle E., The adjustment problems of college freshmen and contributory factors, 304
- Emotions, psychology of, 291
- Energy, free, of formation of pyridine, 171
- Energy, radiant, instrument for measurement of, 95
- Erosion, recent, in Middle river traverse, 252
- Evans, Titus C., Effects of Roentgen rays on development and respiration of grasshopper embryos, 391
- Eversole, W. G., and D. L. Deardorff, Electrokinetic potentials at liquid surfaces, 177
- Eversole, W. G., and F. S. Thomas, The effect of gelatin on the solubility of thallosal salts in water, 177
- Eye movement of stutterers during oral reading, H. C. Wyland, 313

F

- Factor in the distribution of minor veins in dicotyledon leaves, A. Robert B. Wylie, 159
- Factors controlling the diurnal spermatogenic cycle of the male sparrow (*Passer domesticus*), Gardner M. Riley, 396
- Factors influencing the frequency of stuttering reactions, Robert Larsen, 311
- Fats, anti-oxidants and autoxidation of, 203
- Fairbanks, Grant, and Joseph Tiffin, Central determinants of peripheral manifestations in reading, 283
- Fairbanks, Grant, see Anderson and Fairbanks
- Fairbanks, Grant, see Lewis and Fairbanks
- Filaments, hot, evaporation of metals from, 269
- Finkenbinder, E. O., A measure of the amount of chance in true-false tests, 306
- Firebrat (*Thermobia domestica*), further observations on, 365
- Fisheries, state, plan of, 108
- Floral societies, study of, 151
- Fluorides, effect of, on the teeth, 197
- Fluorine, removal of from drinking waters in the state of Iowa, 191
- Forest, postglacial history of, 158
- Fox, G. W., see Frederick and Fox
- Fox, G. W., see McCoy and Fox
- Frederick, J. R., and G. W. Fox, X-ray extinction in piezoelectrically oscillating quartz, 268
- Free energy, of formation of pyridine, 171
- Friedel-Crafts reaction with furans, The, M. McCorkle and J. A. V. Turck, Jr., 205
- Frost, injury of Robinia, *Fusarium* following, 101
- Function, organization of, in the delinquent, 329
- Furans, Friedel-Crafts reaction with, 205
- Furnish, W. M., *Oeonta Conodonts*, 250
- Further observations on the firebrat, *Thermobia domestica* (Packard) (*Thysanura*), J. Alfred Adams, 365
- Fusarium* following frost-injury of Robinia, A., J. C. Gilman and B. B. Sproat, 101

G

- Gall-weevil, dodder, 139
- Galligan, W. E., see Kempf, Galligan, Greenwood and Nelson
- Galloway, Eleanor, The microfossil succession in a bog in northern Wisconsin, 157

- Game refuge and nesting area, 353
 Gelatin effect of, on solubility of thalious salts in water, 177
 General outline of a universal frequency meter, A., D. O. McCoy and G. W. Fox, 272
 Genetic study of the vibrato, A, Alan D. Grinsted, 321
 Geology and the science of teaching, John E. Smith, 248
 Gilly, Charles, A preliminary report on a study of floral societies in a railroad switchyard, 151
 Gilly, Charles and Malcolm McDonald, Rare and unusual plants from southeastern Iowa, 143
 Gilman, J. C., and B. B. Sproat, A *Fusarium* following frost-injury of Robinia, 101
 Glacial epoch in Iowa, 247
 Glass electrode, use of, 203
 Glide, frequency, pitch perception of, 326
 Goheen, Gilbert E., see Coleman and Goheen
 Goshorn, Arthur, Recent erosion in Middle river traverse, 252
 Goshorn, Mrs. Arthur, New quarries in Madison county, 251
 Gouwens, Cornelius, The decompositions of $4(x^p-1)/(x-1)$, 255
 Grasshopper, eggs of, oxygen consumption and rates of dehydration of, 397
 Greater Des Moines River during waning glaciation, Charles Keyes, 247
 Green plants and the reactions of iron, Normal Ashwell Clark, 185
 Greene, Paul C., Intonation in violin performance, 318
 Greenwood, D. A., see Kempf, Galligan, Greenwood and Nelson
 Greenwald, D. Ulrich, A new technique in the treatment of electrodermal response data resulting from continuous affective stimulation, 287
 Grinsted, Alan D., A gentic study of the vibrato, 321
 Growth on histidine and lysine injected subcutaneously or intraperitoneally, Ralph M. Conrad and Clarence P. Berg, 202
 Growth promoting ability of *d*- and *l*-lysine, Clarence P. Berg, 201
 Gypsum in Iowa, 251

H

- Halides, alkali, 267
 Hamilton, L. A., and H. S. Olcott, Antioxidants and the autoxidation of fats. V. Made of action of anti- and pro-oxidants, 203
 Handedness in the first two years of life, Ruth Klein Lederer, 331
 Hayes, D. M., See Jacoby. Hayes and Van Ess
 Heat capacity and the free energy of formation of pyridine, The, J. N. Pearce and H. M. Bakke, 171
Helioperca machrochira, bluegill, propagation of, in Iowa, 345
 Henry, Lyle K., Let's psychologize on the curriculum, 303
 Hetzer, H. O., Inheritance of resistance and susceptibility to *Salmonella aertrycke* in mice, 394
 High-vacuum tetrode as a thyratron, The, R. D. Huntoon, 272
 Histidine, growth on, injected subcutaneously or intraperitoneally, 202
 History and development of the Goose lake upland game refuge and nesting area, Lloyd Smith, 353
 History of chemistry in Iowa Academy of Science, 181
 Holland, D. O., see Stewart and Holland
 Hormone, plant, 67
 Houtchens, H. Max, see Kephart and Houtchens
 Huntoon, R. D., Application of metal spraying to the construction of a high voltage condenser, 271
 Huntoon, R. D., The high-vacuum tetrode as a thyratron, 272
 Hydroquinone monoacetate, H. S. Olcott, 206
 Hymenoptera, in Iowa, 383
 Hypertonic solutions, Effect of, 397
 Hypophysis of the tiger shark, The, H. W. Norris, 351

I

- Ice, rate of withdrawal of, during glacial epoch in Iowa, 247
 Infection, coccidian, 398
 Inheritance of resistance and susceptibility to *Salmonella aertrycke* in mice, H. O. Hetzer, 394
 Imagination, creative, in artistic expression, 324
 Indians, notes on the religion of the, 209
 Indices, refractive, of alcohol-water mixtures at 25°C., 175
 Influence of *l* and *dl*-tryptophane and kynurenic acid administration on bile volume and composition, The,

- John T. Correll, Clarence P. Berg, and Donald W. Cowan, 202
 Insect induced galls, 139
 Insects, Iowa, preliminary list of some families of, 383
 Instrument for measurement of radiant energy, 95
 Intensive and durative aspects of the interpretation of a musical score, Arnold Small, 315
 Interrelation of seven tests of laterality, D. W. Morris, 309
 Intonation in violin performance, Paul C. Greene, 318
 Introduction of aquatic plants into the artificial lakes of Iowa, W. W. Aitken, 133
 Investigation of underground water resources of Texas, John T. Lonsdale, 249
 Iodine substitution products of vanillin, L. Chas. Raiford and Eugene H. Wells, 207
 Iowa Devonian ammonoids, A. K. Miller, 231
 Iron, reactions of, and green plants, 185

J

- Jacoby, A. L., D. M. Hayes and P. R. Van Ess, Orientation studies in the dibenzofuran series, 204
 Jaques, H. E., and Students, A preliminary list of some families of Iowa insects, 383
 Johnson, Wendell, and Spencer F. Brown, Stuttering in relation to various speech sounds, 315

K

- Kay, Geo. F., and Paul T. Miller, The Loveland and Peorian loesses of Iowa, 245
 Kephart, Newell C., and H. Max Houtchens, The specificity of response obtained on the association-motor test, 333
 Kephart, Newell C., The organization of function in the delinquent, 329
 Kelly, Noble H., A comparative study of the normal and pathological ear with regard to intensity level preference and intelligibility of speech sounds, 289
 Kelm, Everett F., and J. A. Wilkinson, The determination of potassium as triple nitrites, 169
 Kempf, C. A., and V. E. Nelson, The effect of fluorides on the teeth, 197
 Kempf, C. A., W. E. Galligan, D. A. Greenwood, and V. E. Nelson, Studies on the removal of fluorine from drinking water in the state of Iowa, 191
 Ketimines, basic strength of, by use of glass electrode, 203
 Keyes, Charles, Greater Des Moines River during waning glaciation, 247
 Keyes, Charles, Rate of ice withdrawal during the last glacial epoch in Iowa, 247
 Keyes, Charles, The bearing of Cambric re-definition upon Iowa, 249
 Knott, John R., An analysis of the Berger rythm, with special reference to the duration and amplitude of the individual wave, 337
 Kynurenic acid production in bile, 202

L

- La Fuze, H. H., Specificity of three wood-destroying fungi for Gymnosperm and Angiosperm woods, 157
 Lake Macbride, vascular flora of the area to be submerged by, 127
 Lakes, artificial, in Iowa, 136
 Lakes, introduction of aquatic plants into, 133
 Lapp, C. J., On teaching the vernier caliper, 273
 Lapp, C. J., Some observations on teaching bright students, 273
 Larsen, Robert, Factors influencing the frequency of stuttering reactions, 311
 Laterality, tests of, 309
 Lauer, A. R., A statistical study of attitudes, 307
 Layman, James W., Preliminary study of certain changes occurring under sodium amytal, 338
 Learning, types of, 303
 Lederer, Ruth Klein, Handedness in the first two years of life, 331
 Leepers, Robert, Are there types of learning and thinking that are functionally distinct, and if so, what?, 303
 Lees, James H., Memorial of, 42
 Let's psychologize on the curriculum, Lyle K. Henry, 303
 Lewis, Don, and Grant Fairbanks,

- Pitch perception of frequency glides, 326
- Lichtenwalter, M., J. C. Bailie and A. J. Carter, Effects of catalysts on the preparation and properties of organometallic compounds, 205
- Life cycle of *Cryptococcus hominis*, The, Ramona L. Todd, 81
- Light, relation of, to growth and movement of plants, 40
- Lignin, decomposition of, 117
- Liquid structure of *n*-aliphatic alcohols, The, G. W. Stewart, 268
- Liquid structure of the *n*-paraffins, The, A. B. Carr, 274
