This Back Matter is brought to you for free and open access by the Iowa Academy of Science at UNI ScholarWorks. It has been accepted for inclusion in Proceedings of the Iowa Academy of Science by an authorized editor of UNI ScholarWorks. For more information, please contact scholarworks@uni.edu.

INDEX

A

- Absorption spectra characteristic of vitamin A in animal and vegetable oils, J. B. Philipson and Jay W. Woodrow, 220
- Acoustic absorption, variation of, 219
- Actinomyces phenoltolerans* sp. nov., pathogenic in man, 49
- Action of solvents on Steffen's waste water from the manufacture of beet sugar, Edward Bartow and E. C. Little, 139
- Aikman, J. M., see Dodge and Aikman; Eisele and Aikman
- Aitken, Walter W., A comparative study of the digestive system of certain teleosts with special references to *Carpoides cyprinus*, 245
- American colleges, biology courses in, 253
- Anderson, D. A., and R. H. Walker, Variations in the viscosity of solution cultures of *Rhizobium*, 133
- Andersen, Hans P., see Coleman and Andersen
- Antioxidant, vegetable lecithin as an, 169
- Apollonius, hyperbola of, 197
- Aptitude test data, relation of, to fall quarter grades, 227; linguistic test, 228; perception test, 228
- Arnold, L. K., see Plagge, Wittemore and Arnold
- Arsenicals, furan, 176
- Artesian area, Story-Hamilton, 196
- Attitudes, measurement of Filipino, 223

B

- Bacteria, root nodules, of soybeans and cowpeas, 133
- Bakke, A. L., and H. Stiles, The relation of moisture to thermal conductivity in oats, 136
- Bartow, Edward, Disposal of wastes from the beet sugar industry, 160
- Bartow, and H. M. Benninghoff, The mineral analysis of Steffen's waste from the manufacture of beet sugar, 149
- Bartow and E. C. Little, Action of solvents on Steffen's waste water from the manufacture of beet sugar, 139
- Benninghoff, H. M., see Bartow and Benninghoff
- Beyer, Samuel Walker, Memorial of, C. S. Gwynne, 22
- Bieber, Paul, see Culbertson, Bieber and Zavodsky
- Biology courses in fifty American colleges, O. T. Walter, 253
- Birds found dead on Iowa primary roads, George O. Hendrickson, 251
- Bismuth single crystals, thermoelectric power in, 217
- Boreal moss community, Henry S. Conard, 56
- Botrychium obliquum Muhl., 56
- Boulders, limestone, 193
- Brown, Bernice, Sampling test of the technique of analyzing variance in a $2 \times N$ table with disproportionate frequencies, 205
- Brown, P. E., see Walker and Brown
- Buried seeds, notes on, 76
- Butler, L. W., and C. S. Dorchester, Note on atmospheric electricity and the effects of electricity on the growth of plants, 218

C

- Cable, E. J., A note on a fossil elk's head, 195
- Canada Thistle, reproduction of, 137
- Carpoides cyprinus*, digestive system of, 245
- Cavanaugh, Lucy M. Notes on Iowa mosses, V, 53
- Caves, ice, 196
- Cedar Valley limestone at Glory and at Waterloo, Iowa, L. W. Wood, 179
- Cedar Valley limestone, sedimentation of, 196

- Chloroamines, reaction of, with zinc alkyls, 176
 Chromosomes, somatic of, Orchidaceae, 137
 Citric acid, oxidation of, 175
 Citrobacter anindolicum, dissimilative action of, 134
 Coleman, George H., and Hans P. Andersen, Reaction of chloroamines with zinc alkyls, 176
 Color blindness, incidence of, at Iowa State College, 243
 Color conditions, lighting of a home under various, 213
 Color, discrimination, observation on spectral, 209
 Comparative cost of soap as a water softener, O. E. Lowman, 159
 Comparative study of the digestive system of certain teleosts with special references to *Carpoides cyprinus*, Walter W. Aitken, 245
 Comparative dissimilation of xylose and glucose by *Escherichia coli* and *Citrobacter anindolicum*, O. L. Osburn and C. H. Werkman, 134
 Conard, Henry S., A boreal moss community, 56; Gametophyte of *Botrychium obliquum* Muhl., 56
 Condensation of vanillin substitution products with acetophenone, Glen V. Gundy and L. Chas. Raiford, 175
 Conics, harmonic system of, 201
 Conics, with names, 197
 Convenient method for the laboratory preparation of absolute ethyl alcohol, Thomas H. Liggett and Kenneth Dykstra, 160
 Copper, role of, in hemoglobin regeneration, 163
 Cornog, Jacob, R. A., Karges and H. W. Horrabin, Iodine monochloride, 159
 Correlation of shape of fruits, cotyledons and seeds in melons, Leslie M. Weetman, 135
 Correlation studies of *Zea mays* under field conditions, Harold F. Eisele and J. M. Aikman, 135
 Cratty, R. L., Iowa Plant Notes, V, 85
 Cross inoculation between the root nodule bacteria of soybeans and cowpeas, R. H. Walker and P. E. Brown, 133, 134
 Crozier, W. D., Demonstration of dielectric hysteresis in rubber, 218
 Culbertson, J. B., and Ben Davis, Preparation and properties of furyl phenyl ketimine, 177
 Culbertson, J. B., Paul Bieber and Adolph Zavodsky, Strength of phenolic ketimines and their methyl ethers as bases, 177

D

- Daily and seasonal variations in the internal temperatures of two trees, *Populus deltoides* Marsh, J. N. Martin, 63
 Davis, Ben, see Culbertson and Davis
 DeKalb limestone, 193
 Demonstration of dielectric hysteresis in rubber, W. D. Crozier, 218
 Devonian age of Iowa, Upper, 183
 Dielectric hysteresis in rubber, 218
 Digestive system of certain teleosts, 245
 Disposal of wastes from the beet sugar industry, Edward Bartow, 160
 Dissimilation of xylose and glucose, 134
 Dodge, A. F., and J. M. Aikman, Effect of plant cover on soil temperature, 77
 Dorchester, C. S., see Butler and Dorchester
 Dragonflies, of northwest Iowa, 261
 Dykstra, Kenneth, see Liggett and Dykstra.

E

- Effect of plant cover on soil temperature, A. F. Dodge and J. M. Aikman, 77
 Eisele, Harold F., and J. M. Aikman, Correlation studies of *Zea mays* under field conditions, 135
 Eldridge, John A., Mean free paths of gases, 221
 Electricity, atmospheric, 218
 Electricity, effect of, on the growth of plants, 218
 Elk's head, fossil, 195
 Emmet county, plants of, 89
Escherichia coli, dissimilative action of, 134
 Ethers, methyl as basis, 177
 Ethyl alcohol, laboratory preparation of, 160
 Experiment to determine the influence of certain factors of learning during class period in college, E. O. Finkenbinder, 244
 Eye movement habits in reading efficiency, 231

F

- Factors of learning during class period, influence of, 244
 Filipino attitudes toward America, measurement of, 223
 Finkenbinder, E. O., An experiment to determine the influence of certain factors of learning during class period in college, 244
 Fossil elk's head, 195
 Frische, Carl, Motion of K⁺ ions in mercury vapor, 220
 Fritz, Martin F., Incidence of color blindness at Iowa State College, 243
 Furan arsenicals, Henry Gilman and Willard H. Kirkpatrick, 176
 Furan, nuclear condensations of, 176
 Furyl phenyl ketimine, preparation and properties of, 177

G

- Gametophyte of *Botrychium obliquum*, Henry S. Conard, 56
 Garwood, L. J., see Pearce and Garwood
 Gases, mean free paths of, 221
 Geology, our underground, 33
 Germination studies of woody plants, with notes on some buried seeds, C. M. King, 65
 Gilman, Henry, B. L. Wooley and
- R. S. Vanderwal, Nuclear condensations of furan, 176; and W. H. Kirkpatrick, Furan arsenicals, 176
 Goshorn, Arthur, Limestone boulders, 193
 Gundy, Glen V., and L. Chas. Raiford, Condensation of vanillin substitution products with acetophenone, 175

H

- Harrington, Harold D., The value of twig and bud characters in keys for the identification of trees in summer condition, 81
 Hattwick, Melvin S., A preliminary study of pitch inflection in the speech of preschool children, 237
 Hayden, Ada, Iowa field notes on reproduction of Canada thistle (*Cirsium arvense*), 137
 Hemoglobin regeneration, role of copper in, 163
 Hendrickson, George O., Birds found dead on Iowa primary roads, 251
 Henry, Lyle K., The relation of aptitude test data to fall quarter grades, 998 cases, fall 1931, 227
 Home, lighting, under various color conditions, 213
 Horrabin, H. W., see Cornog, Karges and Horrabin
 Humphrey, L. M., The somatic chromosomes of eight species of the Orchidaceae, 137

I

- Ice caves, John E. Smith, 196
 Incidence of colorblindness at Iowa State College, Martin F. Fritz, 243
 Infants, motility in newborn, 243
 Insects; Iowa, report of a survey of, 257
 Insulation board, variation of acoustic absorption caused by different surface treatments of, 219
 Iodine monochloride, Jacob Cornog,
- R. A. Karges and H. W. Horrabin, 159
 Ions, K⁺, in mercury vapor, 220
 Iowa field notes on reproduction of Canada thistle (*Cirsium arvense*), Ada Hayden, 137
 Iowa plant notes, V, R. I. Cratty, 85
 Irwin, Orvis C., Motility in newborn infants, 243

J

- Jaques, H. E., Progress report of a survey of Iowa insects, 257

K

- Karges, R. A., see Cornog, Karges and Horrabin
 Keil, H. L., and V. E. Nelson, The role of copper in hemoglobin regeneration, 163
 Kiepert configuration, 198
 King, C. M., Germination studies of woody plants, with notes on some buried seeds, 65

Kirkpatrick, Willard H., see Gilman and Kirkpatrick
 Kochenderfer, E. W., and H. Gregg Smith, Vegetable lecithin as an antioxidant, 169
 Kunerth, William, and Russel D. Miller, Variations of intensities of

the visible and of the ultra violet in sunlight and in skylight, 219; and Kathryn C. Waldron, Lighting of a home under various color conditions, 213
 Kuyper, Adrian C., oxidation of citric acid.

L

Lecithin, vegetable, 169
 Lees, James H., Our underground geology, 33
 Ligget, Thomas H., and Kenneth Dykstra, A convenient method for the laboratory preparation of absolute ethyl alcohol, 160
 Lighting of a home under various color conditions, William Kunerth and Kathryn C. Waldron, 213

Lilies; cultivated, meiotic irregularities in, 136
 Limestone boulders, Arthur Goshorn, 193
 Limestone, Cedar Valley, 179; sedimentation of, 196; species of, from Glory, Iowa, 180
 Little, E. C., see Bartow and Little
 Lowman, O. E., Comparative cost of soap as a water softener, 159

M

Martin, J. N., The daily and seasonal variations in the internal temperatures of two trees, *Populus deltoides* Marsh, 63
 Mean free paths of gases, John A. Eldridge, 221
 Mercury vapor, motion of ions in, 220
 Measurement of Filipino attitudes toward America by use of the Thurstone technique, Gertrude Hill Nystrom, 223
 Meiotic irregularities in cultivated lilies, 136
 Mercury still, new vacuum type, 217
 Miller, Russel D., see Kunerth and Miller

Mineral analysis of Steffen's waste from the manufacture of beet sugar, Edward Bartow and H. M. Benninghoff, 149
 Moisture, relation of, to thermal conductivity in oats, 136
 Moss community, boreal, Henry S. Conard, 56
 Mosses, notes on, 53; of *Taxus* hillside, 60, 61
 Motility of newborn infants, Orvis C. Irwin, 243
 Motion of K⁺ ions in mercury vapor, Carl Frische, 220
 Myers, Merrill M., Memorial of, James H. Lees, 29

Mc

McCreary, E. J., and H. G. Smith, A study of methods for the deter-

mination of reducing sugar in bacteriological media II, 171

N

Nelson, V. E., see Keil and Nelson
 Newborn infants, motility in, 243
 New data on the Upper Devonian of Iowa, S. W. Stookey, 183
 New species of Actinomyces pathogenic in man, C. H. Werkman and Roger Patrick, 49
 New vacuum type mercury still, L. E. Pinney, 217
 Nitro anilines in aqueous solutions of salts, solubilities and activity coefficients of, 161
 Note on a fossil elk's head, E. J. Cable, 195

Note on atmospheric electricity and the effect of electricity on the growth of plants, L. W. Butler and C. S. Dorchester, 218
 Notes on Iowa mosses, V. Lucy M. Cavanagh, 53
 Nuclear condensation of furan, Henry Gilman, B. L. Wooley and R. J. Vanderwal, 176
 Nystrom, Gertrude Hill, Measurement of the Filipino attitudes toward America by the use of the Thurstone technique, 223

O

Orchidaceae, somatic chromosomes of, 137

Osburn, O. L., and C. H. Werkman, Comparative dissimilation of xy-

lose and glucose by *Escherichia coli* and *Citrobacter anindolicum*, 134

Our underground geology, James H. Lees, 33
Oxidation of citric acid, Adrian C. Kuyper, 175

P

Patrick, Roger, see Werkman and Patrick

Pearce, J. N., and L. J. Garwood, The solubilities and the activity coefficients of the three nitro-anilines in aqueous solutions of typical salts at 85 degrees, 161

Phenolic ketimines, their methyl ethers as bases, 177; strengths of, 177

Philipson, J. B., and Jay W. Woodrow, Absorption spectra characteristic of vitamin A in animal and vegetable oils, 220

Pinney, L. E., A new vacuum type mercury still, 217

Pitch inflection in speech of preschool children, 237

Plaggé, H. J., Edward Richard Wittemore, and L. K. Arnold, Variation of acoustic absorption caused by different surface treatments of insulation board, 219

Plant cover, effect of, on soil temperature, 77

Plant notes, Iowa, R. I. Cratty, 85

Plants, effect of electricity on growth of, 218

Plants of Emmet county, Iowa, B. O. Wolden, 89

Popoff, Stephen J., Memorial of, Edward Bartow, 21

Poppy, W. J., Resistivity of zinc crystals, 217

Preliminary study of pitch inflection in the speech of preschool children, Melvin S. Hattwick, 237

Preparation and properties of furyl phenyl ketimine, J. B. Culbertson and Ben Davis, 177

Preschool children, pitch inflection in speech of, 237

Progress report of a survey of Iowa insects, H. E. Jaques, 257

R

Raiford, L. Chas., see Gundy and Raiford

Reaction of chloroamines with zinc alkyls, George H. Coleman and Hans P. Andersen, 176

Reading efficiency, eye movement habits in determining, 231

Relation of aptitude test data to fall quarter grades — 998 cases — fall 1931, Lyle K. Henry, 227

Relation of moisture to thermal conductivity in oats, A. L. Bakke, and H. Stiles, 136

Resistivity of zinc crystals, W. J. Poppy, 217

Rhizobium, variations in the viscosity of solution cultures of, 133

Robinson, Francis P., The role of eye movement habits in determining reading efficiency, 231

Role of copper in hemoglobin regeneration, H. L. Keil and V. E. Nelson, 163

Role of eye movement habits in determining reading efficiency, Francis P. Robinson, 231

Root nodule bacteria of soybeans and cowpeas, cross inoculation between, 133

Rubber, dielectric hysteresis in, 218

S

Sampling test of the technique of analyzing variance in a $2 \times N$ table with disproportionate frequencies, Bernice Brown, 205

Sass, John E., Some meiotic irregularities in cultivated lilies, 136

Sedimentation of the Cedar Valley limestone, A. C. Tester, 196

Seeds, buried, notes on, 76

Shales, calcareous, of Iowa, 184; Lime Creek, of Iowa, 188

Shape of fruits, cotyledons, and seeds in melons, correlation of, 135

Slaght, William Ernest Andrew, Memorial of, Christian A. Ruckmick, 27

Smith, H. Gregg, see Kochenderfer and Smith, see McCreary and Smith

Smith, John E., Ice caves, 196; Story-Hamilton artesian area, 196

Soap as a water softener, comparative cost of, 159

Soil temperature, effect of plant cover on, 77

Solubilities and the activity coefficients of the three nitro anilines in aqueous solutions of typical salts

at 85°, J. N. Pearce and L. J. Garwood, 161
 Solution cultures of Rhizobium, 133
 Somatic chromosomes of eight species of the Orchidaceae, L. M. Humphrey, 137
 Some conics with names, Roscoe Woods, 197
 Some dragonflies of northwest Iowa, Wilbur C. Yeager, 261
 Some meiotic irregularities in cultivated lilies, John E. Sass, 136
 Some observations on spectral color discrimination, Le Roy D. Weld, 269
 Soroos, A. Thermoelectric power in bismuth single crystals in the neighborhood of the melting point, 217
 Speech of preschool children, pitch inflection in, 237
 Spectral color discrimination, 209
 Steffen's waste, mineral analysis of, 149; water, action of solvents on, 139

Stiles, H., see Bakke and Stiles
 Stookey, S. W., New data on the Upper Devonian of Iowa, 183
 Story-Hamilton artesian area, John E. Smith, 196
 Strengths of phenolic ketimines and their methyl ethers as bases, J. B. Culbertson, Paul Bieber and Adolph Zavodsky, 177
 Study of methods for the determination of reducing sugar in bacteriological media, II, E. J. McCreary and H. G. Smith, 171
 Sugar, beet, action of solvents on Steffen's waste water from the manufacture of, 139; mineral analysis of Steffen's waste from the manufacture of, 149
 Sugar in bacteriological media, methods for determination of reducing, 171
 Sunlight and skylight, variations of intensities of the visible and of the ultra violet in, 219
 Survey of Iowa insects, 257

T

Teleosts, digestive system of, 245
 Temperatures, internal, of two trees, Populus deltoides, 63
 Tester, A. C., Sedimentation of the Cedar Valley limestone, 196
 Thermal conductivity in oats, relation of moisture to, 136
 Thermoelectric power in bismuth single crystals in the neighborhood of the melting point, A. Soroos, 217

Thompson, George Ellsworth, Memorial of, L. B. Spinney, 20
 Thomson and Darboux, conics of, 198
 Thurstone technique, measurement of Filipino attitudes toward America by use of, 223
 Trees, identification of, in summer condition, 81; internal temperatures of, 63
 Twig and bud characters in trees, 81

U

Udden, Johan Augustus, Memorial of, W. H. Norton, 24
 Ultra violet in sunlight and skylight, 219

Upper Devonian of Iowa, new data on, 183

V

Value of twig and bud characters in keys for the identification of trees in summer condition, Harold D. Harrington, 81
 Vanderwal, R. J., see Gilman, Wooley and Vanderwal
 Vanillin substitution products, condensation of, with acetophenone, 175
 Variance, technique of analyzing, 205
 Variation of acoustic absorption caused by different surface treatments of insulation board, H. J. Plagge, Edward Richard Wittemore, and L. K. Arnold, 219

Variations in the viscosity of solution cultures of Rhizobium, D. A. Anderson and R. H. Walker, 133
 Variations of intensities of the visible and of the ultra violet in sunlight and in skylight, William Kunerth and Russel D. Miller, 219
 Vegetable lecithin as an antioxidant, E. W. Kochenderfer and H. Gregg Smith, 169
 Visible spectrum in sunlight and skylight, 219
 Vitamin A in animal and vegetable oils, absorption spectra of, 220

W

Waldron, Kathryn C., see Kunerth and Waldron

Walker, R. H., see Anderson and Walker; and P. E. Brown, Cross

- inoculation between the root nodule bacteria of soybeans and cowpeas, 133
- Walter, O. T., Biology courses in fifty American colleges, 253
- Waste from beet sugar industry, disposal of, 160
- Water softener, comparative cost of soap as a, 159
- Weld, Le Roy D., Some observations on spectral color discrimination, 209
- Weetman, Leslie M., Correlation of shape of fruits, cotyledons and seeds in melons, 135
- Werkman, C. H., see Osburn and Werkman; and Roger Patrick, A new species of *Actinomyces* pathogenic in man, 49
