## INDEX

## A

- Achievement test of dynamic control in music, O. Irving Jacobsen, 188
- Acid soil, nitrification in, 84
- Ackerley, Lois, The knowledge and attitudes possessed by parents of elementary school children, 202
- Action current waves, recording of, from homologous muscle groups during reflex activity, 191
- Adams, J. Alfred, The early instars of the firebrat, *Thermobia domestica* (Packard) (Thysanura), 217
- Additions to the flora of Linn County, E. J. Petry, 79
- Address of the President, Some biological contributions to recreation, H. E. Jaques, 41
- Aikman, J. M., Germination of corn in the field as affected by soil and air temperature, 84
- Air temperature, germination of corn as affected by, 84
- Albert, William E., Memorial of, 28
- Albright, Rachel, see Culbertson, Albright, Baker and Sweitzer
- Alkylated fuoric acids, germicidal action of, 81
- Almy, Frank Fayette, Memorial of, H. W. Norris, 25
- Analysis of tone quality of orchestral instruments, Donald A. Rothschild, 189
- Anderson, D. A., and R. H. Walker, Influence of nitrogenous compounds on the respiratory quotient of *Rhizobium*, 73
- Anisoptera (Dragonflies) in Iowa, 213
- Ammonium sulfate fertilizer, as aid in dandelion extermination, 70
- Apparatus for the demonstration of Malus law, using the photronic cell, Robert G. Wilson, 155
- Application of psychological classification of changes effected through learning to problems of curriculum construction, R. H. Ojemann, 201
- Aqueous solutions of perchloric acid, 94
- Archaeological finds in northeastern Utah, Albert B. Reagan, 131
- Are the response latencies of the achilles or patellar reflex responses recorded by the action current and muscle thickening techniques comparable? Clarence L. Nystrom, 171
- Are we giving the child a chance musically? Melvin D. Hattwick, 197
- Arnold, L. E., Preliminary study of some herbicides on dandelions, 67
- Artistic aptitude, studies in the foundations of, 195
- Artistic capacity, psychophysical functions characteristic of, 197
- Artistic personality, in playground situations, 197
- Austin, Stanley, Effects of exfloration on the soybean, 75
- Availability of indole derivatives for supplementing diets deficient in tryptophane, Lyle C. Baugness and Clarence P. Berg, 110

## B

- Bacterial flagella, staining of, 79
- Bacteria, phytopathogenic, potato tubers as culture medium for, 57
- Baker, Drew, see Culbertson, Albright, Baker and Sweitzer
- Baugness, Lyle C., and Clarence P. Berg, The availability of indole derivatives for supplementing diets deficient in tryptophane, 110
- Becker, E. R., and Phoebe R. Hall, Reinfection of rats with *Eimeria miyairii* after immunization, 239
- Becker, Elery R., see Hall and Becker
- Benedict, A. A., Discrimination of relatively pure spectral colors by normal and color blind subjects, 148
- Benzaldehydes, dipole moments of some substituted, 93
- Berg, Clarence P., see Baugness and Berg
- Berhenke, Luther, see Pearce and Berhenke
- Bettendorff's arsenic test, 96
- Bickford, W. G., and J. H. Wilkinson, The dielectric constant and

specific conductance of liquid hydrogen sulphide at 194.5° K, 89  
 Biological contributions to recreation, some, 41  
 Birth injury in relation to mental deficiency, Alice A. Jewell, 191  
 Blood volume in single and parabiotic rats, Robert T. Hill, 236  
 Boron-iron relationships in the growth of tomato, W. E. Loomis and J. J. Wilson, 53

Bowie, Robert M., see Fox and Bowie  
 Brown, F. E., see King and Brown  
 Brown, P. E., see Smith and Brown

**C**

Cadmium, polarization of, 148  
 Calloway, N. O., H. Gilman, and C. H. Werkman, Germicidal action of a-alkylated furoic acids, 81  
 Carboaryloxy radical in the migration of acyl from nitrogen to oxygen in ortho aminophenol derivatives, L. Chas. Raiford and G. O. Inman, 109  
 Carbon dioxide production in soils, oxygen absorption and, 74  
 Cathode rays, effect of, on metal surfaces, 150  
 Cathode rays, effect of, on photographic film, 151  
 Catlin, Willard E., see Gilman, Catlin, and Davis  
 Cercospora, conidial production in, 77  
 Characteristics of mercury vapor pumps, L. E. Pinney, 157  
 Chemical composition of types of soil, 95  
 Chromosomes, somatic, of *Cypridium* and *Habenaria*, 75  
 Clark, Norman Ashwell, The determination of manganese in biological material, 113  
 Class participation as a class room activity, J. E. Evans, 186  
 Class room activity, class participation as, 186  
 Coccidia, size of oöcyst in selected strain of, 235  
 Coleman, George H., and G. P. Waugh, Some reactions of diphenylethyleneimine and attempts to prepare aminoethenese, 115  
 Coleman, George H., Charles B. Yager and Harold Soroos, The preparation of dibromoamine and its reaction with Grignard reagents, 112  
 Colloids, soil, 86

Color blindness, testing for, 148  
 Color sensitivity as a test of fatigue, Leigh C. Douglass, 193  
 Comparative list of the Odonata known to occur in Iowa, Deloss Loudon, 213  
 Condensation of vanillin substitution products with methylene derivatives, L. Chas. Raiford and Donald E. Fox, 111  
 Conidial production in the genus *Cercospora*, C. M. Nagel, 77  
 Constitution of Iowa Academy of Science, revised, and By-laws, 12, 13  
 Contrasted till reliefs, Charles Keyes, 135  
 Contraction of the roots and crowns in *Medicago* and *Melilotus*, Austin O. Simonds and J. N. Martin, 83  
 Corn germination in field, 84  
 Cornog, Jacob, and Vernon A. Lamb, Some reactions in liquid sulfur dioxide, 97  
 Critical analysis of reading test scores, Francis P. Robinson and Frieda H. McCollom, 199  
 Crop residues, effect of, on potassium in alkali soils of Iowa, 96  
 Crystals, mosaic zinc, 156  
 Crystals, piezoelectric measurements of, 152  
 Crystals, zinc, elasticity of, 156  
 Culbertson, J. B., Rachel Albright, Drew Baker and Paul Sweitzer, Steric hindrance as a factor in the hydrolytic stability of aromatic ketimines, 113  
 Current views concerning the liquid state, Ross D. Spangler, 150  
 Curriculum, study of for parents of elementary school children, 202  
 Cytology of homothallism, J. E. Sass, 77
