University of Northern Iowa Alumni Association

University of Northern Iowa Today is published during the fall, winter and spring by the UNI Alumni Association. UNI Today is distributed to members of the Alumni Association and select benefactors of the University of Northern Iowa. Suggestions and contributions for articles are welcome. Email unitoday@uni.edu or call 319-273-2355. The University of Northern Iowa is an equal opportunity educator and employer with a comprehensive plan for affirmative action.
In 1986, an article in a Delta Sky magazine sparked an idea that would eventually revolutionize the craft beer industry. “I was sitting in the Dallas/Fort Worth airport and came across an article about start-up breweries,” said John Hall, B.A. '65. “I thought ‘that sounds interesting.’ After 20 years, I had the itch to go do something different.”

So Hall left his corporate career and in 1988, opened Goose Island Brewpub in the heart of Chicago. Named for an island in the Chicago River, his brewery was one of only three microbreweries in the Chicago area at that time.

He didn’t set out to create an empire – he just wanted to be Chicago’s beer of choice.

“In Europe, they had all these great-tasting beers that we couldn’t get here,” said Hall. “In the U.S., any beer that wasn’t a light lager was strange.”

His son, Greg, was an English major at Iowa at the time. “When I told him my plans, he thought he’d died and gone to heaven!” said Hall.

Greg came on board to work with his dad and became an integral part of Goose Island, learning from their original brewmaster and eventually taking over the position himself.

“Greg is very innovative,” said Hall. “He created Bourbon County Stout, which revolutionized the industry by putting beer in wooden bourbon barrels to get more flavor. Everyone said that was crazy!”

While Goose Island Beer Company is now one of the largest craft breweries in the Midwest and boasts an impressive list of alumni brewers, the initial years were tough.

“It was hard to get people to try new beers. While the other two microbreweries went to light beer, we stuck to our mission of educating people on new tastes and developing their palates,” said Hall.

Looking back, Hall is proud of his Iowa roots (he grew up in Waterloo) and credits UNI as a large influence in his life. There he was introduced to both his mentor, Professor Leonard Keefe; and his wife, Patricia, whom he met on a blind date.

In 2011, Hall sold Goose Island Beer Company to Anheuser-Busch but retained the Goose Island Brewpubs and his passion for craft beers.

“For me, the craft beer industry is about fun, innovation and passion,” said Hall. “It’s fun to create a product that people like and it’s full of people who are passionate about what they do and their communities. I can only see it growing in the future.”
Welcome to the world of craft beer.

It’s a hardworking industry of independent, creative folks who are marrying art and science into one of the hottest trends in the U.S. today. Numbers of craft breweries and microbreweries are on the rise. In fact, with 2,833 breweries active in 2013, the U.S. is experiencing the highest levels of breweries that it has seen since 1876, according to BrewersAssociation.org.

And while many UNI students may have fond memories of enjoying a beer or two during their time on the Hill (after hitting legal age), a select few were inspired to take a road less traveled and venture into the world of craft brewing as a career.

Meet four UNI alumni who live, breathe and—well, drink—craft beer.

She may be the lone female manager in an otherwise male-dominated company, but Kelly Larson, B.A. ’95, brushes that off.

“I am the only female executive at Summit,” she said, “but honestly I never think about it, and I don’t feel I’m treated any differently. Knowledge and work effort are the most important things to everyone I know in the craft beer industry.”

As CFO of Summit Brewing Company in St. Paul, Minn., Larson oversees all financial reporting, banking and shareholder relationships, risk management, human resources, budgeting and strategic planning. Her hard work has paid off in more ways than one; in 2014, Larson was recognized as a CFO of the Year by the Minneapolis/St. Paul Business Journal.

Summit is the 23rd largest craft brewery in the U.S., according to the Brewer’s Association. “We’ll have more than 100 employees within the next year and produced 135,000 barrels in 2014,” said Larson.

Her favorite part of the job? “Being able to have a beer at any time of the day is a wonderful part of my job,” admitted Larson. “However, the part I really enjoy is working very closely with the founder of Summit, Mark Stutrud. He is a true entrepreneur.”

While her college days at UNI revolved around preparing for the CPA exam and her future accounting career (even having her own locker at the library since she practically lived there her last semester), she has fond memories of Suds, the Stein and OP pizza. “I truly enjoyed every minute of college,” Larson said.

Now in her role with Summit, she’s replaced her college beer of choice – Keystone Light in a can – with the dark, roasty Winter Ale from Summit.

“It’s amazing how things change!” Larson said. “The knowledge I’ve gained and respect I have not only for Summit, but all traditional craft breweries, is utmost as I definitely appreciate the science and art that goes into crafting a beer.”
Today

He took coursework from the Siebel Institute in Chicago (America's oldest brewing school), found his space at the corner of 2nd and Main and opened in the heart of downtown Cedar Falls in 2012. As with many craft breweries around the country, the community enthusiastically embraced the idea, making SingleSpeed a local favorite.

“At our level, we are constantly learning, which is fun for me,” he said. “There’s a crazy science to it that I don’t completely understand yet.”

Whether he is concocting new coffee-inspired beers with a local coffee house, brewing batches while his baby girl looks on, or planning for future growth, Morgan is clearly having fun.

“I enjoy the culture and the vibe it kicks off right now. There’s nothing but positive energy surrounding the industry,” said Morgan. “You never have a bad conversation about beer.”

It’s an insanely helpful industry,” said Dave Morgan, B.A. ’98, founder and brewmaster at SingleSpeed Brewing Co. in downtown Cedar Falls, Iowa. “Everyone wants to talk about it, everyone wants to be a part of it. It’s pretty amazing how many people roll through here on a weekly basis, whether home brewers or other local breweries or the big guys like Mark (founder of Summit Brewing) or John (founder of Goose Island). We get people reaching out to us all the time to collaborate and work on ideas. And we’re small!”

Small indeed, even in the craft beer industry, which defines itself using words like small, independent and traditional. SingleSpeed produces six barrels a week, which equals roughly twelve kegs. They brew twice a week, which is all their tanks (and space) allow. They serve a variety of guest brewery beers, both flagship and experimental, in their taproom.

“We try to focus on Midwest breweries, Iowa when possible,” said Morgan. “It’s not the easiest stuff to get; small breweries don’t currently produce much in terms of quantity.”

His inspiration for starting a nanobrewery? Discussion with his buddies after weekly bike rides while drinking craft beer, of course.

Jonathan Lewin, B.A. ’97, founder and COO of Excelsior Brewing Company, and wife Jessica, B.A. ’97

Join us at our Twin Cities Alumni Reception on April 9 at Excelsior Brewing Co.!

“The brewery really started on a Little League field,” admitted Jonathan Lewin, B.A. ’97, founder and COO of Excelsior Brewing Company in historic Excelsior, Minn. “It was a hot summer day in Minnesota so after coaching baseball practice, we took the kids out on the lake, had some beers and got to talking. Wouldn’t it be wonderful to do a brewery based around Lake Minnetonka and just have fun with it?”

Unlike many ‘what if’ conversations, this one had staying power. Lewin and his two partners started their own home brewing experiments, meeting after their kids’ bedtimes.

“We discovered we couldn’t make a great brew, but we knew how to build a business plan,” Lewin said. In 2010, they took their wives on a trip to the Craft Brewers annual conference in San Francisco. “It was our intention to continue building our plan, but we started conversations with equipment providers and got excited. So we took our wives out to Napa Valley, plied them with wine, told them we were ready to get serious about it and they said yes.”

Combining their business strengths with the talents of master brewer Bob DuVernois, the team opened Excelsior Brewing Company in July 2012 to great success.

Since then, Excelsior has expanded from 3,500 to 8,500 square feet, and produces 1,200 barrels a year, with the capacity for 9,000. They offer seven kegs in their taproom, with four flagship beers and 10-15 different styles on tap, depending on the season and have more than 30 employees. Lewin divides his time between acting as COO of the company, his day job in real estate development and coaching his sons in every sport possible.

He remains amazed about the overall attitude of the craft beer industry. “I call it coopertition. We’re all competitors, but the camaraderie and cooperation is unbelievable, whether you are local or national.”

As for his days as a Panther, the finance major and SAE member recalls many hours spent at Stebs and the OP on the Hill, training his palate for his future brewery career. “But my best memory of UNI is the one I wake up with every day – my wife, Jessica Fehlman (B.A. ’97),” shared Lewin.

The Lake Guy
HELPING SMALL BUSINESSES AND ENTREPRENEURS is nothing new to UNI Business & Community Services. In fact, over the last 20 years, BCS programs have reached out across the state and directly served thousands of small companies. However, a new program was introduced recently to provide in-depth assistance to companies that have already had some success but are looking to grow even further. With help from the Iowa Legislature, and comprised of an expert staff (four of whom are UNI alumni), Advance Iowa was launched in January 2013.

Advance Iowa works directly with local economic developers to identify businesses with 10-100 employees that are primed for growth. They help these businesses grow by listening and assisting them with defining, focusing and executing a plan that aligns with the company’s core mission. They provide detailed assistance with market research, financial analysis, online execution and e-commerce strategies by customizing a plan and approach that is appropriate for each unique company they work with.

One such company, Ranco Fertiservice, Inc., in northwest Iowa is a prime example of how a partnership with Advance Iowa can make a difference. Ranco Fertiservice, Inc. is a manufacturer of fertilizer blending and handling equipment. They have been in operation since 1961 and have made a name for themselves as a premier leader in their industry. Ranco is one of the largest manufacturing firms in the Sioux Rapids area and has a global reach, with equipment being sold and installed on five continents.

While this may be enough for some, Nathaniel (Knut) Brown, B.A. ’01, and Nate Wittmaack, B.A. ’06, weren’t satisfied with the success of the company. They took the opportunity to team with their alma mater.

**WHERE IN THE WORLD IS YOUR CARD?**

Show your UNI pride wherever you go and help support the UNI Alumni Association with every purchase you make, at no extra cost to you.
mater to help them grow even more. The Advance Iowa staff was able to identify high-level experts within the industry for Ranco and introduce sales tools to help them generate qualified contacts and leads.

“The tools they provided us were even better than expected,” said Wittmaack. “We’ve already started implementing their recommendations.”

Aside from identifying sales tools, Advance Iowa also analyzed the Ranco website for search engine optimization and helped them develop a comprehensive social media and online marketing strategy. With such a large-scale and customized product line, the process of going from lead to sale for Ranco is time consuming, but with Advance Iowa’s help, they are already starting to see the benefits.

“We are going to be very busy for the next couple of years,” Wittmaack said.

The UNI Alumni Association (UNIAA) has partnered with University Book and Supply to offer a special alumni collection. A portion of these sales will go to the UNIAA to enhance programs and services for alumni and students. Items will be added periodically, so check back often!
However, pressure from her family convinced her otherwise. She headed for Iowa State University, thinking she was doing the practical thing. Once there, though, she secretly auditioned for plays, not telling her mom. Upon seeing her perform, the UNI theater directors promptly offered her a scholarship to transfer.

"My dad died when I was 5; my mom said, 'Who's going to date me? I have six kids.' Then she married a guy with nine kids and they had one more. Of my 10 brothers, five are engineers," she said. "Mom was good at organization and collaboration but had no idea I could perform. I sang but everybody sang at our house. I sang a solo when I was in eighth grade. Then I started singing and making money at it. It was clear what I wanted to do."

Recruited to UNI by Tom Carlisle and Jay Edelnant, Brenda responded well to the theatre curriculum. She also credits Gretta Berghammer with providing a positive female role model.

"It was like a conservatory. It was intense," she shared. "If you could survive this training, you could be a professional. Jay kept me afloat when I wasn't sure if I could do it for a living. I understood I was an artist and it wasn't to be taken for granted. UNI gave me an insane amount of time on the boards—a lot of time as an actor, but also to produce, direct, design; that set me apart."

After graduation, she went to the University of Delaware for graduate school, then studied in Japan with Tadashi Suzuki, a renowned theatre...
director who created the Suzuki Method of Actor Training. Following her time with Suzuki, she moved back to the Midwest to do regional theatre in Chicago, where she married a fellow actor. When he was offered "Romeo and Juliet" at the American Players Theatre (APT) in Spring Green, Wis., they headed north.

"We made a pact to go with whoever got the next job. In Spring Green, I learned I was pregnant. Then the theatre lost its company manager," she said. "Coming from a big family, I knew how to work in a crowd and work with nothing. When I saw what was happening, I knew I had a lot of actor friends and was good at recruiting, so I helped with casting. I soon became casting director. I found a place and a purpose. My husband was in a company and it was clear we had found what we were good at."

Over the course of the next 20 years, she also served as APT’s company manager, artistic administrator and associate artistic director. In January 2014, she was named artistic director of APT.

"We are so happy we are here. In grad school, I said I wanted to run a theatre company in Iowa. Now 20 years later, here I am. It’s not Iowa, but it’s close," she said.

In addition to her artistic director duties, she also conducts workshops.

"I tell the students life is short and nothing is fair, so follow your passion. What I see are kids following their passion, but they spend a lot of time spiraling down a path of failure," she said. "The theater is an amazing place to become an incredible person. But some feel they’ve failed because they’re not working on Broadway or L.A. or at the Met. You have to figure out what makes you run on all pistons; that’s what you have to fill your life with."
IOWA, known for bountiful farms and delicious home cooking, is full of food deserts. Thousands of residents in the state do not have regular, dependable access to quality, nutritious food.

“It’s really very striking when you look at it,” explained Diane Depken, associate professor in the School of Health, Physical Education and Leisure Services. “Iowa has some of the best soil and the best farmers, but there are people in rural Iowa who are food insecure.” Depken and some of her students in the Health Promotion program decided to address the issue. After a couple of unsuccessful attempts, they applied for a grant from the Wellmark Foundation and were awarded $24,000 to launch F.R.E.D., the Food Resource and Education Demonstration cart. The goal of the program is to encourage healthy eating and good nutrition.

Depken describes F.R.E.D. as a “nudge program.” With the help of program director Jacque Bilyeu-Holmes and several undergraduate and graduate students, Depken and F.R.E.D. venture into the community to encourage healthy food choices through fun, interactive events and cooking demonstrations. They don’t overtly push people to eat well, but encourage healthy eating by showing it is easy, accessible and delicious. So far, they’ve worked with area churches, youth organizations, schools, and even joined a Zumba-thon. “We’re just getting people excited about trying new foods,” Depken explained. F.R.E.D. points people in the right direction while partnering with other organizations that help address the root causes of poor nutrition and obesity.

The goal can be a challenge. Depken and the F.R.E.D. crew work to find ingredients that can be accessed by low-income individuals who may not have easy access to fresh foods. They try to work with foods that are in season, which usually means they are less expensive. They also encourage looking at where the foods come from. “A lot of these are foods people can grow in their backyards,” Depken said.

While the funds from Wellmark are being used to address the issues in area food deserts, the project has been able to branch out into other areas to nudge larger audiences toward healthy, delicious food. One of the graduate students, Fatimah Alrubh, conducted a demonstration of food from Saudi Arabia at Mauker Union. The F.R.E.D. cart even made an appearance at the College of Education’s first Homecoming Brunch, making apple cheddar paninis with locally-sourced ingredients.

While the F.R.E.D. program is still young, it is growing. They are preparing to introduce audiences to Fred and Friends, several puppets that will be used in children’s programs aimed at healthy eating. They are also working with the Recycling and Reuse Technology Transfer Center.
DIRECTIONS

1. Bring water and 1/2 tsp salt to a boil in a medium saucepan. Add quinoa and return to a boil. Reduce to a simmer, cover and cook until the water has been absorbed, 15 to 20 minutes. Spread the quinoa on a baking sheet to cool for 10 minutes.

2. Heat 2 tbsp of olive oil in a large skillet. Add onion and bell pepper, and sauté until slightly soft. Add kale and sauté until slightly wilted (3-5 minutes). Remove from heat and allow to cool.

3. Meanwhile, whisk lemon juice, 3 tbsp olive oil, garlic, the remaining 1/4 tsp salt and pepper in a large bowl. Add the cooled quinoa, kale/onion/pepper mix, tomatoes, cucumber, parsley and mint; toss well to combine.

Options
• Other greens such as collard or mustard may be substituted for the kale.
• Add 6 oz tofu or diced, cooked, skinless boneless chicken breast to create an entrée.

INGREDIENTS

2 cups water
3/4 teaspoon salt, divided
1 cup quinoa, rinsed well
1/4 cup lemon juice
3+2 tablespoons extra-virgin olive oil
2 small cloves garlic, minced
1/4 teaspoon freshly ground pepper
1 small yellow bell pepper, diced
1/4 medium onion, finely diced
2 cups kale, washed & chopped
1 cup grape tomatoes, halved
1 cup diced cucumber
1/2 cup chopped fresh parsley
1/2 cup chopped fresh mint

On campus to develop food sustainability curriculum for F.R.E.D. As they look to the future, Depken is hoping to secure funds from other sources to branch out in other ways and continue to encourage healthy, nutritious eating among all communities. 

For more information on F.R.E.D., check them out on Facebook at facebook.com/pages/FRED/703415776373284.

Above: Food Corps member Grace Rathert works with a student from George Washington Carver Academy in Waterloo to prepare a potato salad using ingredients harvested from the school’s garden.

Monica Chavez, left, graduate student; Mary Stichter, faculty member in the Department of Teaching; and Jacque Bilyeu-Holmes, F.R.E.D. project director, work at the F.R.E.D. cart during the College of Education Homecoming Brunch.

Recognize anyone? If you can tell us more about these photos – who they are, the year it was taken, etc. - please contact Christy Danielsen in Alumni Relations at christina.danielsen@uni.edu or Gerald Peterson in the Rod Library Special Collections and Archives at gerald.peterson@uni.edu, or by calling 888-UNI ALUM. Thank you for your help as we work to preserve the history of UNI!
THANKS TO YOU

IT’S WORKING

In fall 2014, the University of Northern Iowa experienced a notable increase in several segments of our student population. The following segments increased at these outstanding rates:

• 4.4% — new students direct from high school  
• 20.2% — new undergraduate minority students  
• 22.3% — new international students

The 2014 retention rate was the highest it’s been in 15 years. Approximately 84.7 percent of our students returned for a second year compared to 82.9 percent in 2013. Compare that to a national average of 71.7 percent for similar institutions.

UNI alumni have played an important part in our enrollment success by being university ambassadors, sometimes without even knowing it. Alumni enthusiastically talk about the university with their sons and daughters, friends and business associates, and neighbors and community members. Those conversations typically include what they learned during their time at UNI, the people they met and how UNI prepared them for life after college. As alumni continue to spread the good news about UNI, an increase in enrollment and retention numbers will remain the norm for years to come.

Dear Alumni and Friends,

Returning to Cedar Falls in August has been an extremely positive move for my family and me. It is great to be back at my alma mater after graduating with a bachelor’s degree in management in 1996.

UNI recently created an associate vice president for enrollment management position, which I was overjoyed to accept. In this role I oversee our admissions, registrar and financial aid teams to help maximize student recruitment and enrollment at this outstanding university. Even though I’ve been out of state, most recently serving as the director of recruitment and admissions at Idaho State University, I am pleased to see that UNI continues to attract quality students dedicated to academics, on-campus involvement and career preparation.

I am deeply committed to higher education, having earned my M.Ed. in educational leadership, with Distinction, from Northern Arizona University. Throughout my career I’ve held leadership positions in admissions at Northern Arizona, Morningside College and the University of Iowa. It’s great to be back home, bringing my experience and knowledge to UNI.

The next time you’re on campus, stop by the admissions office in Gilchrist Hall to learn about all of the wonderful ways we’re spreading the news about UNI. And continue to recommend UNI to students looking for their next step after high school. Just as you had a positive experience at UNI, we all know they will too.

Sincerely,

Matthew Kroeger ‘96
Associate Vice President of Enrollment Management

Let’s keep it up by referring future Panthers to uni.edu/admissions/studentreferral

First impressions:
Complete surprise/confusion. I had the ridiculous idea that UNI was a far-off college that consisted of an indoor football stadium and a tall tower in the middle of campus. However, my first visit really showed off both the internal and external beauty of the campus. What I mean is that UNI is stunning, but the personnel also have a beautiful quality with the way they immediately made UNI feel like home to me.

Favorite thing about UNI:
• Endless involvement opportunities
• All the members of the UNI family who opened doors of opportunities for me in many different areas

Best advice for a college search:
I found the college search process to be very overwhelming. If I had to do it again, this is what I would advise:

1. Identify your “must haves.” Ask yourself, “What is something I need to have at a college in order to attend?” Start this process early!

2. Visit the schools! You cannot get a full grasp of what the school is like until you step foot on campus.

3. Finally, don’t rush the decision. If you have narrowed down your choice to a few schools, take your time weighing positives and negatives of each to help you make your final decision.
Name: Carl Reitz  
Senior biology major  
Hometown: Denison, IA  
Favorite artist: Ed Sheeran  
Favorite book: “The Kite Runner” or “A Thousand Splendid Suns,” both by Khaled Hosseini  
Active in: Northern Iowa Student Government, CATS, the Pre-Dental Club, American Chemical Society, University Honors Program

First impressions:
As cliché as it sounds, UNI felt big enough for me to fit in somewhere yet small enough for me to stand out. What really impressed me about UNI was the culture of the campus. Faculty, students and staff went out of their way to make UNI feel like home to me and that’s what sold me.

Favorite thing about UNI:
It was the people that got me to attend and I think it has been the people that have made me stay at UNI. I’ve met some truly incredible people here – staff, faculty and students. My professors have provided a challenging yet enjoyable academic environment. The staff I’ve come to know have been great resources and provided me with a very enjoyable on-campus work environment. Lastly, my fellow students have pushed me and allowed me to develop some great relationships.

Best advice for a college search:
I think college visits are important, but make sure YOU are the person choosing the college or university YOU want to attend. Parents and friends can be influential in the process, but remember your parents won’t be attending college with you (I assume). Don’t be afraid to grow your network outside of your high school classmates.
The University of Northern Iowa Department of Athletics inducted six individuals and the 1974-75 Panther wrestling team into its 2014 Athletics Hall of Fame.

This year’s Hall of Fame class includes Jill Arganbright, B.A. ’04, volleyball; Tony Davis, B.A. ’02, wrestling; Rachel Jansen, B.A. ’08, track and field; Brad Meester, B.A. ’99, football; Tyler Mulder, B.A. ’10, track and field; the 1974-75 UNI wrestling team and Dr. Constantine William (Deno) Curris with the Dr. Jitu D. Kothari Meritorious Service Award.

The six individuals were inducted in a ceremony in October. The 1974-75 wrestling team was inducted into the Hall of Fame on Jan. 4, 2015.

“The NEW VIDEO BOARDS in the UNI-Dome and McLeod Center are a significant step forward as we continue to enhance the spectator experience in our venues,” UNI Director of Athletics Troy Dannen, B.A. ’89, said. “The boards will also create opportunities to generate additional revenue as we continue to reduce our reliance on general education funds.”

The cost of the project was estimated at $1.3 million with funding provided by the Black Hawk County Gaming Association, Learfield Sports and UNI Athletics.
THE BOARD OF REGENTS, State of Iowa, has proposed major revisions to the funding formula for the state’s universities. The proposal would tie state funding to in-state students and to the universities’ performance on particular measures. As currently designed, it would also result in a significant net increase in state funding to UNI.

The formula largely follows the recommendations of the Performance Based Revenue Model Task Force, while providing additional weighting for graduate and professional students.

Transition to the new funding model would occur over a period of 3 years with a cap on any reallocation at 2% of the institution’s 2013 general education revenues per year.

- $47.7M will be reallocated from the University of Iowa over three years
- $12.9M will be reallocated in fiscal year 2016 (FY16) (split between UNI and ISU)
- $6.45M of that amount goes to the University of Northern Iowa in FY16

The reallocation will be reflected in the Board’s FY16 appropriations request to the Governor and must be approved by the Iowa Legislature. State funding for UNI declined significantly during the recession but has increased in recent years.

Of the three state universities, UNI:
- has the highest percentage of Iowa residents as undergraduate students (89%)
- relies the most on state funding (51% versus 35% at Iowa and ISU)
- currently receives 18% of the general education fund, versus ISU with 36% and Iowa with 46%
- has the greatest percentage of Iowa students who demonstrate financial need, but has fewer resources to devote to financial aid

Should this new performance-based funding model be approved, it will mean Iowa dollars follow Iowa kids. The UNI Office of Governmental Relations encourages all UNI alumni to share their thoughts with their local legislators.

Jarrod’s Story

UNIVERSITY OF NORTHERN IOWA sophomore Jarrod Lister believes he can get through anything. And he’s probably right.

At age 16, Jarrod was diagnosed with ulcerative colitis, a disease of the colon. The Ankeny, Iowa, native underwent two years of treatment before doctors determined that drugs and medications were ineffective.

To combat the life-threatening complications of the disease, surgery was required. Just months before enrolling at UNI, Jarrod endured a series of three operations that removed his colon and saved his life. This battle strengthened Jarrod’s determination to push through the rigors of earning a college degree.

“It’s a lot of hard work to continue through something like this,” Jarrod said. “I just want to apply myself as much as I can and show that nothing is going to keep me down.”

“Faculty has been spectacular during this time,” said Jarrod. “All my professors have been nothing but helpful. They are very understanding. They just want to help me in any way they can to continue my education and do as well as I can.”

Scholarships also play a major role in Jarrod’s education. He received the Alderman Scholarship, which assists needy, worthy and appreciative students within the College of Social and Behavioral Sciences (CSBS).

“Receiving this scholarship has really taken a lot of that worry about money off my shoulders,” Jarrod said. “My focus has shifted from how am I going to pay for this into how am I going to make this the best learning experience I can have.”

Jarrod, a psychology major, spent his summer as the media director at Riverside Lutheran Bible Campus. Last fall, he served as a teacher’s assistant for Professor Rowena Tan in CSBS.

Exciting changes are taking place in Schindler Education Center.

Gone are the days of chalkboards and chalk. Enter the days of Smart Boards and laptops. Today, students require sophisticated technology and an innovative building design to succeed in the classroom and to prepare to teach in Iowa’s preK – 12 schools.

The State of Iowa has allocated $30.9 million for the renovation of Schindler Education Center, built in the ’70s. Private support will ensure the building is equipped with advanced technology and that it includes spaces that reflect the changing trends in teaching and learning.

Nearly every college student carries a cell phone that can access information within seconds. The emphasis today is on knowing where to find information rather than memorizing facts.

“School facilities must move from traditional classrooms where students are information receivers to facilities that encourage active learning. This shift from teacher-centered
learning brings about the need for flexible education facilities,” says Victoria Robinson, Ed.D. ’71, department head of UNI’s Educational Leadership & Postsecondary Education.

Students live in a fast-paced, technology-driven world. Although it is a challenge to stay current with the rapid changes in technology, it is imperative.

“Technology is a force multiplier in education. It extends the expertise and influence a great teacher has in helping students achieve their dreams,” says Clayton M. Wilcox, B.A. ’79, M.A. ’91, superintendent of schools in Washington County, Maryland; recipient of the 2014 International Society for Technology in Education award and Maryland’s 2014 Outstanding Technology Leader.

The Schindler project, slated for completion in 2017, will also expand opportunities for the larger community to become engaged.

Outstanding services and programs that elevate UNI’s academic excellence are possible only through gifts and endowments from our alumni and friends. To learn how you can invest in education for Iowans, contact Andrea Elliott, College of Education’s development officer, at andrea.elliott@uni.edu.

2014-15 UNI ALUMNI ASSOCIATION
The University of Northern Iowa Alumni Association is proud to announce the re-introduction of Alumni Clubs in select cities throughout 2015.

The purpose of these clubs is to build Panther pride in select cities with a high number of UNI alumni. Events will be centered around:

- Athletics (game watches)
- Philanthropy
- Arts/Theatre
- Young professionals

The executive board for the specific clubs will also be centered around the above areas. If you have an interest area or want to be involved in a leadership capacity, please contact Heidi Riese at heidi.riese@uni.edu. Watch your email for more information.

Honor Your Collegiate Experience with UNI’s Class Ring

Your journey is filled with great UNI memories; they are cause for celebration and remembrance. You are invited to become part of a proud UNI tradition by wearing the Official Class Ring of the University of Northern Iowa. Available exclusively to students and alumni, the ring is a privilege you have earned.

Please visit www.balfour.com and select University of Northern Iowa.
It was an auspicious start to an unexpectedly long career. The day Mick Jagger and the Rolling Stones played in the UNI-Dome, Bill Calhoun, M.A. ’79, began as the assistant director for development with the university.

In 1981, we had a professional staff of three people,” Calhoun recalled. “We kept our assets in a lockbox under the desk,” he joked.

Almost 33 years later, as Calhoun prepares to retire, things look a little different around the office. The Advancement division now has 40 employees; the UNI Foundation’s endowment is $100+ million with total assets around $135 million – with no lockboxes in sight.

Calhoun has been a part of four major campaigns, worked for five UNI presidents and is proud to have played a small part in changing the face of the university. Over the course of his career, the UNI Foundation has helped bring the Gallagher-Bluedorn Performing Arts Center, the McLeod Center and the Human Performance Center to campus, among others.

“The impact that we’ve had – the work of university staff and alumni – on our students is definitely a highlight for me. Whether it is making a UNI education possible or reducing their debt through scholarships, providing them opportunities outside the classroom, whatever it might be, it is all about supporting the students and making sure they have the best experience possible,” he said.

One of his most amazing career moments revolves around the McLeod Center. “We had our Foundation board on campus the same day that we opened the construction bids,” Calhoun said. “This was during a time when the price of steel was going crazy - and not in a good way. In 45 minutes, the project went from $19 million to $24 million. Within a period of three hours, our board renewed their commitment; said ‘okay, we’re in;’ and committed themselves to raising the additional amount needed. And then almost every single one of those trustees stepped up and made an additional gift to that project as a result. Talk about people who care and really want to make sure they have an impact on this university.”

Over the years, Calhoun has enjoyed witnessing some of UNI’s exciting moments first-hand. In New York City, he attended the Broadway premiere of “The Bridges of Madison County” with alumnus Robert Waller, B.A. ’62; he traveled to the national championship game with the UNI Football team and cheered on the UNI Basketball’s Sweet 16 appearance.

“UNI kids are Iowa’s best kids,” he said. “Wherever we go, I’m always impressed with our students. They do such a good job of wearing the UNI brand and being ambassadors for our university.”

Reflecting on his time at UNI, Calhoun said, “It’s all about the people. The people you work with every day, staff and colleagues, but also our alumni and friends. I’ve had the wonderful opportunity to meet some really interesting people who wanted to make a difference at UNI. I came here with the thought of staying four years and then looking at other opportunities, but I’ve been blessed by the wonderful opportunities right here. You always plan to go on to bigger and better. I could have gone to bigger; but in my opinion they were never better. It’s just a great place.”
Class Notes are compiled from information sent in personally by alumni or submitted via news release to the Alumni Association office. If you would like to share your news, go to www.unialum.org/submit-class-notes.

Names listed in purple are Alumni Association members. Names that begin with a † are Lifetime Alumni Association members.

Send address changes and Class Notes submissions to info@unialum.org, www.unialum.org or by mail to University of Northern Iowa Today, UNI Alumni Association, 1012 W. 23rd Street, Cedar Falls, Iowa 50614-0284.

In the midst of the blowing, biting snow, January holds a precious gift for us all—a new year. Resolutions, goals and planning for the next 365 days hold so much hope! It takes a lot of work to keep resolutions. Here are some ways the UNI Alumni Association can help you keep yours.

Travel more

We launched our comprehensive travel program, Panther Tours, this past fall. Our first trip to Oahu had more than 275 travelers! We have a fantastic lineup of trips for any interest. Check out these unique opportunities at www.unialum.org/alumni-travel.

Learn a new skill

The Alumni Association has new career information and webinars on our website. Take advantage of these free opportunities by visiting www.unialum.org/career.

Give back

We have several ways for you to give back to UNI. Let us know if you are interested in mentoring a current student, hosting an alumni event, helping develop one of our new Alumni Clubs or supporting the university monetarily. Check out the Advancement division’s new student organization fundraising site—uni-foundation.org/pawprint and support one of our many programs!

We hope your year is off to a great start. We look forward to seeing you soon!

Leslie Prideaux
leslie.prideaux@uni.edu
Director of Alumni Relations
President, University of Northern Iowa Alumni Association

1940s

‘42 Kae (Luwe) Colville, 2-yr Cert., Mason City, at age 91 she remains an avid UNI sports fan! Kae served on the Alumni Association board from 1989-1992 and still resides in the home built by her husband, Willis Colville, BA ’46, who died in 2000.

‘49 Clarence Lippert, BA, Des Moines, received France’s highest decoration, the French Legion d’Honneur Medal, on 1/18/2014 in recognition of his actions since he joined the U.S. military more than 70 years ago.

’09 Ariana (Wolf) Krueger, BA, Grimes, received the 2014 Excellence in Science Teaching Award for Middle School/Junior High Science from the Iowa Academy of Science. She teaches 8th grade physical science at Dallas Center-Grimmes Middle School.

’09 Alexandria (Edelman) Merk, BA, West Point, was promoted to director of marketing and operations with Iowa State University Extension and Outreach of Lee County.

’09 Daniel White, BM, Bettendorf, served as the associate conductor for the national tour of “Beauty and the Beast” in 2013-14. He is currently pursuing a master’s degree in orchestral conducting at the Cincinnati Conservatory.

2010s

’10 Wade Arnold, BA, Cedar Falls, was one of five finalists for Executive of the Year at the 2014 Silicon Prairie Awards. The award honors companies and individuals for outstanding products, leadership and contributions to the community. Wade is currently CEO of Banno, LLC.

’10 Jack Luze, BA, Wilmington, DE, is clerking for Judge Kevin Gross, U.S. Bankruptcy Court, in the district of Delaware. He is a May 2013 graduate of Washington University Law School in St. Louis, MO.

’10 Jonell Pedesclaux, EdD, Lexington, KY, is a lecturer at the University of Kentucky.

’11 Ben Feight, BA, Mason City, was named 2014 Iowa Technology & Education Connection Technology Educator of the Year. He is currently a teacher at Harding Elementary School.

’11 Jeremiah Landon, BM, Fort Madison, is choir director at Fort Madison High School.

’12 Isaac Brockshus, BM, Columbia, SC, served as composer for original music used in a promotional video recorded and developed for the University of South Carolina.

’12 James Healy, BM, Jefferson, is director of vocal music for grades 5-12 in Dunkerton Schools. He returned to campus with his students for the fall 2013 UNI Vocal Arts Festival.

’13 Ashley Smith, MA, Iowa City, is band director at West Liberty High School. Under her direction, the West Liberty Marching Band earned a Division 1 rating at the Iowa High School Music Association Marching Band Contest in Oct. 2013.

Marriages

’02 Malinda (Fischels) Tugwell, BA, married Jon Tugwell on 2/8/2014.

’05 Lyndsey (Stephenson) Buhman, BA, married Tim Buhman on 6/21/2014.

’07 Derek Bloomquist, BA, married Jenny (Burmeister) Bloomquist, BA ’09, on 6/15/2013.

’11 Jeremiah Landon, BM, married Reba (Jongeling) Landon on 6/7/2014.

’12 Spencer Walrath, BA, married EmilyAnn (Brueck) Walrath, BA ’13, on 6/7/2014.

Alumni duo tackle retro football project

After collecting sports memorabilia for decades, Steve Anderson, B.A. ’86, of Chanhassen, MN, recently published a book titled “Retro Football Games,” a compilation of tabletop football games from the ’50s, ’60s and ’70s. To do so, he collaborated with Mindy Hauge-Woods, B.A. ’93, of Hopkins, MN, who owns her own graphic design business, Studio Woods, in the Twin Cities. She created the cover and inside design format for the book, which is 200+ pages.
Births

'99 Amy Mohr, BA, and Brent Johnson, BS '02, Cedar Falls, son Elijah Johnson born Aug. 2014.

'05 Amy (McDonald) Kaplan, BA, and Austin Kaplan, Ankeny, daughter Chesney Wynn Kaplan born 10/22/2013.

'07 Dave Tiede, BA, and Jennifer (Nebraska) Tiede, BM '07, Marion, daughter Isla Marie Tiede born 7/19/2014.

'08 Derek Merk, BA, BA '09, and Alexandria (Edelman) Merk, BA '09, West Point, son Sawyer David Merk born 8/21/2013.

'08 Ashley (Showers) Swett, BA, and Tyler Swett, BA '10, Urbandale, son Jack Michael Swett born 4/28/2014.

'11 Andrew Rupe, BA, and Angie (White) Rupe, BA '11, Marion, daughter Cecelia Teresa Rupe born 8/17/2014.

Deaths

'41 Vernon Kirlin, 2-yr Cert., BA '46, died 10/8/2014 in Mason City.

'41 Ruth (Lambertson) Sanderson, BA, died 7/30/2014 in Brighton, CO.

'46 Ethel (Flom) Swanson, BA, died 8/20/2014 in Kanawha.

'48 Jean (Beeman) Schmid, BA, died 7/27/2014 in Prescott Valley, AZ.

'50 Donna (Whiting) Hillemann, BA, died 7/22/2014 in Bloomington, MN.

'51 Marjorie (Morton) Van Zante, BA, died 7/25/2014 in Milwaukie, OR.

'58 Roger Balsley, BA, MA '70, died 9/26/2014 in Webster City.

'59 Betty Harrison, BA, died 6/6/2014.

'65 Carol (Packard) Ellett, BA, died 7/21/2014 in Corvallis, OR.

'68 Carol (Hahn) Stalkamp, BA, died 10/15/2013.

'69 Martha Holvik, MA, died 7/10/2014 in Cedar Falls.
Watch for details on our upcoming 2016 trips:

**South African Leadership Retreat & Safari Experience**
*May 12-20, 2015*
Experience a unique, transformative leadership retreat. The Short Walk to Freedom experience brings you to the shores of Robben Island and turns it into the University of Life.

**Exotic Mediterranean**
*May 19-31, 2015*
Cruise the Mediterranean on Oceania Cruises’ intimate Nautica, as you savor the colors, sounds and cultures from Turkey, Greece and Malta to Tunisia, Spain and Portugal.

**Coastal Alaska**
*July 7-14, 2015*
Travel to Alaska, a natural wonder of stunning landscapes and unspoiled wilderness, aboard the elegant Oceania Cruises’ Regatta.

**Baltic Marvels**
*August 19-27, 2015*
Marvel at the storybook settings, deep-rooted history and canal-laced capitals of the Baltic as you sail aboard the elegant Oceania Cruises’ Nautica, with stops in Finland, Russia, Estonia and Germany.

**Iberian Princes and Palaces**
*October 23-November 3, 2015*
Sail along the Iberian Coast and North Africa aboard Oceania Cruises’ intimate Marina to fascinating destinations including France, Morocco, Portugal and Gibraltar.

**Isles and Empires of the Adriatic**
*October 29-November 7, 2015*
Immerse yourself in ancient history and stunning landscapes as you cruise the azure waters of the Adriatic aboard the deluxe Oceania Cruises’ Riviera.
