*"One of the highlights of my year was working with UNI Jazz Band One. It was so inspiring to hear such young musicians playing in such a mature and exuberant way. They breathed such vibrant life into every piece they performed. I sat back and just listened to the first half of the concert in awe and with a grin of satisfaction a mile wide. This CD includes much of that music. Conducting them in a performance of my music for the second half was a total joy. The rhythm section, the lead playing, the solos... from bottom to top this is such an impressive group. They rejuvenated my spirit after lengthy travels, and made me feel like writing again. I hope to make music with many of them down the road in the long and fruitful careers that they are certain to have."*
