This Back Matter is brought to you for free and open access by the Iowa Academy of Science at UNI ScholarWorks. It has been accepted for inclusion in Proceedings of the Iowa Academy of Science by an authorized editor of UNI ScholarWorks. For more information, please contact scholarworks@uni.edu.

INDEX

A

- A. C. Circuit, see Phase relations
 Acids, unsaturated, see Nitrogen trichloride
 Aikman, J. M., Competition studies in the ecotone between prairie and woodland, 99
 Air, moving, see Cooling
 Albert, Henry, Epidemiology of poliomyelitis (infantile paralysis) with special reference to its occurrence in Iowa, 97
 Aluminium hydroxide, colloidal, simultaneous adsorption of salts by, Ben H. Peterson, 199
 Arc, see Carbon arc
 Atomicity in physical nature: the Address of the President, LeRoy D. Weld, 45
 Audio-oscillator technique in the study of beating intertones, I. B. Hauge, 298
 Audition, some basic experimental results in, A. R. Root, 265

B

- Bacteria in some Iowa soil profiles, P. E. Brown and T. H. Benton, 75
 Bacteria, see Nitrate assimilating power
 Baldwin, Bird T., The growth of the hand and wrist from birth to maturity, 301
 Baldwin, Francis M., Oxygen consumption in certain snakes. *Pituophis sayi* and *Lampropeltis getulus holbrooki*, with some notes on size and seasonal difference, 313
 Baltimore orioles, see Orioles
 Bartow, Edward, Water softening for municipalities, 203
 Beebe, Frederick S., Some relationships between scholastic efficiency and motor ability, 286
 Beebe, Frederick S., The relation of certain medical and physical data to scholastic success, 277
 Benton, T. H., see Brown and Benton
 Bethany limestones, Unconformable relations of, Charles Keyes, 219
 Biology, teaching of, in junior colleges and high schools, L. H. Pammel, 333
 Biology, see Color photography
 Blagg, Betty, Additional notes on Iowa mosses, 113
 Breath pressure in the vocal vibrato, experimental study of variations in, J. H. Tiffin, 297
 Brown, P. E., and Benton, T. H., Bacteria in some Iowa soil profiles, 75
 Brown, P. E., and Mendell, F. H., Biological effects of certain nitrogen fertilizers, 86
 Brown, P. E., see Erdman and Brown
 Burk, Myrel, Prairie vegetation and environmental factors, 143
 Burlington limestone near Oakville, Iowa, chemical composition of, Nicholas Knight, 217
 Butter fat, see Lecithin

C

- Cadmium atoms regularly reflected from a rock salt crystal, velocity of, A. Ellett and H. F. Olson, 248
 Carbon arc, new form of, L. B. Spinney, 253
 Carbon chains, dimensions of, G. W. Stewart, 251
 Castetter, Edward F., Studies on the germination of pumpkin pollen, 197
 Catalase activity, Temperature and, in germinating corn, C. W. Lantz, 147
 Chains, see Carbon chains
 Chapman, O. W., Effect of lecithin in dairy products upon butter fat determinations, 218
 Child, see Preschool child
 Cicatrization, see Citrus leaves

- Cinnamic acid, see Hydrogen bromide
Citrus leaves, wounded, cicatrization of, R. B. Wylie, 117
Clarke, Cornelia, see Conard and Clarke
Coccinellidae of Iowa, A study of, Karl Longnecker, 307
Cock characters, see Hen possessing doubling
Coe College museum, see Meteorites
Coleman, George H., and Mullins, G. M., Reaction of nitrogen trichloride with unsaturated acids, 218
College instruction, comparison of two methods of, Norma V. Scheidemann, 287
Color photography—methods and applications in biology, R. O. Martz, 141
Conard, Henry S., and Clarke, Cornelia, Pubescence of *Lithospermum canescens* and *L. gmelini*, 111
Cooling by evaporation in moving air, Roy A. Nelson, 245
Copper salts in nutrition, J. M. Eppard, V. E. Nelson, W. E. Sewell, 209
Corn, see Catalase activity
Cratty, R. I., Iowa plant notes, III, 105
Cress, marsh, see Marsh cress
Curtis, V., A study of the duration of fertility in poultry, 345
Curtis, V., see Schott and Curtis
Cygnus, see Star count
Cylinder, finite, see Heat flow

D

- Dairy products, see Lecithin
Death time, see Microorganisms
Dillé, Glenn S., Meteorites in Coe College museum, Cedar Rapids, Iowa, 225

E

- Ecotone, see Prairie and woodland
Elasmobranchs, the organs of the parietal fossa in, H. W. Norris, 341
Eldridge, John A., Ubi facit ibi est, 253
Ellett, A., and Olson, H. F., Velocity of cadmium atoms regularly reflected from a rock salt crystal, 248
Environment, see Prairie vegetation
Erdman, L. W., and Brown, P. E., Tests on Soilvita, 81
Eppard, John M., Nelson, V. E., and Sewell, W. E., Copper salts in nutrition, 209
Examinations, new type, use of, B. F. Zuehl, 257

F

- Farr, Clifford H., Memorial of, R. B. Wylie, 42
Fatigue, some aspects of the problem of, C. A. Ruckmick, 299
Fertility, duration of, see Poultry
Fertilizers, see Nitrogen
Fink, Bruce, Memorial of, L. H. Pammel, 34
Fish collected in the vicinity of Vinton, Iowa, David T. Jones, 327
Fitzpatrick, F. L., The dissection of an abnormally developed foetal pig, with notes on the possible origins of such "freaks," 319
Foetal pig, The dissection of an abnormally developed foetal pig with notes on the possible origins of such "freaks," 319
Fossa, see Parietal fossa
"Freaks," see foetal pig
Fungi, black, see Pyrenomycetes
Fungi, Iowa, Notes on, 1927, 131

G

- Geosyncline, see Rocky mountains
Germination, see Trees
Glenwood, see Tornado
Grubs, see White grubs

H

- Hand and wrist, growth of, from birth to maturity, B. T. Baldwin, 301
Hauge, Ingvald B., An audio-oscillator technique in the study of beating intertones, 298

- Hayden, Ada, see Pammel, King and Hayden
 Heart, mind, soul and spirit, use of words, O. M. Norlie, 259
 Heat flow in finite cylinder with variable surface temperature, Geo. E. Thompson, 246
 Hen possessing some structural doubling and limited cock characters, R. G. Schott and V. Curtis, 347
 Heptane, see X-ray diffraction
 Hinman, Jack J., Jr., Swimming pool sanitation at the University of Iowa, 98
 House wrens, see Wrens
 Hydrogen bromide, absorption of, by cinnamic acid in the presence of ultra-violet light, Gladys M. Woods and T. C. Poulter, 217

I

- Infantile paralysis, see Poliomyelitis
 Intelligence survey of state training school for girls at Mitchellville, Iowa; report of, Gladys Palmer, 269
 Intertones, beating, see Audio-oscillator
 Intonation, see Tonoscope
 Isomers, see Liquid isomers

J

- Jaques, H. E., A recount of the Baltimore orioles nesting in Mount Pleasant, Iowa, 305
 Jaques, H. E., The distribution of white grubs in Iowa, in 1927, 303
 Jones, David T., Fish collected in the vicinity of Vinton, Iowa, 327
 Juvenile form, see Trees

K

- Keys, Charles, Unconformable relations of Bethany limestones, 219
 Keys, Charles, Eastward extension of ancestral Rocky mountains geosyncline into Iowa, 220
 Keys, Charles, Geological date of western Iowa syncline, 223
 King, C. M., see Pammel and King, also Pammel, King and Hayden
 Knight, Nicholas, Chemical composition of the Burlington limestone near Oakville, Iowa, 217
 Knight, Nicholas, Memorial of Addie G. Wardle, 41

L

- Lady beetles, see Coccinellidae
 Lampropeltis getulus holbrookii, see *Pituophis sayi*
 Lantz, C. W., Temperature and catalase activity in germinating corn, 147
 Leamer, F. D., A new value of optimum thickness for X-ray scattering, 255
 Lecithin in dairy products, effect of, upon butter fat determinations, O. W. Chapman, 218
 Limestones, see Bethany, Burlington
 Lindstrom, E. W., Inheritance of shape in tomato fruits, 197
 Liquid isomers, determination of purity of, by X-ray diffraction, G. W. Stewart, 251
Lithospermum canescens and *L. gemlini*, pubescence of, Henry S. Conard and Cornelia Clarke, 111
 Loehwing, W. F., Sap hydrion concentration as a factor in plant metabolism, 135
 Longnecker, Karl, A study of the Coccinellidae of Iowa, 307

M

- Marsh cress, its geography and ecology in Iowa, L. H. Pammel, C. M. King, Ada Hayden, 157
 Martin, G. W., Notes on Iowa fungi — 1927, 131
 Martz, Ralph O., Color photography — methods and appliances in biology, 141
 Maxwell's distribution law, simplified deduction of, L. D. Weld, 241
 May Beetles, see White grubs
 Medical and physical data, relation of, to scholastic success, F. S. Beebee, 277
 Mendell, F. H., see Brown and Mendell

- Meteorites in Coe College museum, Glenn S. Dillé, 225
 Microorganisms, factors influencing death time of, C. H. Werkman, 97
 Mind, see Heart
 Mitchellville, see Intelligence survey
 Morehouse, D. W., and Zug, R. S., Star count in dark ring nebula in Cygnus, 55
 Mosses, Iowa, additional notes on, Betty Blagg, 113
 Motor ability, see Scholastic efficiency
 Mount Pleasant, see Orioles
 Mullins, G. M., see Coleman and Mullins
 Municipalities, see Water softening

N

- Nature, see Atomicity
 Nelson, Roy A., Cooling by evaporation in moving air, 245
 Nelson, V. E., see Evvard, Nelson and Sewell
 Nesting, see Orioles
 Nitrate assimilating power of soil and some nitrate assimilating soil bacteria, F. B. Smith, 69
 Nitrogen fertilizers, biological effects of, P. E. Brown and F. H. Mendell, 86
 Nitrogen trichloride, reaction of, with unsaturated acids, George H. Coleman and G. M. Mullins, 218
 Norlie, O. M., The use of the words heart, mind, soul and spirit, 259
 Norris, H. W., The organs of the parietal fossa in Elasmobranchs, 341
 Nutrition, see Copper salts

O

- Oakville, see Burlington limestone
 Olson, H. F., see Ellett and Olson
 Orioles, Baltimore, A recount of, nesting in Mount Pleasant, Iowa, 305
 Oxygen consumption, see *Pituophis sayi*

P

- Paarmann, J. H., Memorial of, L. H. Pammel, 31
 Palmer, Gladys, Report of an intelligence survey of the state training school for girls at Mitchellville, Iowa, 269
 Pammel, L. H., Memorial of J. H. Paarmann, 31
 Pammel, L. H., Memorial of Bruce Fink, 34
 Pammel, L. H., Teaching of biology in junior colleges and high schools, 333
 Pammel, L. H., and King, C. M., Further studies of the germination and juvenile forms of some trees and woody shrubs, 1927, 169
 Pammel, L. H., and King, C. M., Germination studies of some trees and shrubs, 1928, 184
 Pammel, L. H., King, C. M., Hayden, Ada, Marsh cress, its geography and ecology in Iowa, 157
 Parietal fossa, see Elasmobranchs
 Parks, state, how shall we treat? B. Shimek, 125
 Parrish, Jessie A., Pyrenomycetes or black fungi of Iowa, 151
 Peterson, Ben H., Simultaneous adsorption of salts by colloidal aluminium hydroxide, 199
 Phase relations, visible, in an A. C. circuit, L. B. Spinney, 254
 Photomograph, L. B. Spinney, 254
 Physical data, see Medical and physical data
 Pig, see Foetal pig
Pituophis sayi and *Lampropeltis getulus holbrooki*, Oxygen consumption in certain snakes, with some notes on size and seasonal difference, Francis M. Baldwin, 313
 Plant metabolism, see Sap hydrion
 Plant notes, Iowa, III, R. I. Cratty, 105
 Poliomyelitis (infantile paralysis), epidemiology of, Henry Albert, 97
 Pollen, see Pumpkin pollen
 Pollution, see Stream pollution
 Poulter, Thomas C., see Woods and Poulter
 Poultry, duration of fertility in, V. Curtis, 345
 Prairie and woodland, competition studies in the ecotone between, J. M. Aikman, 99
 Prairie vegetation and environmental factors, Myrel Burk, 143

- Preschool child, experimental psychology of, Beth L. Wellman, 299
 President, Address of, 45
 Psychology, see Preschool child
 Pumpkin pollen, studies on the germination of, E. F. Castetter, 197
 Pyrenomycetes or black fungi of Iowa, Jessie A. Parrish, 151

R

- Ring nebula, see Star count
 Rocky mountains geosyncline, ancestral, eastward extension of, into Iowa, Charles Keyes, 220
 Root, A. R., Some basic experimental results in audition, 265
 Rowe, Paul S., Tornado as it passed Glenwood, 239
 Ruckmick, Christian A., Some aspects of the problem of fatigue, 299

S

- Salt-crystal, see Cadmium atoms
 Salts, see Aluminium
 Sanitation, see Swimming pool
 Sap hydrion concentration as a factor in plant metabolism, W. F. Loehwing, 135
 Scheidemann, Norma V., A comparison of two methods of college instruction, 287
 Scholastic efficiency and motor ability, some relationships between, F. S. Beebee, 286
 Schott, R. G., and Curtis, V., Observations on a hen possessing some structural doubling and limited cock characters, 347
 Sewell, W. E., see Evvard, Nelson and Sewell
 Shimek, B., How shall we treat our state parks?, 125
 Shrubs, see Trees
 Singing, see Tonoscope
 Smith, Frederick B., Nitrate assimilating power of the soil and some nitrate assimilating soil bacteria, 69
 Soil, see Nitrate assimilating power
 Soil profiles, see Bacteria in Iowa soil profiles
 Soilvita, tests on, L. W. Erdman and P. E. Brown, 81
 Somes, Melvin P., Memorial of, A. O. Thomas, 40
 Soul, see Heart
 Sound localization, a summary of the facts and a restatement of the theory of, O. C. Trimble, 256
 Spinney, L. B., New form of carbon arc, 253
 Spinney, L. B., Photomograph, 254
 Spinney, L. B., Visible phase relations in an A. C. circuit, 254
 Spirit, see Heart
 Star count in dark ring nebula in Cygnus, D. W. Morehouse and R. S. Zug, 55
 State parks, see Parks
 State training school, see Intelligence survey
 Stewart, G. W., X-ray diffraction in liquids: isomers of normal heptane, 250
 Stewart, G. W., Determination of purity of liquid isomers by X-ray diffraction, 251
 Stewart, G. W., Dimensions of carbon chains, 251
 Stoner, Dayton, The increase in temperature and weight of young house wrens, 337
 Stream pollution in Iowa, status of, A. H. Wieters, 63
 Structural doubling, see Hen possessing some
 Swimming pool sanitation at the University of Iowa, Jack J. Hinman, Jr., 98
 Syncline, see Western Iowa syncline

T

- Temperature and weight of young house wrens, increase in, Dayton Stoner, 337
 Thomas, A. O. Memorial of M. P. Somes, 40
 Thompson, Geo. E., Heat flow in a finite cylinder with variable surface temperature, 246
 Thomson effect in single crystals of zinc, L. A. Ware, 255
 Tiffin, J. H., An experimental study of variations in breath pressure in the vocal vibrato, 297
 Tomato fruits, inheritance of shape in, E. W. Lindstrom, 197
 Tonoscope, new developments in:

- measurements on correct intonation in singing, H. M. Williams, 300
 Tornado as it passed Glenwood, Paul S. Rowe, 239
 Trees and woody shrubs, further studies of the germination and juvenile forms of, 1927, L. H. Pammel and C. M. King, 169
 Trees and shrubs, germination studies of, 1928, L. H. Pammel and C. M. King, 184
 Trimble, Otis C., A summary of the facts and a restatement of the theory of sound localization, 256

U

- Ubi facit ibi est, John A. Eldridge, 253
 Ultra-violet light, see Hydrogen bromide

V

- Vegetation, see Prairie vegetation
 Vibrato, see Breath pressure
 Vinton, see Fish

W

- Wardle, Addie Grace, Memorial of, Nicholas Knight, 41
 Ware, L. A., Thomson effect in single crystal of zinc, 255
 Water softening for municipalities, Edward Bartow, 203
 Weight, see Temperature
